BACKGROUND:

Summary

By Minute Order dated September 23, 2014 (Agenda Item 3-68), the Board of Supervisors authorized the Clerk of the Board to advertise for the resurfacing of a two mile segment of 62nd Avenue, from Jackson Street to Harrison Street, in the community of Vista Santa Rosa of the Coachella Valley.

During the advertisement period, one addendum was issued to all registered plan holders as a supplement to the plans and specifications. Bidders are required to acknowledge and take into account all issued addenda on their Contractor's Proposal in order to be considered for award. The addendum was issued to clarify and modify the approved contract documents. The addendum is attached as Addendum No. 1.

Seven bids were received on October 29, 2014, ranging from \$713,520 to \$879,186. The basis for the selection of a contractor is the lowest responsive and responsible bid. The lowest responsible bid was submitted by Granite Construction Company of Indio, CA (Granite) in the amount of \$713,520, which is \$118,480 (14.2%) lower than the Engineer's Estimate.

The construction duration set for this project is 25 working days, and construction is anticipated to be completed by March 2015.

The project is expected to be completed within the existing budget shown on Attachment "A."

The contractor is qualified to perform the work as outlined in the bid, has executed the Contract, and has provided bonds which meet the requirements of the Contract.

Project Number: C1-0599, Federal Aid No. STPL-5956(232)

Impact on Residents and Businesses

The proposed improvements will benefit the project area by significantly improving the existing infrastructure, preserving and extending the service life, as well as providing upgrades to enhance safety.

The work will be phased to keep the road open during construction.

SUPPLEMENTAL:

Additional Fiscal Information

The Contract is recommended to be awarded to Granite for the total amount of \$713,520. The project is funded with Gas Tax (ABX8-9 Mar 2010 New Huta) and STP-Formula (Urban/Urban Place) funds.

There are no General Funds used in this project.

Project No. C1-0599
Federal Aid No. STPL-5956 (232)**

THIS CONTRACT, made and concluded, in duplicate as of the date set forth below, between the County of Riverside, party of the first part, and **Granite Construction Company** Contractor, party of the second part.

ARTICLE I:

WITNESSETH, that for and in consideration of the payments and agreements hereinafter mentioned, to be made and performed by the said party of the first part, and under the conditions expressed in the two bonds, bearing even date with these presents, and hereunto annexed, the said party of the second part agrees with the said party of the first part, at his own proper cost and expense, to do all the work and furnish all the materials, except such as are mentioned in the specifications to be furnished by said party of the first part, necessary to construct and complete in a good, workmanlike and substantial manner and to the satisfaction of the County of Riverside, the work described in the Special Provisions and the Project Plans described below, including any addenda No. 1 issued thereto, and also in conformance with the California Department of Transportation Standard Plans dated May 2006, the Standard Specifications dated May 2006 and the Labor Surcharge and Equipment Rental Rates in effect on the date the work is accomplished, which said Special Provisions, Project Plans, Standard Plans, Standard Specifications, and Labor Surcharge and Equipment Rental Rates are hereby specially referred to and by such reference made a part hereof.

The work to be done is shown on Plans entitled **62nd Avenue Resurfacing Project, From Jackson Street to Harrison Street, In the Community of Vista Santa Rosa of the Coachella Valley, Project No. C1-0599, Federal Aid No. STPL-5956 (232)**, Plan number **958-JJ**, approved **September 3, 2014**, on file with the County Surveyor, which said project plans are hereby made a part of this Contract.

ARTICLE II:

The said party of the first part hereby promises and agrees with the said Contractor to employ, and does hereby employ, the said Contractor to provide the materials and to do the work according to the terms and conditions herein contained and referred to, for the prices hereinafter set forth, and hereby contracts to pay the same at the time, in the manner and upon the conditions herein set forth; and the said parties for themselves, their heirs, executors, administrators, successors and assigns, do hereby agree to the full performance of the covenants herein contained.

ARTICLE III:

The State general prevailing wage rates determined by the Director of Industrial Relations are hereby made a part of this contract. It is further expressly agreed by and between the parties hereto that should there be any conflict between the terms of this instrument and the bid or proposal of said Contractor, then this instrument shall control and nothing herein shall be considered as an acceptance of the said terms of said proposal conflicting herewith.

ARTICLE IV:

By my signature hereunder, as Contractor, I certify that I am aware of the provisions of Section 3700 of the Labor Code which require every employer to be insured against liability for worker's compensation or to undertake self insurance in conformance with the provisions of that code, and I will comply with such provisions before commencing the performance of the work of this contract.

