Summary

The District Attorney, Probation, and Public Defender have requested wireless access in the Riverside Superior Court facilities. This wireless project will establish Cornet connectivity via a secure wireless access network inside each California Superior courtroom located within Riverside County. The Superior Court of California has agreed to allow this project implementation, however they require the use of Brannon's Technologies as their certified vendor. As such, RCIT is requesting a sole source purchase with Brannon's Technologies for the cabling installation portion of this project.
