BACKGROUND:

Summary

The County Welfare Directors Association of California (CWDA) is a non-profit association representing the human services directors from each of California's 58 counties and is an affiliate member of the California State Association of Counties. Since the early stages of planning for the implementation of the Affordable Care Act, CWDA has worked closely with the Department of Health Care Services (DHCS) and Covered California to ensure that counties' operational needs for Medi-Cal administration were being adequately addressed. Since the implementation of the Affordable Care Act last October, counties have experienced many technical problems with the State's new case management system, the California Health Eligibility and Enrollment Retention System (CalHEERS). Among the issues that counties continue to experience are system performance issues, inconsistencies in the integrity of the information being transmitted between CalHEERS and the State Automated Welfare System (SAWS) as well as system defects resulting in incorrect eligibility results.

To assist with system improvements and ensure that there is sufficient coordination with counties in the decision-making process, Covered California, DHCS and CWDA agreed to have two county liaisons assigned to the CalHEERS project team. Under this assignment, the county liaison will represent and advocate for county needs on the CalHEERS project, in coordination with CWDA and the State's Office of Systems Integration. The liaison will help ensure that the CalHEERS project meets federal, state, and county fiscal and operational needs through participation in system design and development and review of project documentation. Other responsibilities include analysis of regulations and legislation, participation in project development documents for state and federal control agencies, and tracking and reporting on project impacts and issues.

County representatives interested in this assignment submitted applications and were interviewed for the position. From this process, DPSS employee, Ricardo Miranda, was selected for this assignment. Mr. Miranda is currently assigned to the C-IV project in Sacramento to assist with State Automated Welfare System changes. His experience working within the Department as well as at C-IV provides the unique skill set that this position requires. Under this agreement, Mr. Miranda will work full time at the CalHEERS project site through Fiscal Year 2016-17 in Sacramento. DPSS will be fully reimbursed by the State via CWDA for all salary, benefits and overtime that is incurred, including any COLAs or step increases that would be due to Mr. Miranda during this time period. The term of the agreement is for one year, beginning October 30, 2014 through June 30, 2015 and can be automatically renewed for two additional one-year terms through FY 2016-17.

Impact on Residents and Businesses

This agreement will help ensure that changes to the CalHEERS system will meet county requirements, ultimately ensuring better accessibility and support for the public in obtaining health care coverage.