ARTICLE V:

And the said Contractor agrees to receive and accept the following prices as full compensation for furnishing all materials and for doing all the work contemplated and embraced in this Contract; also for all loss or damage, arising out of the nature of the work aforesaid, or from the action of the elements, or from any unforeseen difficulties or obstructions which may arise or be encountered in the prosecution of the work until its acceptance by the County of Riverside, and for all risks of every description connected with the work; also for all expenses incurred by or in consequence of the suspension or discontinuance of work and for well and faithfully completing the work, and the whole thereof, in the manner and according to the plans and specifications, and the requirements of the Engineer under them, to wit:

ADDENDUM NUMBER 1

Dated October 23, 2014

to the
Specifications and Contract Documents
for the construction of

62nd Avenue Resurfacing Project
From Jackson Street to Harrison Street
In the Community of Vista Santa Rosa of the Coachella Valley
Project No. C1-0599, Federal Aid No. STPL-5956(232)

Bids Due: Wednesday, October 29, 2014; 2:00 p.m.
14th Street Transportation Annex
3525 14th Street, Riverside, CA 92501
(951) 955-6780

This Addendum is issued pursuant to the Instructions to Bidders, Item No. 8, of the Contract Documents for the reference project. This Addendum is issued as a supplement to the specification and special provisions for the referenced project. The revisions to the specifications shall become a part of the Contract Documents, and each bidder shall acknowledge receipt thereof on the Bid (Proposal). Bidders are directed to sign this addendum as acknowledged, and attach the signed addendum to the contractor's submitted proposal.

Note: During the advertisement period of this project, this document and attachments (if any) are available upon request at the office of the Transportation Department, and are available as a free download at the Transportation Department's website:

MODIFICATIONS / CLARIFICATIONS TO SPECIAL PROVISIONS:

Item 1: DBE Contract Goal.

Refer to Notice to Bidders on page A1, DBE Commitment Form (Exhibit 15-G) on page B15, and DBE Information-Good Faith Efforts Form (Exhibit 15-H), on page B17 in the Special Provisions.

Replace the 3% DBE Contract Goal with 3.0%

Item 2: Federal Minimum Wages Update.

Refer to Appendix C in the Special Provisions, "Federal Prevailing Wage Decision", pages 1 through 20. Delete and replace these pages with the following:

Federal wage determination, General Decision No. CA140036 – CA36, Modification No. 19, dated **10/17/2014**, shall apply to this project. This document is available upon request from the Transportation Department: (951) 955-6780, and also posted on following County website:

Item 3: Environmental- Lead Based Paint Testing Prior to Start of Construction.

The following Special Provisions are added and made part of hereby:

Yellow Traffic Stripe And Pavement Marking (Potential Hazardous Waste):

Prior to commencing work, the Contractor shall test the yellow striping and pavement markings for hazardous substances. If the tested material is rendered harmless, the Contractor may continue work. If the tests are positive for Lead Based Paint, the Contractor shall remove any yellow traffic striping and pavement markings in accordance with the following special provisions.

Remove Traffic Stripes and Pavement Markings Containing Lead

Contractor shall properly manage removed stripe and pavement marking as a hazardous waste and to have and implement a lead compliance plan prepared by a Certified Industrial Hygienist (CIH).

Background

Existing yellow thermoplastic and yellow painted traffic stripe and pavement marking may have residue from the removal that is a hazardous waste.

Residue from removal of yellow thermoplastic and yellow painted traffic stripe and pavement marking may contain lead chromate. The average lead concentration of greater than or equal to 1000 mg/kg total lead or 5 mg/l soluble lead could be hazardous. When originally applied to the roadway, the yellow thermoplastic and yellow painted traffic stripe and pavement marking could contain as much as 2.6 percent lead. Residue produced from the removal of this yellow thermoplastic and yellow painted traffic stripe and pavement marking may contain heavy metals in concentrations that exceed thresholds established by the Health and Safety Code and 22 CA Code of Regs.

For bidding purposes, assume that the residue is not regulated under the Federal Resource Conservation and Recovery Act (RCRA), 42 USC § 6901 et seq.. Yellow thermoplastic and yellow paint may produce toxic fumes when heated.

Submittals

Lead Compliance Plan:

Prepare a work plan to prevent or minimize worker exposure to lead while managing and handling earth materials, paint system debris, traffic stripe residue, and pavement marking residue containing lead. Regulations containing specific Cal/OSHA requirements when working with lead include 8 CA Code of Regs § 1532.1.

