Subject: RE: Public Hearing For CDBG

Safe Alternatives for Everyone Board of Supervisors Public Hearing on CDBG

Statement for the Public Record

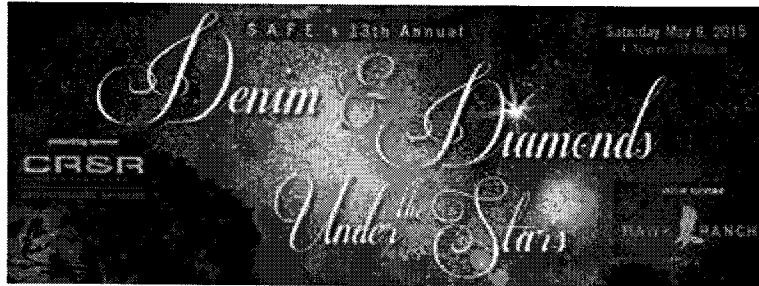

Per Riverside County Sheriff's newly released crime statistics for 2013-2014 most crimes are down for the County. That is great new except for one devastating category of crime, violent crimes and this is DOMESTIC VIOLENCE which rose 9.3% . This rise comes on the heels of less resources to our existing programs across the entire county and most specifically Safe Alternatives for Everyone. Domestic violence funding has been dismal the past few years and SAFE has worked hard to come out of the recession. Nonprofits on average take 5 years longer to rebound than profit companies after a recession and we are seeing that for ourselves unfortunately. With funding from Foundations and companies low and needs for services higher it is a dire combination of events.

California Association of Nonprofits put out a ground breaking study on nonprofits in California this year and the picture for the Inland Empire is not good, though also not surprising to those of us who work in the field . The Inland Empire has over 11% of the population in California, tied for 4th in population, yet we have the second lowest revenue per capita per poor and the second lowest assets per capita per poor just behind San Joaquin region in the entire state. Our neighboring counties such as San Diego has 9% of the state's population, over 900 more nonprofits to help the citizens of that County and over double the % of revenue and Orange County is very similar. Riverside County as a whole needs to move forward in working together to bring in additional dollars and SAFE needs the County of Riverside to support our work that is desperately needs for the health and welfare of our citizens. Not only does SAFE provide emergency services to the children, youth and families seeking safety, we provide long term assistance to victims of domestic violence. After the violence is over and the family is out of the situation, the journey to be financially successful and a productive member of society is long if ever attained. The rate of mothers and children going back to the abusive situation is frustrating at best, and deadly at worst. When mothers are faced with homelessness (60% of the homeless are women and children fleeing domestic violence) for their children and no other solution, going back to the violent situation is all they have. SAFE need resources to help aide families in that long recovery.

Domestic violence affects children and their caretakers for many years. Many of the children exposed to violence will have significant mental health, physical health and issues their entire life and many times live out the cycle of violence they have learned as children. We must address domestic violence as the societal epidemic it is and that means provide the qualified nonprofits like SAFE with significant resources to combat it. With domestic violence services underfunded many individuals needing services go without. That means they will access all the other much more expensive systems such as child protective services, juvenile justice, adult justice system, first responders and the list goes on. Not only does the system now have more children to care for, more homeless mothers, more law enforcement response needed, we have lives that are being devastated and futures looking bleak. With appropriate prevention and intervention we can reduce the families that live distraught, horrific lives in abuse and violent homes. SAFE does just that, saving and changing lives every day. SAFE respectfully asks for support and full funding for our CDBG 2015-2016 application to the County of Riverside to enable us to do the work in the 3rd District that it so desperately needs.

RE: 2015 - 2016 Community Development Block Grant
OPERATION SCHOOL BELL® – Assistance League® of Hemacinto, Hemet, CA

Ms. Wilson,

Please incorporate the following summary of the OPERATION SCHOOL BELL program activity into the record for the Board of Supervisors Public Hearing scheduled for March 10, 2015:

Project Description: **OPERATION SCHOOL BELL**

Since 1976, the Assistance League of Hemacinto has and continues to provide a unique community service to the Inland Valley through its Operation School Bell program. Underprivileged children, who are referred by administrators, nurses, and/or teachers from elementary schools in the San Jacinto and Hemet School Districts are provided with new shoes and school clothing. Cost to purchase these items is approximately \$100 per child.

OPERATION SCHOOL BELL IS OUR MAIN PUBLIC SERVICE ACTIVITY. We service twenty-three elementary schools in the communities of Hemet, San Jacinto, Winchester, Aguanga, Anza, and Idyllwild. The program also helps children in crisis, due to abandonment or disasters, such as house fires.

During the present school year, 2014 -2015, close to 1,350 students are anticipated to take part in the Operation School Bell program. During the 2015 – 2016 school year the program expects that number to grow to 1400+. The \$10,000 the Assistance League seeks from this grant will be applied toward assisting 100 of the disadvantaged children referred to our organization.

