FORM 11: Approval of Resolution No. 2014-110 Modification to Financial Assurance Mechanism Required by the Surface Mining and Reclamation Act. 1st/1st, 3rd/3rd, 4th/4th, and 5th/5th Districts; [\$0]

Page: 2 of 2

BACKGROUND:

Summary (continued)

The Surface Mining and Reclamation Act (SMARA) requires that the Financial Assurances be adjusted annually. The adjustments account for the new lands disturbed, inflation, and for reclamation of lands accomplished in accordance with the approved reclamation plan [PRC2773.1 (a) (3)].

The original Resolution 97-261 must be modified to adjust for reclamation costs of the individual County sites, as contained in the Pledge of Revenue, from \$1,073,250 to \$1,098,250. The actual reclamation cost for each mining site or borrow pit is shown in Attachment A. Resolution 2014-110 supersedes any previously approved modification to Resolution 97-261 made by Resolution 98-323, Resolution 2003-178, Resolution 2006-118, Resolution 2007-388, Resolution 2008-196, Resolution 2009-184, Resolution 2010-157, Resolution 2011-163, Resolution 2012-142 and Resolution 2013-070. There is no current fiscal year cost associated with the future reclamation. A future expense would be incurred at the point the existing mining sites are closed. Currently, no estimated date is known or projected for the closure of any of the County's existing mining sites.