The plan must contain the items listed on 8 CA Code of Regs § 1532.1(e)(2)(B). Before submittal, a CIH must sign and seal the plan. Submit at least 7 days before starting any

activity that presents the potential for lead exposure. The Engineer notifies you of the acceptability of the plan within 4 business days of receipt.

Before starting any activity that presents the potential for lead exposure to employees who have no prior training, including County employees, provide safety training program to these employees that complies with 8 CA Code of Regs § 1532.1 and your lead compliance program.

Submit copies of air monitoring or job site inspection reports made by or under the direction of the CIH under 8 CA Code of Regs § 1532.1 within 10 days after the date of monitoring or inspection.

Supply personal protective equipment, training, and washing facilities required by your lead compliance plan for 2 County employees.

Work Plan: Submit a work plan for the removal, containment, storage, and disposal of yellow thermoplastic and yellow painted traffic stripe and pavement marking for acceptance not less than 15 days prior to the start of the removal operations. The work plan must include:

- A. Objective of the operation.
- B. Removal equipment.
- C. Type of hazardous waste storage containers.
- D. Container storage location and how it will be secured.
- E. Hazardous waste sampling protocol and QA/QC requirements and procedures.
- F. Qualifications of sampling personnel.
- G. Analytical lab that will perform the analyses.
- H. Certification documentation of the hazardous waste hauler that will transport the hazardous waste.
- I. Disposal site that will accept the hazardous waste residue.

The Engineer will review the work plan within 5 business days of receipt.

Do not perform work that generates hazardous waste residue until the work plan has been accepted by the Engineer. The Engineer's review and acceptance does not waive any contract requirements and does not relieve the Contractor from complying with Federal, State, and local laws, regulations, and requirements.

Correct any rejected work plan and resubmit a corrected work plan within 5 business days of notification by the Engineer; at which time a new review period of 5 business days will begin.

Analytical Test Results: Submit analytical test results of the residue from removal of yellow thermoplastic and yellow painted traffic stripe and pavement marking, including chain of custody documentation, for review and acceptance before:

- A. Requesting the Engineer's signature on the waste profile requested by the disposal facility.

- B. Requesting the Engineer obtain an EPA ID no. for disposal.
- C. Removing the residue from the site.

United States Environmental Protection Agency Identification Number Request:
Submit a request for the U.S. EPA ID no. when the Engineer accepts analytical test results documenting that residue from removal of yellow thermoplastic and yellow painted traffic stripe and pavement marking is a hazardous waste.

Disposal Documentation: Submit receiving landfill documentation of proper disposal within 5 business days of residue transport from the project.

CONSTRUCTION

Where grinding or other approved methods are used to remove yellow thermoplastic and yellow painted traffic stripe and pavement marking that will produce a hazardous waste residue, the removed residue, including dust, must be contained and collected immediately. Use a HEPA filter-equipped vacuum attachment operated concurrently with the removal operations or other equally effective approved methods for collection of the residue.

Store hazardous waste residue in labeled and covered containers. Labels must comply with the provisions of 22 CA Code of Regs §§66262.31 and 66262.32. Mark labels with:

- A. Date the hazardous waste is generated.
- B. The words "Hazardous Waste".
- C. Composition and physical state of the hazardous waste (for example, asphalt grindings with thermoplastic or paint).
- D. The word "Toxic".
- E. Name, address, and telephone no. of the Engineer.
- F. Contract No.
- G. Contractor or subcontractor name.

Use metal containers approved by the U.S. Department of Transportation for the transportation and temporary storage of the removed residue. Handle the containers such that no spillage occurs. Store containers in a secured enclosure. Acceptable secure enclosures include a locked chain link fenced area or a lockable shipping container located within the project limits until disposal as approved.

Make necessary arrangements to test the yellow thermoplastic and yellow paint hazardous waste residue as required by the disposal facility and these special provisions. Testing must include, at a minimum:

- A. Total lead by EPA Method 6010C.
- B. Total chromium by US EPA Method 7000 series.
- C. Soluble lead by California Waste Extraction Test.
- D. Soluble chromium by California Waste Extraction Test.
- E. Soluble lead by Toxicity Characteristic Leaching Procedure.
- F. Soluble chromium by Toxicity Characteristic Leaching Procedure.

