AP-50 Geographic Distribution – 91.220(f)

Description of the geographic areas of the entitlement (including areas of low-income and minority concentration) where assistance will be directed

The County of Riverside is the fourth most populated county in the State, consisting of urbanized neighborhoods, suburban cities, and rural communities. Riverside County includes twenty-eight (28) incorporated cities (fourteen (14) participate in the Urban County program) and approximately sixty-three (63) unincorporated communities and neighborhoods. The County is also divided up into five (5) Supervisorial Districts. (Refer to Appendix) The County seeks to direct funds primarily to these areas of the County and to programs and projects that serve the most disadvantaged residents in these communities.

The Urban County is committed to allocating CDBG, HOME, and ESG funds within each Supervisorial District, Cooperating City, and Metropolitan City to address community development needs. The County has however not established specific priority areas per se to focus the investment of CDBG funds so for purposes of the Consolidated Plan geographic areas are more loosely defined to include administration, countywide, supervisorial districts, cooperating cities, and metro city(s). Priority is typically given to CDBG projects that benefit the greatest percentage of low/moderate-income persons, both as Low/Mod Area (LMA) or Low/Mod Clientele (LMC). Some service providers In the County may not always be located in low/moderate-income census tracts yet their services are designed and intended for low/moderate income clients. These may include clinics, food pantries, senior centers, health care facilities, etc.

Target Area	Percentage of Funds
Countywide	39
Administration	17
Supervisorial Districts	26
Cooperating Cities	15

Table 58 - Geographic Distribution

Rationale for the priorities for allocating investments geographically

The County has established priorities for allocating CPD funds based on a number of criteria, including: the established need; urgency of the need; cost efficiency; eligibility of activities/programs; funding program limitations; capacity and authority for implementing actions; consistency with countywide goals policies, and efforts; identified gaps in service; availability of other funding sources to address specific needs; comments and correspondence from interested agencies and organizations; and feedback from the general public.

The national objectives and performance outcome measurement system established by HUD are the basis for assigning priorities to needs for which funding may be allocated. Priorities are also based on the County's belief that, by increasing self-sufficiency and economic opportunity, many of the housing, social service, educational, and other needs can be addressed more readily. The overall priority for this Plan is to use CPD Federal funds for lower-income residents and individuals with special needs so that they can achieve a reasonable standard of living. The County is committed to allocating funds that serve the needs of the lowest-income and most disadvantaged residents. Households with incomes less than 50 percent of the area median income, particularly those with extremely low-incomes (less than 30 percent of area median income), are particular priorities.

Discussion

In order for an activity or project to be eligible for funding, it must qualify as meeting one of the three national objectives of the program:

- 1) Principally benefit (at least 51%) low and moderate income persons;
- 2) Aid in the prevention of slums or blight; or
- 3) Meet community development needs having a particular urgency.

Priorities that guide the allocation of CPD funds are derived from the following goals:

To provide decent housing:

To provide a suitable living environment; and

To expand economic opportunities.

In addition to national objectives and performance measurements, the County must weigh and balance the input from different groups and assign funding priorities that best bridge the gaps in the County's service delivery system. The County received input through outreach efforts helping to prioritize funding for community facilities, community services, homeless facilities and services, economic development,

and public improvements. In summary, projects are reviewed and funding allocations are made based upon the above criteria, including the projects ability to reach and serve the areas and persons with the greatest need.

Affordable Housing

AP-55 Affordable Housing – 91.220(g)

Introduction

Lower-income households continue to pay a higher percentage of their income for housing, compared to other income groups. A large proportion of lower income renter-households also tend to experience other housing problems such as overcrowding and inadequate housing conditions. In order to help provide decent and affordable housing, and improve the social and economic status for extremely low-, very low-, low-, and moderate-income households in the County of Riverside, the following priorities have been established:

1. Provide homeownership opportunities for first-time homebuyers and for the low- and moderate-income community.

Homeownership may provide many social and financial benefits to families, children, and communities. There is considerable evidence that homeownership experiences result in greater social stability, education completion, civic participation, and improved quality of life, according to “Reexamining the Social Benefits of Homeownership after the Housing Crisis” (Joint Center for Housing Studies of Harvard University, August 2013) and “Social Benefits of Homeownership and Stable Housing” (National Association of Realtors®, April 2012).

2. Improve the conditions of substandard housing and substandard existing rental housing for the low income community.

As the County’s housing inventory ages, maintenance and repairs become more critical. If homes fall into disrepair, residents may be subject to unsafe and unhealthful living conditions. A decrease in the supply of housing is possible unless new units are constructed at a rate that exceeds the rate of deterioration of existing units. Maintaining older homes and ensuring that durable construction materials are used for new housing is important in maintaining the supply of housing in the County.

3. Expand the affordable rental housing stock for low-income and special needs households.

Based on cost burdened household data from Comprehensive Housing Affordability Strategy (CHAS) and coupled with National Low Income Housing Coalition (NLIHC) projections, there is a great need to expand affordable rental housing stock for low-income households, as well as special needs households including elderly, large families, HIV/AIDS and their families.

4. Shelter the homeless.

According to the 2011 Riverside County Homeless Count & Survey Comprehensive Report, prepared by

Applied Survey Research, on a given day throughout the County of Riverside, there are approximately 6,203 adults and children who are homeless. Of these, more than 82 percent live on the streets and nearly 18 percent live in emergency shelters or transitional housing. Although HOME regulations prohibit the use of funds for the construction of shelters, the County seeks to develop and construct transitional to permanent housing for the homeless.

5. Address farm worker and migrant farm worker housing needs in Riverside County.

Based on December 2013 Labor Market Information from the California Employment Development Department, there were 15,700 farm labor jobs in Riverside County, primarily in the Coachella Valley region. In a survey conducted in December 2006, among 525 farm workers, 72% identified that they live year-round in the Coachella Valley. Approximately 88% lived in conventional housing situations including apartments, houses, and mobile homes. Over 66% were renters living with family members contributing to overcrowding. Among those interviewed, 2% identified that they lived in situations not meant for human habitation such as outdoors, cars, trailers on private property, or in converted garages.

Discussion

Five-Year Affordable Housing Objectives:

The County's Specific Affordable Housing Objectives for the (2014-2019) period are addressed in the following discussion. The discussion includes the basis for assigning the priority; obstacles to meeting underserved needs, and proposed accomplishments that the County hopes to achieve over the next five years.

1. Provide homeownership opportunities for first-time homebuyers and for the very low-, low- and moderate-income community.

