FORM 11: : Approval of Implementation Agreement for Provision of Property Assessed Clean Energy (PACE) Program Within Unincorporated Eastern Riverside County, District 4, [\$0]

DATE: January 15, 2015

PAGE: 2 of 3

BACKGROUND:

Summary (continued)

Assembly Bill (AB) 811 was signed into law on July 21, 2008, and AB 474, effective January 1, 2010, amended Chapter 29 of Part 3 of Division 7 of the Streets & Highways Code of the State of California ("Chapter 29") and authorizes a legislative body to designate an area within which authorized public officials and free and willing property owners may enter into voluntary contractual assessments to finance the installation of distributed generation renewable energy sources, energy efficiency, and/or water conservation improvements that are permanently fixed to real property, as specified. The financing for these improvements has come to be known as PACE, which stands for Property Assessed Clean Energy.

The HERO Program (for PACE financing) has been very successful in Western Riverside County, since its launch in late 2011; the Program has approved over \$130 million in applications and has funded over \$30 million in projects. To date, 209 jurisdictions in California have approved the HERO Program for their residents. Because of its success, the California HERO Program is now being offered to provide unincorporated areas in eastern Riverside County with a turnkey program that saves significant time, cost and local resources that would otherwise be needed to develop a new local program.

At their December 1, 2014 meeting, the Coachella Valley Association of Governments (CVAG) Executive Committee approved an agreement between CVAG, Renovate America and the Western Riverside Council of Governments to provide for a HERO program for residential property owners in the Coachella and Palo Verde Valleys, including all of eastern Riverside County.

If a property owner chooses to participate in the HERO program, the installed improvements will be financed by the issuance of bonds by a joint powers authority, the Western Riverside Council of Governments (WRCOG). The bonds are secured by a voluntary contractual assessment levied on such owner's property, with no recourse to the local government or other participating jurisdictions. Participation in the program is 100% voluntary. Property owners who wish to participate in the program agree to repay the amount borrowed through the voluntary contractual assessment collected together with their property taxes. This financing is available for eligible improvements on both residential and non-residential properties.

The benefits to the property owner include:

- **Eligibility:** In today's economic environment, alternatives for property owners to finance renewable energy/energy efficiency/water efficiency improvements or electric vehicle charging infrastructure may not be available. As such many property owners do not have financing options available that would provide funding for improvements that lower their utility bills.
- **Savings:** Energy prices continue to rise and selecting in energy efficient, water efficient and renewable energy improvements reduces utility bills.
- **100% voluntary.** Property owners can choose to participate in the program at their discretion. Improvements and properties must meet eligibility criteria in order to qualify for financing.
- **Payment obligation stays with the property.** Under Chapter 29, a voluntary contractual assessment stays with the property upon transfer of ownership. Certain residential conforming mortgage providers will, however, require the assessment be paid off at the time the property is refinanced or sold.
- **Prepayment option.** The property owner can choose to pay off the assessments at any time, subject to applicable prepayment penalties.
- **Customer oriented program.** Part of the success of the program is the prompt customer service. Committed funding partners provide funding promptly upon project completion resulting in both property owner and contactor satisfaction.

The benefits to the County include:

- Increase local jobs.
- An increase in property values (energy efficient homes and buildings are worth more money).
- An increase in sales, payroll and property tax revenue
- As in conventional assessment financing, the County is not obligated to repay the bonds or to pay any delinquent assessments levied on the participating properties.
- All California HERO Program and assessment administration, bond issuance and bond administration functions are handled by California HERO. Little, if any, County staff time is needed to participate in the California HERO Program.

Approval of the Implementation Agreement for Provision of Property Assessed Clean Energy (PACE) Program (Agreement) Within Unincorporated Eastern Riverside County will make the California HERO Program available to owners of property within unincorporated eastern Riverside County to finance renewable energy, energy efficiency and water efficiency improvements and electric vehicle charging infrastructure. The County is a member of CVAG as well as WRCOG, and CVAG has contracted with WRCOG and Renovate America, Inc. to provide the California HERO program to its member agencies, whereby portions of the administration of the California HERO Program in Eastern Riverside County shall be delegated to CVAG.

No fiscal impact to the County's general fund will be incurred by consenting to the inclusion of properties within the County limits in the California HERO Program. All California HERO Program administrative costs are covered through an initial administrative fee included in the property owner's voluntary contractual assessment and an annual administrative fee which is also collected on the property owner's tax bill.

Impact on Citizens and Businesses

Approval and execution of the Agreement will allow residents and businesses in unincorporated eastern Riverside County to participate in the California HERO program.