From the 1st 220 gallons of hazardous waste or portion thereof if less than 220 gallons of hazardous waste are produced, a minimum of 4 randomly selected samples must be taken and analyzed individually. Samples must not be composited. From each additional 880 gallons of hazardous waste or portion thereof if less than 880 gallons are produced, a minimum of 1 additional random sample must be taken and analyzed. Use chain of custody procedures consistent with Chapter 9 of U.S. EPA Test Methods for Evaluating Solid Waste, Physical/Chemical Methods (SW-846) while transporting samples from the project to the laboratory. Each sample must be homogenized before analysis by the laboratory performing the analyses. A sample aliquot sufficient to cover the amount necessary for the total and the soluble analyses must then be taken. This aliquot must be homogenized a 2nd time and the total and soluble analyses run on this aliquot. The homogenization process must not include grinding of the samples. Submit the name and location of the disposal facility that will be accepting the hazardous waste and the analytical laboratory along with the testing requirements not less than 5 business days before the start of removal of yellow thermoplastic and yellow painted traffic stripe and pavement marking. The analytical laboratory must be certified by the CA Department of Public Health Environmental Laboratory Accreditation Program for all analyses to be performed.

After the Engineer accepts the analytical test results, dispose of yellow thermoplastic and yellow paint hazardous waste residue at a Class 1 disposal facility located in CA under the requirements of the disposal facility operator within 5 days after accumulating 220 pounds of residue and dust.

If less than 220 pounds of hazardous waste residue and dust is generated in total, it must be disposed of within 5 days after the start of accumulation of the residue and dust.

Use a hazardous waste manifest and a transporter registered with the CA Department of Toxic Substance Control. The Engineer will obtain the U.S. EPA ID No. and will sign all manifests as the generator within 2 business days of receiving and accepting the analytical test results and receiving your request for the U.S. EPA ID No.

If analytical test results demonstrate that the residue is a non-hazardous waste and the Engineer agrees, dispose of the residue at an appropriately permitted Class II or Class III facility under Section 7-1.13, "Disposal of Material Outside the Highway Right of Way" of the Standard Specifications.

Method of Payment:

Full compensation for lead based paint testing, removing yellow traffic stripe and markings (hazardous waste) shall be paid for on a Force Account basis, in accordance with Section 9-1.03 of the Standard Specifications, and shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals, and for doing all of the work involved in testing, preparing and implementing the lead compliance plan, removal, containment, storage, and disposal, as specified in the Standard Specifications and these Special Provisions, and as directed by the Engineer.

Item 4.A: Environmental-Preconstruction Nesting Bird Survey.

The following Special Provisions are added and made part of hereby:

A Preconstruction Nesting Bird Survey shall be performed by the County. A pre-construction nesting bird survey will be conducted no more than 3 days prior to vegetation clearing or ground disturbance and construction activities during the bird nesting/breeding season (March 1 to August 31 for non-raptors, January 15 to June 30 for raptors). The survey will occur within the 300-foot buffer area for raptors and within the 200-foot buffer area for other birds. If nesting birds (or raptors) are found, an avoidance buffer will be established by a qualified biologist and will remain until a qualified biologist has determined that young have fledged or nesting activities have ceased.

Item 4.B: Environmental-Burrowing Owl Preconstruction Survey:

The following Special Provisions are added and made part of hereby:

A preconstruction presence/absence survey for burrowing owl following MSHCP protocol must be conducted within 30 days prior to construction by the County. The preconstruction survey will include the project impact area and a 300-foot buffer if construction is to occur between February 1 and August 31 (nesting season), and a 100-foot buffer if outside of this window. Passive relocation by a qualified biologist will be conducted if it has been confirmed that burrowing owl is not nesting (MSHCP Vol. 1, Section 6.3.2). If the species is found nesting, construction will not occur within a designated buffer determined by a biologist until either: (1) a qualified biologist has confirmed that the pair is no longer nesting and all young (if present) are independently foraging or (2) active relocation by a properly permitted biologist will be performed with concurrence from CDFW and the U.S. Fish and Wildlife Service (USFWS).

Item 5: Clarification- Manholes Final Adjustment, Coachella Valley Water District:

Refer to "Adjustment to Grade for Obstruction" sub-section of the special provisions on pages 98 through 101.

The Coachella Valley Water District (CVWD) will be responsible for the final adjustment of CVWD manholes (2) found within the project limits.

The Contractor shall notify the CVWD, upon completion of the Contractor's work, when the CVWD may move in to make the final adjustment to grade. The CVWD shall be given adequate notice and allowed sufficient time for that work, as directed by the Engineer.

The CVWD contact information will be provided to the awarded Contractor during the pre-construction meeting.