1. First Time Home Buyer (FTHB) Program - HOME down payment assistance for very low and low-income households that have not had ownership interest in improved upon residential real property within the most recent three-year period.
2. Mortgage Credit Certificate (MCC) - Tax credit for qualified households to reduce homeowner income tax liability and increase disposable income to allow the homeowner to afford higher housing costs given their income.
3. Housing Authority of the County of Riverside (HACR) Infill Housing Program - Obligated redevelopment funds for the development and construction of affordable single-family housing on vacant or blighted lots transferred to the HACR as Successor Agency of the redevelopment housing functions, zoned for single family residences, and restricted to low-income households.
4. Mobile Home Tenant Loan (MHTL) Assistance Program – CalHome assistance for extremely low-income mobile homeowners living in substandard mobile homes and within identified census tracts.

2. Improve the conditions of substandard housing and substandard existing rental housing affordable to low-income families.

1. Low-Income Home Energy Assistance Program (LIHEAP). Community Action Partnership of Riverside County administers a weatherization program available to low income homeowners.

3. Address farm worker and migrant farm worker housing needs in Riverside County and in the Coachella Valley.

1. Mobile Home Tenant Loan (MHTL) Assistance Program. Assistance for extremely low-income mobile home owners in un-permitted mobile home parks to purchase a replacement unit in a permitted mobile home park.
2. HOME Program – Farm worker Housing. HOME assistance for the development, construction, or rehabilitation of affordable housing for low- and moderate-income farm worker households.

4. Expand the affordable rental housing stock for low-income and special needs households

1. HOME Program – Multi-family. HOME assistance for the development and construction of affordable rental housing for low- and moderate-income households. Assisted units are restricted by a 55-year affordability covenant.

5. Shelter the homeless. (Note: HOME regulations restrict the use of funds for the development and construction of homeless shelters or temporary housing.)

1. CDBG Public Service Activities. CDBG assistance to non-profit agencies that provide emergency shelters and supportive services for homeless persons.
2. Emergency Shelter Grant (ESG) Activities. ESG assistance for selected non-profit agencies for emergency shelter and essential services for homeless persons.
3. County Supported Single Room Occupancy (SRO) Housing. Supportive services and housing for homeless at La Hacienda Apartments (formerly Miles Ave SRO) and Geel Place (formerly Western Riverside SRO) located in Eastern Riverside County and Western Riverside County, respectively.

AP-60 Public Housing – 91.220(h)

Introduction

Actions planned during the next year to address the needs to public housing

The Housing Authority has planned the following activities for the next year to address the needs of public housing units or apartment complexes:

1. Replace the air conditioning units at the Broadway Manor Townhomes in Lake Elsinore to improve energy efficiency for residents.
2. Improve safety and increase energy efficiency at the Rubidoux Village Townhomes through the replacement and conversion of traditional light poles with solar light poles.
3. Replace aging interior fixtures at the Fort Drive Apartments in Rubidoux through the remodeling of kitchens and bathrooms at this community. This remodel will also include energy efficiency upgrades via energy efficient lighting replacement, the installation of water efficient plumbing and the installation of energy star appliances.

In addition to this modernization and rehabilitation work, the Housing Authority also plans to submit an application to HUD for the Rental Assistance Demonstration (RAD) project that would allow the agency to convert all or a portion of its public housing stock to long term project based Section 8 contracts. This conversion would allow HACR to leverage Federal appropriations with other private and public capital to finance much needed rehabilitation and preserve these assets as affordable housing. Residents will retain strong rights and gain the choice to move with tenant-based rental assistance within a reasonable time after conversion.

Actions to encourage public housing residents to become more involved in management and participate in homeownership

The Housing Authority operates on the premise that affordable housing is not the end goal for a family but a stepping stone to reach full sufficiency in market rate housing. The ultimate goal is for the agency's families to successfully graduate to homeownership. To actively engage residents in this goal the agency has taken the following actions:

1. Regular engagement of residents via onsite managers, a resident newsletter, and through specialized self-sufficiency coaches funded through HUD's Resident Opportunity and Self-Sufficiency (ROSS) program.
2. Providing outreach and information to all Public Housing residents on community homeownership initiatives and credit counseling agencies.
3. Working collaboratively with our local Habitat for Humanity to provide public housing residents with targeted homeownership opportunities.

4. The implementation of grant funded ROSS programs (noted above) at strategic public housing sites to provide one-on-one coaching to families with the goal of increasing the household's income and assisting the household with attaining homeownership within a three year period.

If the PHA is designated as troubled, describe the manner in which financial assistance will be provided or other assistance

N/A – HACR is not a troubled agency and has been rated as either a HUD “High Performer” or a “Standard Performer” in the past 5 years.

AP-65 Homeless and Other Special Needs Activities – 91.220(i)

Introduction

Homeless and homeless prevention services are identified as a high priority need in the FY 2013 - FY 2017 Consolidated Plan. The Urban County anticipates expending approximately 50 percent of its public service cap (up to 15 percent of the CDBG annual allocation) to provide homeless and homeless prevention services. Additional CDBG funds may be used to provide housing opportunities for the at-risk homeless.

Describe the jurisdictions one-year goals and actions for reducing and ending homelessness including

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

The County of Riverside CoC has established chronically homeless persons as the highest need priority. The CoC implements a targeted street-to-home outreach program/campaign that covers 100% of its area and takes a housing first approach for chronically homeless households and others with a disabling condition. Non-disabled persons are referred to ES or TH and housed as quickly as possible. The CoC will soon implement a coordinated assessment system to ensure the right intervention through program admissions that will be marketed to community groups and outreach providers who coordinate outreach efforts with staff trained to guide households through the process regardless of age, gender, ethnicity, disability, etc. The CoC has two outreach teams that cover most of county areas. The City of Riverside Street Outreach program conducts daily mobile outreach and provides client services focused on the CH populations living on streets to connect them with supportive services and achieve housing stability. The Department of Mental health has outreach peer specialists in the Desert-Mid county region and presents each person with an initial field assessment and an in depth assessment as well as referrals to all contacts, linkage to various community organizations, assist with entitlement questions and problems, linkage to mental health providers for assessment and services if appropriate and ES and TH by partnering with community agencies as well as facilitating referrals and other linkages to services.

