

Riverside County recognizes the value of agriculture in Riverside County and realizes that when the agricultural/urban interface occurs, agricultural operations are often the subject of nuisance complaints. To address this issue, Ordinance No. 625 was adopted by Riverside County. This ordinance is commonly known as the "Right to Farm Ordinance". Its intent is to conserve, protect and encourage the development, improvement, and continued viability of agricultural land, industries and agricultural products in Riverside County while balancing the rights of farmers with the rights of non-farmers that own, occupy or use land adjacent to agricultural areas. Another intent of this ordinance is to limit the circumstances under which agricultural activities may be deemed to constitute a nuisance.

Re: Wine Country Plan

Dear Supervisor Stone:

As you know, I am the managing partner of the Ponte Family Winery and Ponte Vineyard Inn. For a number of years, I have worked with all of the parties concerning the Wine Country Plan. I am supportive of the Wine Country Plan and all of your efforts. However, I want to point out to you an area that, in my view, should not be included in the Wine Country. That area is the area south of Temecula Parkway. It really does not make economic sense for Wine Country nor does it enhance the Wine Country Plan. In fact, it may harm the Wine Country Plan by introducing an area that is contiguous to hundreds of homes and involve the vintners and others in an issue involving pesticides and agricultural uses.

In addition, I have reviewed the General Plan of the County and find that Anza Road is to be a four lane road in that area and certainly Wine Country could not support such a roadway project. Accordingly, I hope you will give serious consideration to removing this area from the Wine Country designation. Thank you again for all of your efforts and time that you spend with us.

Sincerely,

A handwritten signature in black ink, appearing to read "C. Ponte", written over a light blue horizontal line.

Subject: Support for Proposed Wine Country Community Plan

Dear Supervisors,

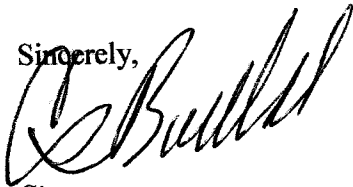

As a Riverside County resident, I strongly support the proposed Wine Country Trails Network, and ask that you pass the proposed trail map along with the entire Wine Country Community Plan.

Horse owners need a connected series of trails throughout the proposed Wine Country to enable them not only to enjoy a recreational sport they love but to keep their horses healthy through daily exercise. This applies for both competitive riders and pleasure riders.

The proposed map is the result of much work by your Parks Staff and local riding groups, landowners, vintners and residents, involving collaboration and compromise from all. The map will preserve precious historic routes as well as critical connector routes to allow riders to get from soon-to-be-landlocked areas to Riverside's wonderful Vail Lake, Lake Skinner and (soon) Diamond Valley Lake.

I urge you to pass the proposed trail map as a part of the Proposed Wine Country Community Plan.

Sincerely,

Signature

Horse owners need a connected series of trails throughout the proposed Wine Country to enable them not only to enjoy a recreational sport they love but to keep their horses healthy through daily exercise. This applies for both competitive riders and pleasure riders.

The proposed map is the result of much work by your Parks Staff and local riding groups, landowners, vintners and residents, involving collaboration and compromise from all. The map will preserve precious historic routes as well as critical connector routes to allow riders to get from soon-to-be-landlocked areas to Riverside's wonderful Vail Lake, Lake Skinner and (soon) Diamond Valley Lake.

I urge you to pass the proposed trail map as a part of the Proposed Wine Country Community Plan.

Sincerely,

Signature

Dear Supervisors,

As a Riverside County resident, I strongly support the proposed Wine Country Trails Network, and ask that you pass the proposed trail map along with the entire Wine Country Community Plan.

Horse owners need a connected series of trails throughout the proposed Wine Country to enable them not only to enjoy a recreational sport they love but to keep their horses healthy through daily exercise. This applies for both competitive riders and pleasure riders.

The proposed map is the result of much work by your Parks Staff and local riding groups, landowners, vintners and residents, involving collaboration and compromise from all. The map will preserve precious historic routes as well as critical connector routes to allow riders to get from soon-to-be-landlocked areas to Riverside's wonderful Vail Lake, Lake Skinner and (soon) Diamond Valley Lake.

I urge you to pass the proposed trail map as a part of the Proposed Wine Country Community Plan.

Sincerely,

Dear Supervisors,

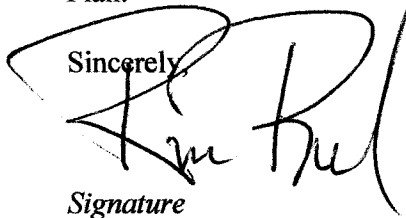

As a Riverside County resident, I strongly support the proposed Wine Country Trails Network, and ask that you pass the proposed trail map along with the entire Wine Country Community Plan.

Horse owners need a connected series of trails throughout the proposed Wine Country to enable them not only to enjoy a recreational sport they love but to keep their horses healthy through daily exercise. This applies for both competitive riders and pleasure riders.

The proposed map is the result of much work by your Parks Staff and local riding groups, landowners, vintners and residents, involving collaboration and compromise from all. The map will preserve precious historic routes as well as critical connector routes to allow riders to get from soon-to-be-landlocked areas to Riverside's wonderful Vail Lake, Lake Skinner and (soon) Diamond Valley Lake.

I urge you to pass the proposed trail map as a part of the Proposed Wine Country Community Plan.

Sincerely,

Signature
