

**SUBMITTAL TO THE BOARD OF SUPERVISORS
COUNTY OF RIVERSIDE, STATE OF CALIFORNIA**

930

SUBMITTAL DATE:
January 20, 2015

FROM: Riverside County Information Technology

SUBJECT: FY 15/16 Service Rates for Riverside County Information Technology (RCIT), All Districts
[\$90,745,421]

RECOMMENDED MOTION: That the Board of Supervisors approve the attached RCIT service rates for FY 15/16.

BACKGROUND:

Summary

The RCIT FY15/16 budget represents the first budget year of full consolidation of Information Technology staff from departments with a service agreement with RCIT.

**SUBMITTAL TO THE BOARD OF SUPERVISORS, COUNTY OF RIVERSIDE, STATE OF CALIFORNIA
FORM 11: FY 15/16 Service Rates for Riverside County Information Technology (RCIT)**

DATE: January 20, 2015

PAGE: 2 of 2

Summary (continued)

There have been many challenges associated with the consolidation of 26 departments. There are many growing pains for an organization that moves from a staff of 181 prior to the start of consolidation to a staff of 461 by FY 15/16. The complication of maintaining FY 13/14 rates to support FY 14/15 operations have reduced service levels, the support of the communications network and the support of the PeopleSoft environment.

The majority of increases in the proposed FY 15/16 \$90,745,421 budget (RCIT, Information Security Office [ISO], and Geographic Information System [GIS]), come from the cost of COLAs, distribution of administrative costs to non-core rates and the cost of needed updates to PeopleSoft. This budget also adds funding to support the county's converged infrastructure and the county's data center. The costs of the Converged Network Project (\$1,018,000) and data center improvements (\$1,700,000) will be offset with one-time general fund support to avoid increasing service rates by these costs. These investments will maintain the financial system and build the needed infrastructure for utilization of the county's data center.

RCIT has returned to best practices of distributing departmental overhead appropriately to services provided by RCIT rather than burdening all overhead costs solely in the core rate. We have also removed services from the core rate that are not yet fully utilized by all departments (i.e., Laserfiche, Constituent Relationship Manager [CRM], Office 365 and GIS). Other changes to rates include the staffing categories for service delivery that has been condensed to four technical levels from fifteen previous rates. ISO has added a new HIPAA Services rate as this is a unique service to departments that are bound by HIPAA requirements.

The attached estimated deliverable summary is an estimate of the RCIT costs for anticipated services to be provided to county departments. These are estimated costs that will be refined through meetings with the customers. Modifications to service agreement support may occur during discussions with departments and the final costs may decrease or increase based on requested services. Variations in service costs may be a result of changes in unit quantities.

RCIT Estimated Deliverables (Revised)
