**BACKGROUND:**

**Summary (continued)**

Assembly Bill (AB) 1220 authorizes CalRecycle to expend funds from the Integrated Waste Management Account, upon appropriation by the Legislature, to make grants to cities, counties, or other local agencies with the responsibility to provide effective waste management services.

Following adoption by the Board of Supervisors, this Resolution will enable the Waste Management Department (Department) to apply for various grant funding offered by CalRecycle. It also gives authority to the Department's General Manager-Chief Engineer, or designee, to execute all grant documents necessary to secure any awarded funds and implement programs.

**Impact on Citizens and Businesses**

CalRecycle offers funding opportunities authorized by legislation to assist public and private entities in the safe and effective management of waste streams. The funding opportunities may assist the Department in subsidizing some of the costs to grant funded programs that provide services to County residents. The Department qualifies for many of CalRecycle's grant programs that would be beneficial to the County and its residents.

**SUPPLEMENTAL:**

**Additional Fiscal Information**

**Contract History and Price Reasonableness**

The Department has applied for grants from CalRecycle and the former California Integrated Waste Management Board (until 2009), to provide funding for programs that increase recycling, waste diversion and provide free household hazardous waste collection to the residents of Riverside County. Grant funds have benefited the Department by providing a portion of the funds needed to implement, maintain and expand these services to the public. The Department routinely applies for CalRecycle grants such as the Waste Tire Clean-up and Amnesty Event grants, Reuse Assistance Grants, and Tire Derived Aggregate Grants. Since 2006, the Department has been awarded eight grants, providing a total of over \$632,000 dollars to be used for the expansion of landfill waste diversion and household hazardous waste collection programs. Grant funds have been used for public education, facility construction, equipment purchases and service level increases to the public.