Addressing the emergency shelter and transitional housing needs of homeless persons

To date, there are 646 emergency shelter beds and 540 transitional housing beds in the County of Riverside CoC. Transitional Housing (TH) is used to cover the costs of housing while providing case management and support services; providing a period of stability to enable homeless people to transition successfully to and maintain permanent housing within 24 months of program entry. To achieve its goal of ending homelessness, the CoC encourages communities to transform transitional housing programs to permanent supportive housing or rapid re-housing. The CoC is working with the county's Economic Development Agency (EDA), which administers ESG funding, to integrate CoC and ESG funding to increase the number of families with children who are assisted through rapid re-housing. In addition, non-McKinney-Vento funding sources, such as Emergency Food and Shelter Program (EFSP),

funded under FEMA will be matched as a source for rental/mortgage assistance for families that are homeless or at-risk of homelessness in the county's strategy to meet this goal.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

The CoC has taken the following steps to reduce length of time homeless (LOTH):

1) adopted and implemented a CoC wide Housing First approach; and 2) adopted and implemented a CoC wide Rapid Re-housing approach. CoC has recently increased the number of public/private partners to help implement these approaches. The CoC has also 3) begun revising intake processes to ensure homeless households are given the appropriate intervention at the time they are admitted to the program to help reduce their stay; 4) adjusted case management procedures in order to train CoC and ESG case managers to move away from a housing-ready approach to an evidence-based home-based case management approach; 5) improved data collection through HMIS by training participants to enter related data correctly and timely; and 6) generated monthly reports for outcome measurement. The CoC is in the process of adopting the HEARTH goal of no more than 30 days homeless and the high-performing communities goal of reducing LOTH at least 10% from preceding years. In 2012, ES LOTH was 30 days and 21 days in 2013. The CoC will target non-HUD funded projects to reduce their LOTH such as those who receive EFSP, CDBG, and HOME funding.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); or, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs

The County of Riverside CoC Discharge Policy is mandated by the state and followed by the CoC. The CoC established a Discharge Planning Committee, responsible for implementing policies and protocols and coordinating with various organizations, to ensure that persons being discharged from a publicly-funded institution or system of care are not discharged immediately into homelessness. The goals are to identify discharge housing needs inclusive of housing and supportive services and to link the individual with community resources that will include mental health services, substance abuse support and housing. Health Care-The Hospital Association of Southern California Inland Area serves as the lead agency on the Discharge Planning Committee to facilitate communication regarding the discharge planning needs of homeless persons from acute care hospitals. Mental Health-The County of Riverside Department of

Mental Health collaborates with DPSS and the CoC in the coordination and implementation of discharge planning for homeless individuals disabled by a serious mental health and/ or substance abuse disorder(s). Foster Care and Extended Foster Care programs help transition dependent youth who are emancipating from foster care to independent living. Corrections-The Department of Public Social Services and the Riverside Sheriff's and Probation Departments support the Continuum of Care's mission of working towards reintegrating persons leaving correctional facilities to community based living and self-sufficiency.

AP-75 Barriers to affordable housing – 91.220(j)

Introduction:

The County of Riverside covers an area of 7,208 square miles with a population of 2.5 million. Within the territory of the County there are highly diversified areas that consist of high density urbanized areas and also lower density rural areas. However, the need for affordable housing remains at-large throughout the entire County. Within the vast areas of the County there are several barriers to the production of affordable housing which are as follows:

Land Use: The land use implications relate in particular with parcels that require a zone change to a zoning classification that allows multi-family housing due to their inconsistency with the General Plan designation. In order to address the inconsistencies with zoning and the County's General Plan, the County is developing a programmatic rezoning process to bring these parcels that are incorrectly zoned under the site inventory in conformity with the overlying General Plan designation which will eliminate zoning constraints for public and private sectors.

Density: Density is also a critical factor in the development of affordable housing. In the current economic state where funds have diminished maintaining lower costs to the development of affordable housing is critical. Overall, maintaining higher density lowers the per unit land cost. Since the need for affordable housing is recognized as a significant housing problem in the County of Riverside, the County has established the R-6 zone as a residential incentive that allows flexibility in the density based on the physical and service constraints in the area. As a result affordability is restricted on the units. In the past the County has utilized R-6 zoning on two projects and is currently reevaluating the process to increase its effectiveness.

Infrastructure: The need for affordable housing remains large in rural areas of the County. The rural areas employ a significant number of low-income households. However, the need to fulfill the affordable housing need in these areas is strongly hindered by the lack of infrastructure. The Coachella Valley Water District which is the main source of water supply in these areas completed a domestic water hydraulic modeling study which showed that in certain areas of the Eastern Coachella Valley the demand for housing exceeds the areas water supply. In order to further the development of future affordable housing it is a possibility that additional facilities will need to be incorporated such as pipelines, treatment plants, booster pumping stations and any other facilities determined by the water company at the expense of the developer. Adding these additional expenses to the overall development of a project will significantly increase the cost. In addition to infrastructure costs, most of the projects in this area are located on a flood plain, in which the structure must be raised, or they must have a flood basin which also contributes to the expense of development in these areas.

Actions it planned to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment

The County is working to eliminate the identified barriers to affordable housing. In an effort to eliminate these barriers multiple county departments have strategically planned and implemented effective procedures to cure any deficiencies that result in a barrier to the production of affordable housing. In addition to the procedures mentioned above, the County is continuously seeking funding sources that will alleviate the cost burden due to the lack of infrastructure in parts of the County where affordable housing is crucial.

Discussion:

The County uses a multi-faceted strategy to address barriers to affordable housing. Limited resources dictate that strategies be focused on the most effective tools possible. A major focus involves the use of both financial and processing assistance to maximize as many housing units as possible. This approach allows the County to quantify affordable housing production and make adjustments to development strategies as necessary.

Development fees and approval delays add to the cost of development. In addition, inflation can increase the cost of both materials and labor. These factors combined with negative public perceptions serve as a major disincentive to the construction of affordable housing and are seen as obstacles by qualified developers.

The County assistance includes implementation of the following programs:

- Project Ombudsman: This program involves the designation of a staff liaison or Ombudsman to work with affordable housing developers and their representatives.
- Gap Financing: Gap financing offers financial assistance in the form of grants; or below market-interest rate loans; and other favorable repayment terms.
- Fee Subsidies: Under certain circumstances, the County will subsidize the payment of development fees.
- Waivers of Development Mitigation Fees: Under County Ordinance Number 659 fee waivers can be granted for publicly subsidized affordable housing projects.
- Public Opposition as a Barrier to Affordable Housing: The County will continue to educate the public about the social and economic benefits of affordable housing.

- Fair Housing as a Barrier to Affordable Housing: The County will continue to affirmatively further fair housing county-wide.
- Tax Policies: The County keeps property taxes at a minimum and does not have a residential or business utility tax.
- Fast Track and Priority Processing: The intent of this program is to expedite the construction of affordable housing projects through all phases of the approval process.