Bid

Date: 10/29/2014

To: County of Riverside, hereafter called "County";

Bidder: Granite Construction Company
(hereafter called "Contractor")

The undersigned, Contractor, having carefully examined the site and the Contract Documents for the construction of **62nd Avenue Resurfacing Project, From Jackson Street to Harrison Street, in the Community of Vista Santa Rosa of the Coachella Valley, Project No. C1-0599, Federal Aid No. STPL - 5956 (232)** hereby proposes to construct the work in accordance with the Contract Documents, including Addenda Number(s) **ONE (1)** (Fill in addenda numbers if addenda have been issued.) for the amount stated in this Bid.

By submitting this Bid, Contractor agrees with County:

1. That unless withdrawn in person by Contractor or some person authorized in writing by Contractor (not by telephone or facsimile) before the time specified in the Notice Inviting Bids for the public opening of bids, this Bid constitutes an irrevocable offer for 90 calendar days after that date.
2. County has the right to reject any or all Bids and to waive any irregularities or informalities contained in a Bid.
3. To execute the Contract and deliver the Performance Bond, Payment Bond and Insurance Certificate with endorsements, that comply with the requirements set forth in the Instructions to Bidders and General Conditions (Special Provisions), within ten (10) business days of the date of the Notice of Acceptance of Bid and Intent to Award as issued by the County.
4. That the contract shall be awarded upon a resolution or minute order to that effect duly adopted by the governing body of County; and that execution of the Contract shall constitute a written memorial thereof.
5. To submit to the County such information as County may require determining whether a particular Bid is the lowest responsible bid submitted.
6. That the accompanying Bid Bond, certified check or cashier's check is in an amount not less than 10% of the total bid submitted and constitutes a guarantee that if awarded the contract, Contractor will execute the Contract and deliver the required bonds within ten (10) business days after notice of award. If Contractor fails to execute and deliver said documents, the bond or check is to be charged with the costs of the resultant damages to the County, including but not limited to: publication costs, the difference in money between the amount bid and the amount in excess of the bid which it costs County to do or cause to be done for the work involved, lease and rental costs, additional salaries and overhead, increased interest and costs of funding the project, attorney expense, additional engineering and architectural expense and cost of maintaining or constructing alternate facilities occasioned by the failure to execute and deliver said documents.
7. By signing this Bid the Contractor certifies that the representations made therein are made under penalty of perjury.

Non-Collusion Declaration

To be executed by bidder and submitted with bid.
(Title 23 United States Code Section 112 and Public Contract Code Section 7106)

The undersigned declares:

I am the Senior Estimator (Title) of Granite Construction Company (Company),
the party making the foregoing bid.

The bid is not made in the interest of, or on behalf of, any undisclosed person, partnership, company, association, organization, or corporation. The bid is genuine and not collusive or sham. The bidder has not directly or indirectly induced or solicited any other bidder to put in a false or sham bid. The bidder has not directly or indirectly colluded, conspired, connived, or agreed with any bidder or anyone else to put in a sham bid, or that anyone shall refrain from bidding. The bidder has not in any manner, directly or indirectly, sought by agreement, communication, or conference with anyone to fix the bid price of the bidder or any other bidder, or to fix any overhead, profit, or cost element of the bid price, or of that of any other bidder.

All statements contained in the bid are true. The bidder has not, directly or indirectly, submitted his or her bid price of any breakdown thereof, or the contents thereof, or divulged information or data relative thereto, to any corporation, partnership, company, association, organization, bid depository, or to any member or agent thereof to effectuate a collusive or sham bid, and has not paid, and will not pay, any person or entity for such purpose.

Any person executing this declaration on behalf of a bidder that is a corporation, partnership, joint venture, limited liability company, limited liability partnership, or any other entity, hereby represents that he or she has full power to execute, and does execute, this declaration on behalf of the bidder.

I declare under penalty of perjury under the applicable laws that the foregoing is true and correct and that this declaration is executed on

October (Month) 29th (Day) of 2014 (Year),

at Indio (City), California (State).

Iran Contracting Act
(Public Contract Code sections 2200-2208)

Prior to bidding on, submitting a proposal or executing a contract or renewal for a County of Riverside contract for goods or services of \$1,000,000 or more, a Contractor must either:

- a) Certify it is not on the current list of persons engaged in investment activities in Iran created by the California Department of General Services ("DGS") pursuant to Public Contract Code section 2203(b) and is not a financial institution extending twenty million dollars (\$20,000,000) or more in credit to another person, for 45 days or more, if that other person will use the credit to provide goods or services in the energy sector in Iran and is identified on the current list of persons engaged in investment activities in Iran created by DGS; or
- b) Demonstrate it has been exempted from the certification requirement for that solicitation or contract pursuant to Public Contract Code section 2203(c) or (d).

