BACKGROUND:

Summary (continued)

Case management must apply proven case management methodology which includes but is not limited to; review of medical records to assure appropriateness of admission and services; ensure that medical documentation meets InterQual criteria (this criteria is used by case management as a set of measurable, clinical indicators, as well as diagnostic and therapeutic services reflecting the need for hospitalization; thus they serve as the criteria for all acute hospital care); recommend physician second level review for those cases deemed to have questionable supporting documentation; and work with the case management leadership and staff to educate on proper process and protocol. Case management review services are needed to ensure adequate supporting documentation is provided for cases awaiting Medi-Cal approval. In accordance with Medi-Cal guidelines, certain medical procedures and services are subject to authorization by Medi-Cal before reimbursement can be approved. Authorization requests are made with a Treatment Authorization Request (TAR). A TAR is a form needed to pre-approve funding for treatment. Authorization requirements are based on Federal and State law. Accurate and timely processing is required to preserve reimbursement revenue in the millions of dollars. Thomson Alliance, Inc. is dedicated in providing intellectual capital that enables partners to implement strategic business solutions and achieve expected outcomes.

Impact on Citizens and Businesses

This service impacts the patients residing in Riverside County receiving care from the hospital. Both timely support and supplementing the hospital's resources, will improve the ability to collect on outstanding claims.

Contract History and Price Reasonableness

On behalf of RCRMC, County Purchasing released a Request for Proposal (RFP #MCARC-243) in March 2014 to six (6) prospective bidders which included the incumbent, Parallon Business Solutions. Unfortunately, no bids were received and the incumbent vendor stated they were not interested in bidding for this new service. As a result of the no bids received from RFP #MCARC-243, the hospital requested to re-release a new version of the case management services Request for Proposal (RFP #MCARC-243A). RFP #MCARC-243A was re-released May 2014. Solicitations were sent to six (6) different vendors specializing in these services and advertised on the County's Internet/Website. County Purchasing received one (1) response from Thomson Alliance, Inc.

The proposal from Thomson Alliance was evaluated by three (3) hospital administrative staff familiar with the service component. The evaluation team reviewed and scored the proposal based on the evaluation criteria as specified in the RFP, which includes the bidder's overall responsiveness to the RFP requirements, their experience and references as it pertains to the scope of work of the RFP, their methodology, and the overall cost to the County. A Best and Final (BAFO) was released on June 9th to obtain clarification on both services and cost. Thomson Alliance submitted a revised rate at \$65.00 per completed reviewed day to cover 10,000 patient days plus a reduced administrative fee at thirty-three percent (33%) of the cost. Thomson's will charge a fee equal to \$864,500 for patient days reviewed and \$73,346 to include physician second level review, which equates to a total cost of \$937,846 for the project (937,900 rounded). The hospital case management backlog is growing significantly on a daily basis and is reaching close to 12,000 patient days. The hospital case managers that are currently being trained on InterQual will process the remaining 2,000 case days in backlog. If the hospital determines further assistance is required to work on the case backlog, RCRMC will request if needed, the Board's approval to add additional funds at a later date, possibly in September 2014 upon further analysis. Spending the requested amount with Thomson Alliance will help generate reimbursement in the millions of dollars as the hospital has experienced with a previous vendor that performed the same type of work; the hospital achieved a financial gain of approximately \$2 million from Medi-Cal reimbursement.

 - (1) **Breaches treated as discovered.** A breach is treated as discovered by Contractor as of the first day on which such breach is known to Contractor or, by exercising reasonable diligence, would have been known to Contractor, which includes any person, other than the person committing the breach, who is an employee, officer, or other agent of Contractor (determined in accordance with the federal common law of agency).

- (2) **Content of notification.** The written notification to County relating to breach of unsecured PHI shall include, to the extent possible, the following information if known (or can be reasonably obtained) by Contractor:

Contractor further agrees such report shall be made in writing, and shall include substantially the same types of information listed above in Section 8.A.2 (Content of Notification) as applicable to the unlawful or unauthorized access, use, or disclosure as defined above in this section, understanding and acknowledging that the term "breach" as used in Section 8.A.2 does not apply to California Health & Safety Code §1280.15.

This provision shall apply to all PHI and/or ePHI which are in the possession of subcontractors or agents of Contractor.