AP-85 Other Actions – 91.220(k)

Introduction:

As a collaborative facilitator, the County continues to implement various actions to: (1) address obstacles to meeting underserved needs; (2) foster and maintain decent affordable housing; (3) to reduce lead-based paint hazards; (4) reduce the number of poverty-level families; (5) develop institutional structure; and (6) to enhance coordination between public and private housing and social service agencies.

Actions planned to address obstacles to meeting underserved needs

The primary objective of the County's CPD programs is the development of viable urban communities by providing decent, safe, and sanitary housing, and expanding economic opportunities principally for persons of low and moderate-income. The mission of meeting and addressing these community, social, and economic development needs of low-income persons and their communities is of paramount importance to the County. Unfortunately, there are barriers and challenges that hinder the development and implementation of important programs intended to serve those most in need.

One of the most important steps in addressing obstacles to community development is identification and evaluation. In Riverside County, obstacles for CPD-funded activities include language and culture, location and geography, limited resources, and program restrictions and regulations. The County and nearly all CPD sub-recipients have bilingual staff sensitive to cultural traditions, issues, and values. For this reason many of our public notices, including notifications of CPD funding cycles and upcoming Citizen Participation meetings, are published in Spanish.

Currently the primary obstacle to meeting all of the identified needs, including those identified as priorities is the general lack of funding resources available to public and private agencies that serve the needs of low- and moderate-income residents. Both private foundations and public agencies have been impacted by the economy, as noted previously the amount of resources available to address social, community, and economic development goals pale in comparison to the recognized needs. To address this obstacle, the County strongly encourages its own agencies as well as cooperating cities and other sub-recipients to seek other resources, build new partnerships and collaborates, and to leverage additional funding whenever possible from local, State, Federal, and private sources. The County urges CPD-funded programs and services to be flexible, while at the same time to be as efficient and effective as possible to achieve expected performance outcomes.

Riverside County is geographically very large; many of the targeted lower-income communities are located in remote rural areas, in the suburban fringe, and within large urban settings. An effective tool used by the County is the community-based forum. These include the Community Councils, Municipal Advisory Councils, and County Service Area Advisory Boards. These non-elected public bodies provide ideal forums for residents and other stakeholders to express their concerns and assess community development needs. Also, the County and other organizations have the opportunity to directly discuss programs, plans, projects, etc., during these meetings.

Actions planned to foster and maintain affordable housing

Refer to AP-55-Affordable Housing for discussion on the County's Affordable Housing strategy and goals.

Actions planned to reduce lead-based paint hazards

The County of Riverside has numerous programs that serve the community to identify and address LBP hazards. The programs are as follows:

Lead-Based Paint Hazard Control Program: The DIPH and OIH administers the Lead-Based Paint Hazard Control Program. The goal of the program is to evaluate and control lead hazards in low-income housing units by inspecting, testing, and providing treatment and abatements of lead hazards. The program activities primarily include inspection and testing of housing constructed prior to 1956 in target areas, hazard control treatments and abatement, blood lead screening, temporary relocation of families, and community outreach and education. To identify potential households that may contain lead hazards, OIH conducts various community outreach activities at schools and other community events to grow awareness of the health risk of lead poisoning.

Lead Hazard Inspections for County programs: Lead-based paint containing up to fifty percent lead was in common use and available until the mid-1970. In 1978, the Consumer Product Safety Commission banned the manufacture of paint for use of interior and exterior residential surfaces and furniture. It is a program goal for the County that all homes identified for rehabilitation under the County's CDBG or HOME -funded programs be submitted for lead hazard inspection if: 1) the home was built prior to 1978, and 2) there are children the age of six or younger in the home. This includes any home that is being considered for the County of Riverside's First-Time Homebuyer Program (FTHB) if the same circumstances exist.

Childhood Lead Poisoning Prevention Program: The OIH operates California's Childhood Lead Poisoning Prevention Program (CLPPP) to test and identify children who are at high potential for lead poisoning based upon the age of the housing stock in the area and any other factors that indicate high risk for lead exposure.

Lead Hazard Reduction Compliance and Enforcement Program: In 2011, the OIH was awarded a 3 year Lead Hazard Reduction Compliance and Enforcement Program grant for \$240,000 to provide technical expertise in lead-based paint management. The OIH expects the Lead Hazard Reduction Compliance and Enforcement Program to continue and be ongoing with additional funding.

Lead Hazard Control Program: As implemented by Senate Bill 460, grants authority to local health departments to require the enforcement of persons who refuse to abate lead hazards in housing occupied by low-income families with children. The Lead Hazard Control Program is funded under this grant and implements SB 460 which allowed changes to State health and housing laws to make creating lead hazards a crime.

Fair Housing Council Lead-based Paint Awareness Hazard program: The Fair Housing Council of Riverside County also administers a comprehensive lead-based paint awareness hazard program, which includes outreach, education, information dissemination, training, and referrals.

Lead Safe Training and HEPA Vacuum Lending Program: OIH proposes to train Regional Occupational Program (ROP) construction students and the general public using HUD lead safe training modules. OIH purchased 5 commercial grade HEPA vacuums which are available to low-income residents who want to do their own interim control work. The residents are trained through the Lead Hazard Compliance Program.

Lead Hazard Control Outreach: The OIH has an MOU and Support Letters with the following agencies: the Riverside County Economic Development Agency; the Housing Authority of the County of Riverside; the Desert Alliance for Community Empowerment; the cities of Riverside, Banning and Corona; and Community Action Partnership of Riverside County. The OIH sub-grants outreach services to the Center for Community Action and Environmental Justice and Fair Housing Council of Riverside.

Actions planned to reduce the number of poverty-level families

As noted elsewhere in the ConPlan, poverty is a condition with no simple solutions. Poverty is a persistent situation in which low income results from an inability to enter the mainstream. To the extent possible, the County plans to reduce the number of households with incomes below the Federal poverty level (extremely low-income households earning less than thirty percent (30%) of the AMI) through a combination of direct assistance and indirect benefit from neighborhood improvement activities. The County's Five-Year Consolidated Plan will focus primarily on supporting programs that raise household incomes and stabilize housing situations by supporting anti-poverty activities through the following:

- Rehabilitate substandard existing single-family or multi-family housing for income qualified owners or to owners who rent to income-qualified tenants.
- Provide increased affordable homeownership opportunities for low- and moderate - income households, including seniors and disabled.
- Rehabilitate or provide new affordable housing units that include handicap accessibility for seniors or the disabled.
- Encourage economic development in low- and moderate-income areas.
- Provide comprehensive homeless prevention housing programs
- Provide Childhood Development, Child Care, and Youth Programs
- Encourage Substance Abuse Recovery and Counseling Programs

-Provide Job Training & Skills Development

-Provide Health Programs

The County supports a network of Core Service Agencies that are located strategically throughout the County and cover specific geographic areas. They often are the first line to intercept clients seeking safety net services, that include information and referral to other agencies that specialize in particular knowledge and skill sets to address their problems directly.

