BACKGROUND:

Summary (continued)

The East County Detention Center (ECDC) is the most complex capital improvement project undertaken by the County of Riverside. Taken together, there are ten separate projects that are related to the core project with some of the project having multiple phases or components. Three of the projects directly related to the ECDC are the Indio Parking Structure, the Larry D. Smith Correctional Facility Laundry and ECDC. Other projects include AEOC-RCIT Hub, Larson Justice Center Courtrooms, Southwest Justice Center Courtrooms and a Parking lot for the Courts.

The ECDC will replace an existing, aged and undersized detention facility with a modern facility featuring 1,626 beds in a 506,000 square foot building on a 6.5 acre site. The ECDC projects was planned to be constructed in three phases; demolition and site preparation, ECDC construction, and demolition of the existing detention center and construction of surface parking lot. The project was partially funded through a \$100 million funding allocation the County received under the State of California's AB 900 Phase II detention capacity expansion program. The County provided a \$10 million DIF match and the remaining balance of the project was to be covered by bond financing and payments made over the next 30 years. The Board has approved budgets for these projects totaling \$328,424,915. At present, the State is in the final stages of approving the plans for ECDC and once approval is received and appropriate changes are made, the project will go out for construction bids. At that time, County will have a better estimate of ECDC and will bring it back to the Board for necessary adjustments.

The County is at the stage in the project that it has exhausted its current resources and needs to finance the remaining part of the project. This financing will be used to complete the construction of the ECDC and the related projects. Additional capacity is routinely requested in bond documents to accommodate costs increases. The current request is allow financing up to \$325,000,000.

If approved, staff recommends issuing up to \$325 million in fixed interest rate bonds. The Bonds will be issued as tax-exempt bonds through the Riverside County Public Financing Authority (the "PFA"). The Bonds mature in the years 2015 through 2044. Payments on the Bonds are secured by a lease between the PFA and the County. The lease payments will be made by the general fund. The average annual debt service is anticipated to be approximately \$22 million. The 1985 ACE's financing will be paid in full on September 15, 2014. This general fund obligation will then be replaced by the Riverside County Public Financing Authority Lease Revenue Bonds (East County Detention Center Project) Series 2014 (the "ECDC project"). The ACE's current average annual debt service is \$10 million. The difference will be a new general fund obligation.

This item has been approved by the Debt Advisory Committee.

This item also has a companion item on the Public Financing Authority agenda.

Impact on Citizens and Businesses

The completion of these projects will expand jail capacity for the County of Riverside. This will provide the County additional jail beds to house detainees.
