BACKGROUND:

Summary (continued)

The County of Riverside Treasurer-Tax Collector is responsible for the processing, printing and mailing of over one million tax bills to the owners of record for each property in Riverside County, producing approximately \$3 billion in revenue annually. Processing of tax bills occur at various times throughout the year on a monthly basis. The process and mailing of each tax bill before the assigned deadline is critical to ensure the efficient collection and the timely deposit of revenues.

In concurrence with the new CREST property tax system upgrade, the Treasurer-Tax Collector will be redesigning all of the property tax bills, possibly to one form, and implementing electronic billing. On-going since the summer of 2011, is the technical design and development of the new system, with an estimated initial go-live date of early to mid-2015. However, with multiple phases of release of software, the new system is not expected to be fully operational and implemented until July 2016. To allow for a more accurate scope of work for an RFP proposal, an extension to the current contract would provide the time necessary to incorporate the redesign of the bills, the development of electronic billing, and any other necessary requirements needed for the new system. Additionally, during this slow economic recovery, the County of Riverside cannot sustain a disruption in the printing and mailing of bills, which would have a substantial negative impact on the single largest source of revenue to the County of Riverside. Advanced Business Graphics is located in Riverside County, which would keep local jobs here in the County.

Contract History and Price Reasonableness

This annually renewable contract was awarded via the competitive bid process in February 2005, and extended through 06/30/2014 by the Board on May 24, 2011, Agenda #3.54. Although a significant portion of the cost for this contract is for paper and raw materials, which are not controllable by the Contractor, for the long-standing relationship with the County and with the assistance of Purchasing, ABG has agreed to reduce their portion of the costs for printing services by 10.2% per year by proposing an innovative approach with our various types of tax bills, resulting in an estimated cost savings of \$25,000 annually.

The goal of the Treasurer-Tax Collector is to maintain the contract, without interruption, until the new system is fully functional and to allow for a more accurate scope of work for an RFP proposal upon completion of the CREST property tax system upgrade.

Impact on Citizens and Businesses

Services are provided to all citizens throughout the County.