The Community Action Partnership of Riverside County, the County's official anti-poverty agency, continues to address poverty through a comprehensive set of strategies that range from crisis management to financial security to capacity building for families and communities.

Actions planned to develop institutional structure

The County continues to play an important role in both facilitating and bringing together diverse interests toward developing new, and strengthening existing, institutional structures. Strengths and gaps regarding the institutional structure delivery system have been identified through the consolidated planning process including surveys, community meetings, forums, other research, and ongoing program evaluation. With multiple agencies providing a variety of services to a diverse population, there can be a lack of coordination causing an overlap of services or issues, problems directing clients to the appropriate services, as well as the possibility of a client falling through the gaps. The system is further complicated by the geographical challenges of the County. The vast distance between communities and cities contributes to the impediments encountered by private, non-profit, and government agencies attempting to provide public services to low-income residents. With the number and variety of participants in the delivery system it can be difficult to establish priorities and to allocate resources. In addition to these gaps in the delivery system, more recently as a result of local, state, and federal budget cuts, the County participating jurisdictions have all encountered some level of staffing cuts resulting in a lack of dedicated staff resources and effective implementation of the CDBG program. Addressing the community, social, and economic development needs of low and moderate income people throughout the County is a comprehensive and at times a daunting undertaking. The formation of a sustainable institutional structure through partnerships and collaboration is essential. The institutional structure comprises the private, public, and nonprofit organizations that help carry out the Consolidated Plan for the County.

The County continues to encourage and support the formation of these joint efforts for projects and activities that create viable, self-sufficient communities; decent, affordable housing; a suitable living environment; and expanded economic development opportunities for low-income persons. This process has been responsive to new and emerging issues including new HUD rules and requirements, which are continually testing the strengths and gaps of delivery system. The County has developed and will

implement the 2014-2019 Consolidated Plan and subsequent Action Plans through public, nonprofit, and private sector partnerships and collaboration. This coordination of efforts and cooperation has been instrumental in meeting the wide-range of community development needs and will help carry out the Consolidated Plan.

Actions planned to enhance coordination between public and private housing and social service agencies

The County will continue to strive to increase affordable housing collaborative efforts with public and private sector entities, numerous advisory agencies, Community Housing Development Organizations (“CHDOs”), lending institutions, as well as other service providers including Catholic Charities, Office on Aging, and Code Enforcement. Efforts to increase the participation of the CDBG, HOME, Low-income Tax Credit, Federal, State and other local housing program sources will be directed at:

- Strengthening the housing service delivery system by working more closely with the Housing Authority and by collaborating with non-profit organizations;
- Integrating community development block grant housing programs;
- Increasing the involvement of the Community Council, Housing Review Committee, and the Municipal Advisory Council (MAC); and
- Working more closely with identified Community Housing Development Organizations (“CHDOs”) as well as local city governments.

Refer to above discussions.

Program Specific Requirements

AP-90 Program Specific Requirements – 91.220(l)(1,2,4)

Introduction:

Community Development Block Grant Program (CDBG) Reference 24 CFR 91.220(l)(1)

Projects planned with all CDBG funds expected to be available during the year are identified in the Projects Table. The following identifies program income that is available for use that is included in projects to be carried out.

1. The total amount of program income that will have been received before the start of the next program year and that has not yet been reprogrammed	0
2. The amount of proceeds from section 108 loan guarantees that will be used during the year to address the priority needs and specific objectives identified in the grantee's strategic plan.	0
3. The amount of surplus funds from urban renewal settlements	0
4. The amount of any grant funds returned to the line of credit for which the planned use has not been included in a prior statement or plan	0
5. The amount of income from float-funded activities	0
Total Program Income:	0

Other CDBG Requirements

1. The amount of urgent need activities	0
2. The estimated percentage of CDBG funds that will be used for activities that benefit persons of low and moderate income. Overall Benefit - A consecutive period of one, two or three years may be used to determine that a minimum overall benefit of 70% of CDBG funds is used to benefit persons of low and moderate income. Specify the years covered that include this Annual Action Plan.	91.59%

HOME Investment Partnership Program (HOME)
Reference 24 CFR 91.220(l)(2)

1. A description of other forms of investment being used beyond those identified in Section 92.205 is as follows:

HOME funds will only be used for eligible activities as described in the HOME regulations (24CFR§ 92.205). During the 2014 program year, other forms of investment not described in §92.205(b) which the County may use for housing activities include CDBG, NSP, and other local funds.

2. A description of the guidelines that will be used for resale or recapture of HOME funds when used for homebuyer activities as required in 92.254, is as follows:

Recapture Provisions

For acquisition of existing housing, the County has elected to employ the recapture of funds option described in the HOME Regulations at 24 CFR 92.254(a)(5)(ii).

If a HOME assisted housing unit is sold or otherwise transferred during the required affordability period, the County will recapture HOME funds from the net proceeds of the sale of the property. The net proceeds of the sale shall be determined as the sales price minus the senior loan repayment and closing costs. Recaptured funds will be recycled through the County's HOME Investment Partnership fund in order to assist other HOME eligible activities.

The County will collect a fee of seventy-five dollars (\$75) for furnishing a beneficiary statement or payoff demand statement as provided by section 2943 of the Civil Code of California. For subordination of debt secured by a deed of trust or agreement containing covenants where EDA is the beneficiary, the County will collect a fee of three hundred dollars (\$300) for processing.

Under current regulations, if affordability restrictions on a HOME project is conveyed to a lender due to foreclosure or transfer in lieu of foreclosure, the Participating Jurisdiction must repay the HOME account because the project has not met the affordability requirements for the full affordability period. If a HOME-assisted homebuyer project with a recapture agreement no longer meets the applicable affordability requirements due to foreclosure, transfer in lieu of foreclosure or assignment of an FHA insured mortgage to HUD (involuntary sales), the County is responsible for repaying the direct HOME subsidy provided to the homebuyer from available net proceeds at the time of foreclosure or transfer in lieu of foreclosure. A short sale is not considered an involuntary sale and is not permissible under current regulations.

3. A description of the guidelines for resale or recapture that ensures the affordability of units acquired with HOME funds? See 24 CFR 92.254(a)(4) are as follows:
In exchange for receiving funds to assist in the purchase of a home, the purchaser must sign loan

documents, including a Promissory note, Disclosure Notice, and Subordinate Deed of Trust, which will provide upon a sale, transfer, lease or any other disposition, including refinancing or incurring of additional debt secured by the home, within 15 years of purchase, the principal amount of the HOME assistance is repaid to the County.

