**DATE:** December 15, 2014

**BACKGROUND:**

**Summary**

In June 2011, the South Coast Air Quality Management District (SCAQMD) Governing Board approved the establishment of the AB 1318 Mitigation Fees Fund to finance emission reduction projects throughout the Coachella Valley. The mitigation fees are for the transfer of emission offsets from SCAQMD's internal offset accounts to CPV Sentinel LLC for the construction and operation of the CPV Sentinel LLC Energy Power Plant Project located in Desert Hot Springs.

On February 9, 2012, the SCAQMD Governing Board formally released Request for Proposal (RFP) #P2012-17 to announce the availability of the funds and solicit proposals for emission reduction projects in the Coachella Valley.

On June 8, 2012, in response to the SCAQMD RFP, the County of Riverside (County) submitted a proposal in the amount of \$5,130,000 to pave up to 11 miles of dirt access roads within or connecting to public roads, which serve up to 40 mobile home parks in the eastern Coachella Valley. The roads consist of silt or gravel material, which generate a significant amount of fugitive dust when vehicles drive over the roads.

On January 4, 2013, the SCAQMD Governing Board approved the County's proposal, in a total amount not to exceed \$4,097,114, to pave 30 mobile home parks; and, on July 30, 2013, the execution of a contract between the SCAQMD and the County to fund this project was completed.

On June 17, 2014 (Agenda Item 3-84), the Board of Supervisors awarded a construction contract for Phase 1 of the Coachella Valley Mobile Home Park Paving Project, which included paving roads at 25 mobile home parks and three public road segments connecting to the parks. Construction began in July 2014 and was completed in October 2014.

By Minute Order dated September 23, 2014 (Agenda Item 3-66), the Board of Supervisors authorized the Clerk of the Board to advertise for the construction of Phase 2 of the Coachella Valley Mobile Home Park Paving Project within the communities of Mecca, Thermal, and Oasis for paving at various mobile home parks (including St. Anthony's Mobile Home Park), plus segments connecting mobile home parks to paved public roads.

During the advertisement period, one addendum was issued to all registered plan holders as a supplement to the plans and specifications. Bidders are required to acknowledge and take into account all issued addenda on their Contractor's Proposal in order to be considered for award. The addendum was issued to clarify and modify the approved contract documents. The addendum is attached as Addendum Number 1.

The bid was based on the sum of the Base Bid and Alternate Bid Schedules 1 through 18, as shown in the attached Summary of Bids. Three bids were received on October 23, 2014, ranging from \$1,303,810 to \$1,645,520. The basis for the selection of a contractor is the lowest responsive and responsible bid. The lowest responsible bid was submitted by Golden Valley of Palm Springs, CA in the amount of \$1,303,810, which is \$441,530 (25.3%) lower than the Engineer's Estimate.

The Transportation Department recommends award of the following schedules of work in the Contract amount of \$1,209,845:

Base Bid:	Site # 1, Phase 1 - North Offsite Road (North Of Station 24+50)
Alternate Bid Schedule 1:	Site # 1, Phase 2 - South Offsite Road (South Of Station 24+50)
Alternate Bid Schedule 2:	Site # 1, Phase 3 - Onsite Perimeter Road
Alternate Bid Schedule 3:	Site # 26
Alternate Bid Schedule 4:	Site # 38
Alternate Bid Schedule 5:	Site # 35
Alternate Bid Schedule 6:	Site # 33, 33B
Alternate Bid Schedule 7:	Site # 33A
Alternate Bid Schedule 8:	Site # 34
Alternate Bid Schedule 9:	Site # 32
Alternate Bid Schedule 10:	Site # 41
Alternate Bid Schedule 12:	Site # 39
Alternate Bid Schedule 13:	Site # 40
Alternate Bid Schedule 14:	Site # 19A, 19B
Alternate Bid Schedule 16:	Site # 14A
Alternate Bid Schedule 17:	Site # 14B
Alternate Bid Schedule 18:	Miscellaneous Items of Work

Alternate Bid Schedules 11 and 15 will not be included due to right-of-way constraints.

An Index Map, included with the Contracts Documents and Specifications, is attached as Exhibit "1" for project location reference.

Project costs are estimated to finish within the proposed project budget as shown on Attachment "A."

Phase 2 is the final phase of construction for this project and is anticipated to begin in January 2015. The construction duration is set for 76 working days.

The contractor is qualified to perform the work as outlined in the bid, has executed the contract, and has provided bonds, which meet the requirements of the Contract.

Project Number: C4-0053

**Impact on Residents and Businesses**

The AB 1318 grant will enable the County to implement an emission reduction project that will have a direct impact to improve the air quality and health of residents while aiding in regional air quality goals.

It has been the goal to pave as many eligible road segments listed in the original grant proposal as possible. Out of the original 40 listed in the grant proposal, 35 mobile home parks will receive paving improvements with almost nine miles of roads paved. The remaining five mobile home parks identified in the grant proposal could not receive paving: two parks had already been paved, two parks did not have required access permissions from adjacent property owners, and one park had shallow underground utilities that the owner declined to lower.

The 35 mobile home parks in both Phase 1 and Phase 2 consist of 540 mobile home units, mostly housing agricultural workers. The estimated population residing in these parks is more than 3,700. A significant portion, 2,200 (60%) of the estimated population are children under 18, who are particularly susceptible to the ill effects of dust emissions in their growth and development.

**FORM 11:** Phase 2 of the Coachella Valley Mobile Home Park Paving Project within the communities of Mecca, Thermal and Oasis. 4<sup>th</sup> District [\$1,209,845]; Local Funds 100%  
**DATE:** December 15, 2014  
**PAGE:** 4 of 4

The Air Quality Benefit Assessment estimates that 283 pounds of PM10 will be reduced each year by paving roads for the 35 mobile home parks. Of this amount, 60 tons are PM2.5, the fine particulate matter that poses a significant health risk to residents in proximity to the unpaved roads.

Prevailing wind patterns also carry fugitive dust to other heavily populated areas of the Coachella Valley, affecting many more residents beyond the several thousand living in these parks.

Other benefits of this project will include the improved ability for emergency vehicles, residents, and visitors to access mobile homes, especially during severe weather when communities can find themselves isolated.

**SUPPLEMENTAL:**

**Additional Fiscal Information**

This project is funded primarily through a South Coast Air Quality Management District AB 1318 grant. Gas Tax funds will be used to pave portions of roads within public right-of-way only. No funds intended for public roads or highways are being used to pave the private dirt roads at mobile home parks.

The Phase 2 construction contract is estimated to cost approximately \$1,200,000, and construction is expected to begin and end in FY 2014/2015. There are no General Funds used in this project.