To comply with this requirement, please insert your Contractor or financial institution name and Federal ID Number (if available) and complete one of the options below. Please note: California law establishes penalties for providing false certifications, including civil penalties equal to the greater of \$250,000 or twice the amount of the contract for which the false certification was made; contract termination; and three-year ineligibility to bid on contracts. (Public Contract Code section 2205.)

Option #1 – Certification

I, the official named below, certify I am duly authorized to execute this certification on behalf of the vendor/financial institution identified below, and the vendor/financial institution identified below is **not** on the current list of persons engaged in investment activities in Iran created by DGS and is not a financial institution extending twenty million dollars (\$20,000,000) or more in credit to another person/vendor, for 45 days or more, if that other person/vendor will use the credit to provide goods or services in the energy sector in Iran and is identified on the current list of persons engaged in investment activities in Iran created by DGS.

Item 3: Environmental- Lead Based Paint Testing Prior to Start of Construction.

The following Special Provisions are added and made part of hereby:

Yellow Traffic Stripe And Pavement Marking (Potential Hazardous Waste):

Prior to commencing work, the Contractor shall test the yellow striping and pavement markings for hazardous substances. If the tested material is rendered harmless, the Contractor may continue work. If the tests are positive for Lead Based Paint, the Contractor shall remove any yellow traffic striping and pavement markings in accordance with the following special provisions.

Remove Traffic Stripes and Pavement Markings Containing Lead

Contractor shall properly manage removed stripe and pavement marking as a hazardous waste and to have and implement a lead compliance plan prepared by a Certified Industrial Hygienist (CIH).

Background

Existing yellow thermoplastic and yellow painted traffic stripe and pavement marking may have residue from the removal that is a hazardous waste.

Residue from removal of yellow thermoplastic and yellow painted traffic stripe and pavement marking may contain lead chromate. The average lead concentration of greater than or equal to 1000 mg/kg total lead or 5 mg/l soluble lead could be hazardous. When originally applied to the roadway, the yellow thermoplastic and yellow painted traffic stripe and pavement marking could contain as much as 2.6 percent lead. Residue produced from the removal of this yellow thermoplastic and yellow painted traffic stripe and pavement marking may contain heavy metals in concentrations that exceed thresholds established by the Health and Safety Code and 22 CA Code of Regs.

For bidding purposes, assume that the residue is not regulated under the Federal Resource Conservation and Recovery Act (RCRA), 42 USC § 6901 et seq.. Yellow thermoplastic and yellow paint may produce toxic fumes when heated.

Submittals

Lead Compliance Plan:

Prepare a work plan to prevent or minimize worker exposure to lead while managing and handling earth materials, paint system debris, traffic stripe residue, and pavement marking residue containing lead. Regulations containing specific Cal/OSHA requirements when working with lead include 8 CA Code of Regs § 1532.1.

The plan must contain the items listed on 8 CA Code of Regs § 1532.1(e)(2)(B). Before submittal, a CIH must sign and seal the plan. Submit at least 7 days before starting any

activity that presents the potential for lead exposure. The Engineer notifies you of the acceptability of the plan within 4 business days of receipt.

Before starting any activity that presents the potential for lead exposure to employees who have no prior training, including County employees, provide safety training program to these employees that complies with 8 CA Code of Regs § 1532.1 and your lead compliance program.

Submit copies of air monitoring or job site inspection reports made by or under the direction of the CIH under 8 CA Code of Regs § 1532.1 within 10 days after the date of monitoring or inspection.

Supply personal protective equipment, training, and washing facilities required by your lead compliance plan for 2 County employees.

Work Plan: Submit a work plan for the removal, containment, storage, and disposal of yellow thermoplastic and yellow painted traffic stripe and pavement marking for acceptance not less than 15 days prior to the start of the removal operations. The work plan must include:

- A. Objective of the operation.
- B. Removal equipment.
- C. Type of hazardous waste storage containers.
- D. Container storage location and how it will be secured.
- E. Hazardous waste sampling protocol and QA/QC requirements and procedures.
- F. Qualifications of sampling personnel.
- G. Analytical lab that will perform the analyses.
- H. Certification documentation of the hazardous waste hauler that will transport the hazardous waste.
- I. Disposal site that will accept the hazardous waste residue.