4. Plans for using HOME funds to refinance existing debt secured by multifamily housing that is rehabilitated with HOME funds along with a description of the refinancing guidelines required that will be used under 24 CFR 92.206(b), are as follows:

HOME funds will not be used for this purpose.

**Emergency Solutions Grant (ESG)
Reference 91.220(I)(4)**

1. Include written standards for providing ESG assistance (may include as attachment)

See Attachment

2. If the Continuum of Care has established centralized or coordinated assessment system that meets HUD requirements, describe that centralized or coordinated assessment system.

The CoC is responsible for establishing and operating a centralized or coordinated assessment system, a statutory requirement that provides an initial, comprehensive assessment of the needs of individuals and families and effectively matches each with the most appropriate resources available to address that individual or family's particular needs. The CoC has developed, and the County supports, a coordinated entry/assessment system throughout the CoC that includes: central locations where individuals and families can complete an eligibility pre-screening form and receive homeless services; a 211 hotline system that screens and directly connects callers to appropriate homeless housing/service providers; and a "no wrong door" approach in which a homeless family or individual can go to any homeless service provider and be assessed using the same tool and methodology so that referrals are consistently completed across the Continuum of Care. Individuals and families who meet established pre-screening requirements are scheduled an appointment with a case manager for assessment and eligibility documentation.

The Homeless Management Information System (HMIS) is a mandatory comprehensive and standardized assessment tool used to collect client-level data and data on the provision of housing and services to homeless individuals and families and persons at risk of homelessness. The recipient must ensure that data on all persons served and all activities assisted under ESG are entered into the community-wide HMIS in the area in which those persons and activities are located. Victim service providers cannot, and Legal Services Organizations may choose to not participate in HMIS however, they must instead report using a comparable database that produces unduplicated, aggregate reports.

As required, the County being an ESG recipient continues to coordinate and collaborate with the CoC and other key stakeholders in order to foster a comprehensive, community-wide planning process that ensures a seamless coordination of services and funding streams.

3. Identify the process for making sub-awards and describe how the ESG allocation available to private nonprofit organizations (including community and faith-based organizations).

EDA solicits proposals for annual ESG allocations. A Notice of Funding Availability (NOFA) is published in a local newspaper and placed on EDA's website to invite qualified non-profits, community groups, faith-based organizations, and governmental entities to apply. Pursuant to EDA's application review process, an application is reviewed and evaluated for completeness, eligibility, and the project's ability to reach and serve the areas and persons with the greatest need.

Recommendations for eligible projects are based upon the resources, capacity, knowledge, and experience of applicants to effectively implement and administer the ESG-funded program. Per HUD requirements, EDA consults with the CoC to provide recommendations of the funding allocation, trends, and needs of the community in order to work in collaboration with the efforts of CoC of eliminating and preventing homelessness.

ESG funds are awarded through a competitive process following federal guidelines. Funding is allocated as part of the One-Year Action Plan approval process which includes a public hearing before the Riverside County, Board of Supervisors. Further, funding approval is made by the Board of Supervisors and allocated based on funding availability, number of clients proposed to serve, jurisdiction area need, recommendations of CoC, and public comments.

The County enters into one or two year agreements with each sub-Recipient of ESG funding, these agreements define:

- Key program components or activities (including benchmarks for success);
- The level of ESG funding;
- The anticipated source and amount of matching funds (24CFR 576.201) contributed by the agency/organization; and
- Documentation or reporting requirements. Receipt of Agreement and Terms
- Match Requirements and source of match

ESG allocation is available to private nonprofit organizations and will continue to be allocated based on the guidelines as provided in the outline process above.

4. If the jurisdiction is unable to meet the homeless participation requirement in 24 CFR 576.405(a), the jurisdiction must specify its plan for reaching out to and consulting with homeless or formerly homeless individuals in considering policies and funding decisions regarding facilities and services funded under ESG.

Because the County of Riverside Board of Supervisors are elected officials, the County is unable to comply with Homeless Participation Requirement pursuant to 24 CFR 576.405(b). Consequently, the

County must develop a plan to consult with homeless or formerly homeless persons in the consideration and making of policies and decisions regarding any ESG-funded facilities, services, or other assistance. It is the intent of the County in collaborating with the Continuum of Care and ESG sub-recipients to ensure that the perspective of homeless and formerly homeless individuals and families are incorporated into the County's ESG program and the Consolidated Plan.

The County will continue development of a comprehensive Homeless Participation Plan; at a minimum, the plan will:

- Encourage all ESG non-profit sub-recipients to include a homeless or formerly homeless person on their board of directors and/or a policy making committees.
- Assign a higher rating/ranking score to ESG applicants that demonstrate homeless participation.
- Require all ESG sub-recipients to provide an EDA-approved exit survey to all persons that have exited from an ESG-funded shelter or participated in an ESG-funded program. The survey will request input or seek the opinion of the participants on a variety of topics or issues including at a minimum:
 - i. the quality of effectiveness of the shelter or services provided;
 - ii. the unmet needs of homeless persons in Riverside County;
 - iii. how can services be improved or expanded;
 - iv. what are the gaps in shelter or homeless services;
 - v. the location and hours of shelters or services; and
 - vi. access to shelters, health care, food and clothing, legal services, etc.

EDA will conduct onsite interviews with homeless individuals or groups at ESG-funded shelters throughout the program year to gather information from, and encourage the participation of, homeless persons to assist the County in the making of ESG policies.

5. Describe performance standards for evaluating ESG.

ESG performance standards will be followed per 24 CFR Part 576, including, measures to evaluate the effectiveness of the program and measures to assess how well the program serves the targeted population which are evaluated based on our written standards and guidelines. This includes reductions in the number of homeless persons living on the streets and in shelters, the number of persons who do not re-enter the shelter or supportive housing system within one year, and the number of persons exiting with permanent housing.

