BACKGROUND:

Summary (continued)

Government Code §29550 through 29552. Applicable cost elements for the fee consider all expenditures incurred during the booking and processing of arrested individuals including but not limited to searching, wrist banding, bathing, clothing, fingerprinting, document preparation, medical and mental health screening, warrant service, inventory of an arrestee's property, laundry and storage of the arrestee's clothing, and inmate classification.

The state began reimbursing counties for a portion of the fees attributed to arresting agencies in FY 07/08. Provisions of the realignment of public safety in 2011 also changed the way the state reimbursed counties. Starting in FY 11/12 state reimbursement is a set allocation to the Local Law Enforcement Services Account. Riverside County's share of the \$35 million state allocation is \$3,413,483.

The county remains entitled to charge arresting entities a jail access fee if the local agency exceeds its three-year rolling average of non-felony bookings for designated crimes. Traffic and domestic violence arrests are excluded.

Prior to 2013 all criminal justice administration/jail access fee updates required that fees be changed only at the beginning of a fiscal year and only after 45 days written notice to the affected entities followed by a public hearing on the issue. SB 1023 eliminated notice, the public hearing requirement and included a provision that a Board of Supervisors could amend the fee at any time.

Impact on Citizens and Businesses

The FY 13/14 fee reduction benefits both citizens and businesses since no entity will have an increased cost for booking inmates into one of the county's five jails.