The Engineer will review the work plan within 5 business days of receipt.

Do not perform work that generates hazardous waste residue until the work plan has been accepted by the Engineer. The Engineer's review and acceptance does not waive any contract requirements and does not relieve the Contractor from complying with Federal, State, and local laws, regulations, and requirements.

Correct any rejected work plan and resubmit a corrected work plan within 5 business days of notification by the Engineer; at which time a new review period of 5 business days will begin.

Analytical Test Results: Submit analytical test results of the residue from removal of yellow thermoplastic and yellow painted traffic stripe and pavement marking, including chain of custody documentation, for review and acceptance before:

- A. Requesting the Engineer's signature on the waste profile requested by the disposal facility.

- B. Requesting the Engineer obtain an EPA ID no. for disposal.
- C. Removing the residue from the site.

United States Environmental Protection Agency Identification Number Request:

Submit a request for the U.S. EPA ID no. when the Engineer accepts analytical test results documenting that residue from removal of yellow thermoplastic and yellow painted traffic stripe and pavement marking is a hazardous waste.

Disposal Documentation: Submit receiving landfill documentation of proper disposal within 5 business days of residue transport from the project.

CONSTRUCTION

Where grinding or other approved methods are used to remove yellow thermoplastic and yellow painted traffic stripe and pavement marking that will produce a hazardous waste residue, the removed residue, including dust, must be contained and collected immediately. Use a HEPA filter-equipped vacuum attachment operated concurrently with the removal operations or other equally effective approved methods for collection of the residue.

Store hazardous waste residue in labeled and covered containers. Labels must comply with the provisions of 22 CA Code of Regs §§66262.31 and 66262.32. Mark labels with:

- A. Date the hazardous waste is generated.
- B. The words "Hazardous Waste".
- C. Composition and physical state of the hazardous waste (for example, asphalt grindings with thermoplastic or paint).
- D. The word "Toxic".
- E. Name, address, and telephone no. of the Engineer.
- F. Contract No.
- G. Contractor or subcontractor name.

Use metal containers approved by the U.S. Department of Transportation for the transportation and temporary storage of the removed residue. Handle the containers such that no spillage occurs. Store containers in a secured enclosure. Acceptable secure enclosures include a locked chain link fenced area or a lockable shipping container located within the project limits until disposal as approved.

Make necessary arrangements to test the yellow thermoplastic and yellow paint hazardous waste residue as required by the disposal facility and these special provisions. Testing must include, at a minimum:

- A. Total lead by EPA Method 6010C.
- B. Total chromium by US EPA Method 7000 series.
- C. Soluble lead by California Waste Extraction Test.
- D. Soluble chromium by California Waste Extraction Test.
- E. Soluble lead by Toxicity Characteristic Leaching Procedure.
- F. Soluble chromium by Toxicity Characteristic Leaching Procedure.

From the 1st 220 gallons of hazardous waste or portion thereof if less than 220 gallons of hazardous waste are produced, a minimum of 4 randomly selected samples must be taken and analyzed individually. Samples must not be composited. From each additional 880 gallons of hazardous waste or portion thereof if less than 880 gallons are produced, a minimum of 1 additional random sample must be taken and analyzed. Use chain of custody procedures consistent with Chapter 9 of U.S. EPA Test Methods for Evaluating Solid Waste, Physical/Chemical Methods (SW-846) while transporting samples from the project to the laboratory. Each sample must be homogenized before analysis by the laboratory performing the analyses. A sample aliquot sufficient to cover the amount necessary for the total and the soluble analyses must then be taken. This aliquot must be homogenized a 2nd time and the total and soluble analyses run on this aliquot. The homogenization process must not include grinding of the samples. Submit the name and location of the disposal facility that will be accepting the hazardous waste and the analytical laboratory along with the testing requirements not less than 5 business days before the start of removal of yellow thermoplastic and yellow painted traffic stripe and pavement marking. The analytical laboratory must be certified by the CA Department of Public Health Environmental Laboratory Accreditation Program for all analyses to be performed.

After the Engineer accepts the analytical test results, dispose of yellow thermoplastic and yellow paint hazardous waste residue at a Class 1 disposal facility located in CA under the requirements of the disposal facility operator within 5 days after accumulating 220 pounds of residue and dust.

If less than 220 pounds of hazardous waste residue and dust is generated in total, it must be disposed of within 5 days after the start of accumulation of the residue and dust.