Performance standards for evaluating ESG activities were developed in consultation with the Continuum of Care. In addition, working groups which includes representation from the CoC lead agency, providers, and other stakeholders collaborate in the determination of performance standards. The use of Homeless Management Information Systems (HMIS) Data Standards is used for reporting and identifying errors made by subrecipients is a part of the performance standards for

evaluating ESG. The CoC lead agency extracts data from the HMIS to determine how individual providers are performing on three key indicators: (1) exits to permanent housing; (2) length of stay in emergency shelter and/or transitional housing; and (3) returns to homelessness from permanent housing. Individuals providers set proposed client numbers to serve based on funding. HMIS data assist in evaluating the performance of the provider to the set number proposed to serve and also the outcome of that client. In addition, below guidelines have been set as part of the performance standards for evaluating ESG as follows:

Performance of ESG recipients include

- a. Ensure that ESG funds are used effectively to assist homeless individuals and families and that the basic ESG program goals are met;
- b. Ensure compliance with ESG regulations and program requirements in the usage of funds and in carrying out program activities; and
- c. Enhance and develop the management capacity of grantees or recipients

Performance Measures for Homelessness Prevention

- a. A reduction in the number of homeless individuals and families seeking emergency shelter services.
- b. Expected Outcome: At least 35% of participants assisted will remain in permanent housing six (6) months after the last assistance provided under ESG.

Performance Measures for Homeless Rapid Re-Housing

- a. A reduction in the reoccurrence of homelessness for individuals and families who exit the shelter system.
- b. Expected Outcome: At least 35% of participants assisted will remain in permanent housing six (6) months after the last assistance provided under ESG.

Certifications

Specific CDBG Certifications

The Entitlement Community certifies that:

Citizen Participation -- It is in full compliance and following a detailed citizen participation plan that satisfies the requirements of 24 CFR 91.105.

Community Development Plan -- Its consolidated housing and community development plan identifies community development and housing needs and specifies both short-term and long-term community development objectives that provide decent housing, expand economic opportunities primarily for persons of low and moderate income. (See CFR 24 570.2 and CFR 24 part 570)

Following a Plan -- It is following a current consolidated plan (or Comprehensive Housing Affordability Strategy) that has been approved by HUD.

Use of Funds -- It has complied with the following criteria:

1. Maximum Feasible Priority. With respect to activities expected to be assisted with CDBG funds, it certifies that it has developed its Action Plan so as to give maximum feasible priority to activities which benefit low and moderate income families or aid in the prevention or elimination of slums or blight. The Action Plan may also include activities which the grantee certifies are designed to meet other community development needs having a particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community, and other financial resources are not available);
2. Overall Benefit. The aggregate use of CDBG funds including section 108 guaranteed loans during program year(s) _____ , _____ (a period specified by the grantee consisting of one, two, or three specific consecutive program years), shall principally benefit persons of low and moderate income in a manner that ensures that at least 70 percent of the amount is expended for activities that benefit such persons during the designated period;
3. Special Assessments. It will not attempt to recover any capital costs of public improvements assisted with CDBG funds including Section 108 loan guaranteed funds by assessing any amount against properties owned and occupied by persons of low and moderate income, including any fee charged or assessment made as a condition of obtaining access to such public improvements.

However, if CDBG funds are used to pay the proportion of a fee or assessment that relates to the capital costs of public improvements (assisted in part with CDBG funds) financed from other revenue sources, an assessment or charge may be made against the property with respect to the public improvements financed by a source other than CDBG funds.

The jurisdiction will not attempt to recover any capital costs of public improvements assisted with CDBG funds, including Section 108, unless CDBG funds are used to pay the proportion of fee or assessment attributable to the capital costs of public improvements financed from other revenue sources. In this case, an assessment or charge may be made against the property with respect to the public improvements financed by a source other than CDBG funds. Also, in the case of properties owned and occupied by moderate-income (not low-income) families, an assessment or charge may be made against the property for public improvements financed by a source other than CDBG funds if the jurisdiction certifies that it lacks CDBG funds to cover the assessment.

Excessive Force -- It has adopted and is enforcing:

1. A policy prohibiting the use of excessive force by law enforcement agencies within its

CERTIFICATIONS

In accordance with the applicable statutes and the regulations governing the consolidated plan regulations, the jurisdiction certifies that:

Affirmatively Further Fair Housing -- The jurisdiction will affirmatively further fair housing, which means it will conduct an analysis of impediments to fair housing choice within the jurisdiction, take appropriate actions to overcome the effects of any impediments identified through that analysis, and maintain records reflecting that analysis and actions in this regard.

Anti-displacement and Relocation Plan -- It will comply with the acquisition and relocation requirements of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended, and implementing regulations at 49 CFR 24; and it has in effect and is following a residential antidisplacement and relocation assistance plan required under section 104(d) of the Housing and Community Development Act of 1974, as amended, in connection with any activity assisted with funding under the CDBG or HOME programs.

Anti-Lobbying -- To the best of the jurisdiction's knowledge and belief:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of it, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement;
2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, it will complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions; and
3. It will require that the language of paragraph 1 and 2 of this anti-lobbying certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

Authority of Jurisdiction -- The consolidated plan is authorized under State and local law (as applicable) and the jurisdiction possesses the legal authority to carry out the programs for which it is seeking funding, in accordance with applicable HUD regulations.

Consistency with plan -- The housing activities to be undertaken with CDBG, HOME, ESG, and HOPWA funds are consistent with the strategic plan.

Section 3 -- It will comply with section 3 of the Housing and Urban Development Act of 1968, and implementing regulations at 24 CFR Part 135.

jurisdiction against any individuals engaged in non-violent civil rights demonstrations; and

2. A policy of enforcing applicable State and local laws against physically barring entrance to or exit from a facility or location which is the subject of such non-violent civil rights demonstrations within its jurisdiction;

Compliance With Anti-discrimination laws -- The grant will be conducted and administered in conformity with title VI of the Civil Rights Act of 1964 (42 USC 2000d), the Fair Housing Act (42 USC 3601-3619), and implementing regulations.

Lead-Based Paint -- Its activities concerning lead-based paint will comply with the requirements of 24 CFR Part 35, subparts A, B, J, K and R;

Compliance with Laws -- It will comply with applicable laws.

Specific HOME Certifications

The HOME participating jurisdiction certifies that:

Tenant Based Rental Assistance -- If the participating jurisdiction intends to provide tenant-based rental assistance:

The use of HOME funds for tenant-based rental assistance is an essential element of the participating jurisdiction's consolidated plan for expanding the supply, affordability, and availability of decent, safe, sanitary, and affordable housing.

Eligible Activities and Costs -- it is using and will use HOME funds for eligible activities and costs, as described in 24 CFR § 92.205 through 92.209 and that it is not using and will not use HOME funds for prohibited activities, as described in § 92.214.

Appropriate Financial Assistance -- before committing any funds to a project, it will evaluate the project in accordance with the guidelines that it adopts for this purpose and will not invest any more HOME funds in combination with other Federal assistance than is necessary to provide affordable housing;

ESG Certifications

The Emergency Solutions Grants Program Recipient certifies that:

Major rehabilitation/conversion – If an emergency shelter’s rehabilitation costs exceed 75 percent of the value of the building before rehabilitation, the jurisdiction will maintain the building as a shelter for homeless individuals and families for a minimum of 10 years after the date the building is first occupied by a homeless individual or family after the completed rehabilitation. If the cost to convert a building into an emergency shelter exceeds 75 percent of the value of the building after conversion, the jurisdiction will maintain the building as a shelter for homeless individuals and families for a minimum of 10 years after the date the building is first occupied by a homeless individual or family after the completed conversion. In all other cases where ESG funds are used for renovation, the jurisdiction will maintain the building as a shelter for homeless individuals and families for a minimum of 3 years after the date the building is first occupied by a homeless individual or family after the completed renovation.

Essential Services and Operating Costs – In the case of assistance involving shelter operations or essential services related to street outreach or emergency shelter, the jurisdiction will provide services or shelter to homeless individuals and families for the period during which the ESG assistance is provided, without regard to a particular site or structure, so long the jurisdiction serves the same type of persons (e.g., families with children, unaccompanied youth, disabled individuals, or victims of domestic violence) or persons in the same geographic area.

Renovation – Any renovation carried out with ESG assistance shall be sufficient to ensure that the building involved is safe and sanitary.

Supportive Services – The jurisdiction will assist homeless individuals in obtaining permanent housing, appropriate supportive services (including medical and mental health treatment, victim services, counseling, supervision, and other services essential for achieving independent living), and other Federal State, local, and private assistance available for such individuals.

Matching Funds – The jurisdiction will obtain matching amounts required under 24 CFR 576.201.

Confidentiality – The jurisdiction has established and is implementing procedures to ensure the confidentiality of records pertaining to any individual provided family violence prevention or treatment services under any project assisted under the ESG program, including protection against the release of the address or location of any family violence shelter project, except with the written authorization of the person responsible for the operation of that shelter.

Homeless Persons Involvement – To the maximum extent practicable, the jurisdiction will involve, through employment, volunteer services, or otherwise, homeless individuals and families in constructing, renovating, maintaining, and operating facilities assisted under the ESG program, in providing services assisted under the ESG program, and in providing services for occupants of facilities assisted under the program.

Consolidated Plan – All activities the jurisdiction undertakes with assistance under ESG are consistent with the jurisdiction’s consolidated plan.

Discharge Policy – The jurisdiction will establish and implement, to the maximum extent practicable and where appropriate policies and protocols for the discharge of persons from

publicly funded institutions or systems of care (such as health care facilities, mental health facilities, foster care or other youth facilities, or correction programs and institutions) in order to prevent this discharge from immediately resulting in homelessness for these persons.

County of Riverside Invites Residents to Attend Community Meetings to Participate in the Preparation of the Five Year Consolidated Plan for HUD Funding

The Economic Development Agency (EDA) for the County of Riverside invites residents to participate in community meetings to assist and facilitate in the development of the County's next Five Year Consolidated Plan. A detailed list of these meetings is attached.

In order to receive the Community Development Block Grant (CDBG), Emergency Solutions Grant (ESG), and Home Investment Partnerships Program (HOME) funding from the U.S. Department of Housing and Urban Development (HUD), the County has to prepare a comprehensive plan known as the Five Year Consolidated Plan. This plan lays-out how the County, and its Cooperating Cities*, will use these funds over the next five years.

The purpose of the community meetings is to allow residents to share and discuss needs, exchange ideas, and consider concerns and opportunities specific to their community. The participation of residents, service providers, government agencies, churches, and other community organizations is an essential part of developing the Consolidated Plan.

* See attached list of Cities

Community Meeting Schedule

A detailed listing of the Community Participation Meetings has been attached to this notice. Please note that all meeting dates, times, and locations are subject to change.

Individuals unable to attend the community meetings may submit written comments to the County of Riverside through January 15, 2014, to either of the following:

Mail: Riverside County EDA

ATTN: CDBG Program

3403 Tenth Street, Suite 400

Riverside, CA 92501

Email: jthurman@rivcoeda.org

Fax: (951) 955-9505

Uses of HUD Funding

CDBG funds can be used for many activities including child care, health programs, senior programs, after-school activities, food pantries, youth programs, job training, public transportation, education, and more. CDBG can also be used to fund public facilities and other projects such as senior centers, fire stations, street improvements, parks and playgrounds, community centers, clinics, libraries, economic development, and homeless shelters.

ESG funds are used to support homeless shelters and homeless programs. Homeless programs include those that prevent homelessness and rapidly re-house persons and families.

HOME funds are used to support affordable housing activities including first-time homebuyer program and multi-family housing for persons and families with low-incomes.

Anticipated Five Year Funding:

The County anticipates receiving approximately \$48,500,000 from HUD over the five year period: July 2014-June 2019. This funding amount is subject to funding appropriations from Congress. The funding for each program is estimated to be:

- CDBG funding of \$37,810,000 - \$7,562,000 for 2014-2015
- ESG funding of \$2,360,000 - \$472,000 for 2014-2015
- HOME funding of \$8,330,000 - \$1,666,000 for 2014-2015

Community Needs Assessment Survey

In order to encourage and promote the participation of residents and service providers in the development of the Five Year Consolidated Plan, as well as each One Year Action Plan, the County of Riverside utilizes a comprehensive community needs assessment survey in addition to the community meetings.

The survey allows residents to identify and prioritize the most important needs for their communities. An online version of the survey, in English or Spanish, can be found at www.rivcoeda.org. The survey will also be made available at various events throughout the County including health fairs, community clean-ups, and at other community meetings.

A copy of the survey can also be mailed to you, or emailed, by calling:

County of Riverside
2014-2019 Consolidated Plan
Community Participation Meetings
24 CFR 91.105(e)(2)

The County of Riverside is in the process of preparing the 2014-2019 Consolidated Plan. The five-year Consolidated Plan is required by the U.S. Department of Housing and Urban Development in order for the County to receive funding under the Community Development Block Grant (CDBG), Emergency Solutions Grant (ESG), and Home Investment Partnerships Act (HOME) programs.

A fundamental requirement of the Consolidated Plan is the participation by residents, service providers, and other concerned individuals and organizations. Your participation is necessary so that residents and the County can identify community, housing, and social needs in your communities and to establish priorities for the use of the Federal funds.

To encourage participation, the County will be conducting several Community Participation Meetings in the unincorporated areas of the County. These informal, public meetings will allow residents and other stakeholders to provide comment and input regarding the needs of the communities as well as to opportunity to complete a Community Needs Assessment Survey. Both the comments and survey results will be incorporated into the final Consolidated Plan. The final Consolidated Plan is expected to be approved by the Board of Supervisors on or about May 6, 2014.