Use a hazardous waste manifest and a transporter registered with the CA Department of Toxic Substance Control. The Engineer will obtain the U.S. EPA ID No. and will sign all manifests as the generator within 2 business days of receiving and accepting the analytical test results and receiving your request for the U.S. EPA ID No.

If analytical test results demonstrate that the residue is a non-hazardous waste and the Engineer agrees, dispose of the residue at an appropriately permitted Class II or Class III facility under Section 7-1.13, "Disposal of Material Outside the Highway Right of Way" of the Standard Specifications.

Method of Payment:

Full compensation for lead based paint testing, removing yellow traffic stripe and markings (hazardous waste) shall be paid for on a Force Account basis, in accordance with Section 9-1.03 of the Standard Specifications, and shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals, and for doing all of the work involved in testing, preparing and implementing the lead compliance plan, removal, containment, storage, and disposal, as specified in the Standard Specifications and these Special Provisions, and as directed by the Engineer.

Item 4.A: Environmental-Preconstruction Nesting Bird Survey.

The following Special Provisions are added and made part of hereby:

A Preconstruction Nesting Bird Survey shall be performed by the County. A pre-construction nesting bird survey will be conducted no more than 3 days prior to vegetation clearing or ground disturbance and construction activities during the bird nesting/breeding season (March 1 to August 31 for non-raptors, January 15 to June 30 for raptors). The survey will occur within the 300-foot buffer area for raptors and within the 200-foot buffer area for other birds. If nesting birds (or raptors) are found, an avoidance buffer will be established by a qualified biologist and will remain until a qualified biologist has determined that young have fledged or nesting activities have ceased.

Item 4.B: Environmental-Burrowing Owl Preconstruction Survey:

The following Special Provisions are added and made part of hereby:

A preconstruction presence/absence survey for burrowing owl following MSHCP protocol must be conducted within 30 days prior to construction by the County. The preconstruction survey will include the project impact area and a 300-foot buffer if construction is to occur between February 1 and August 31 (nesting season), and a 100-foot buffer if outside of this window. Passive relocation by a qualified biologist will be conducted if it has been confirmed that burrowing owl is not nesting (MSHCP Vol. 1, Section 6.3.2). If the species is found nesting, construction will not occur within a designated buffer determined by a biologist until either: (1) a qualified biologist has confirmed that the pair is no longer nesting and all young (if present) are independently foraging or (2) active relocation by a properly permitted biologist will be performed with concurrence from CDFW and the U.S. Fish and Wildlife Service (USFWS).

Item 5: Clarification- Manholes Final Adjustment, Coachella Valley Water District:

Refer to "Adjustment to Grade for Obstruction" sub-section of the special provisions on pages 98 through 101.

The Coachella Valley Water District (CVWD) will be responsible for the final adjustment of CVWD manholes (2) found within the project limits.

The Contractor shall notify the CVWD, upon completion of the Contractor's work, when the CVWD may move in to make the final adjustment to grade. The CVWD shall be given adequate notice and allowed sufficient time for that work, as directed by the Engineer.

The CVWD contact information will be provided to the awarded Contractor during the pre-construction meeting.

Bid Bond

Recitals:

1. Granite Construction Company "Contractor", has submitted his/her Contractor's Proposal to County of Riverside, "County", for the construction of public work for 62nd Avenue Resurfacing Project, From Jackson Street to Harrison Street, in the Community of Vista Santa Rosa of the Coachella Valley, Project No. C1-0599, Federal Aid No. STPL-5956 (232) in accordance with a Notice Inviting Bids from the County.
2. Federal Insurance Company a n Indiana corporation, hereafter called "Surety", is the surety of this bond.

Agreement:

We, Contractor as Principal and Surety as Surety, jointly and severally agree and state as follows:

1. The amount of the obligation of this bond is 10% of the amount of the Contractor's Proposal, including bid alternates, and inures to the benefit of County.
2. This Bond is exonerated by (1) County rejecting said Proposal or, in the alternate, (2) if said Proposal is accepted, Contractor executes the Contract and furnishes the Bonds as agreed to in its Proposal, otherwise it remains in full force and effect for the recovery of loss, damage and expense of County resulting from failure of Contractor to act as agreed to in its Proposal. Some types of possible loss, damage and expense are specified in the Contractor's Proposal.
3. Surety, for value received, stipulates and agrees that its obligations hereunder shall in no way be impaired or affected by any extension of time within which County may accept the Proposal and waives notice of any such extension.
4. This Bond is binding on our heirs, executors, administrators, successors and assigns.