The Assistance League is an all-volunteer organization. We own our own building, therefore, no grant funding will be used to pay salaries or to pay rent. All grant monies received are used solely for the purpose of assisting the children referred the program.

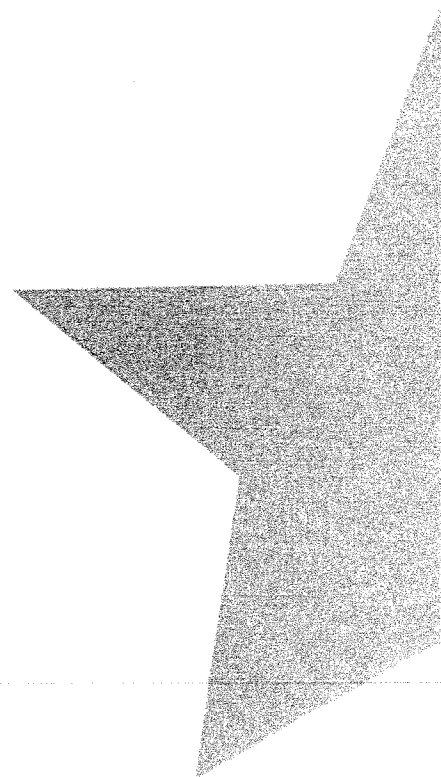

Information, as of February 2012 shows that the Operation School Bell program has clothed over 29,000 children since the chapter was founded in 1976. Most of the children fall into the low to extremely-low income categories.

A major goal of Operation School Bell is to raise enough funds to assist all the students referred to the Operation School Bell program and to be able to staff the program with the necessary number of volunteers. The primary project objective is to enhance the self-esteem of the students by meeting their basic needs of clothing and shoes, thereby improving their outlook toward school participation and learning in the classroom. Members of the Assistance League believe that if children have good school experiences, they will develop positive attitudes and skills, which will in turn help them lead productive lives and to become contributing members of their communities.

The Assistance League appreciates the support the County of Riverside has provided to this project over the years. We hope that this program is once again awarded a grant so that Operation School Bell can continue to meet the needs of the underprivileged children who attend schools in the San Jacinto and Hemet School Districts of Riverside County.

Sincerely,

Nancy Urtado
Grants Chairman

Attn: Elizabeth Wilson

RE: 2015 - 2016 Community Development Block Grant
OPERATION SCHOOL BELL® – Assistance League® of Hemacinto, Hemet, CA

Ms. Wilson,

Please incorporate the following summary of the OPERATION SCHOOL BELL program activity into the record for the Board of Supervisors Public Hearing scheduled for March 10, 2015:

Project Description: **OPERATION SCHOOL BELL**

Since 1976, the Assistance League of Hemacinto has and continues to provide a unique community service to the Inland Valley through its Operation School Bell program. Underprivileged children, who are referred by administrators, nurses, and/or teachers from elementary schools in the San Jacinto and Hemet School Districts are provided with new shoes and school clothing. Cost to purchase these items is approximately \$100 per child.

OPERATION SCHOOL BELL IS OUR MAIN PUBLIC SERVICE ACTIVITY. We service twenty-three elementary schools in the communities of Hemet, San Jacinto, Winchester, Aguanga, Anza, and Idyllwild. The program also helps children in crisis, due to abandonment or disasters, such as house fires.

During the present school year, 2014 -2015, close to 1,350 students are anticipated to take part in the Operation School Bell program. During the 2015 – 2016 school year the program expects that number to grow to 1400+. The \$10,000 the Assistance League seeks from this grant will be applied toward assisting 100 of the disadvantaged children referred to our organization.

9-1
03-10-15

The Assistance League is an all-volunteer organization. We own our own building. therefore, no grant funding will be used to pay salaries or to pay rent. All grant monies received are used solely for the purpose of assisting the children referred the program.

Information, as of February 2012 shows that the Operation School Bell program has clothed over 29,000 children since the chapter was founded in 1976. Most of the children fall into the low to extremely-low income categories.

A major goal of Operation School Bell is to raise enough funds to assist all the students referred to the Operation School Bell program and to be able to staff the program with the necessary number of volunteers. The primary project objective is to enhance the self-esteem of the students by meeting their basic needs of clothing and shoes, thereby improving their outlook toward school participation and learning in the classroom. Members of the Assistance League believe that if children have good school experiences, they will develop positive attitudes and skills, which will in turn help them lead productive lives and to become contributing members of their communities.

The Assistance League appreciates the support the County of Riverside has provided to this project over the years. We hope that this program is once again awarded a grant so that Operation School Bell can continue to meet the needs of the underprivileged children who attend schools in the San Jacinto and Hemet School Districts of Riverside County.

Sincerely,

Nancy Urtado
Grants Chairman

Subject: RE: Public Hearing For CDBG

Safe Alternatives for Everyone Board of Supervisors Public Hearing on CDBG

Statement for the Public Record

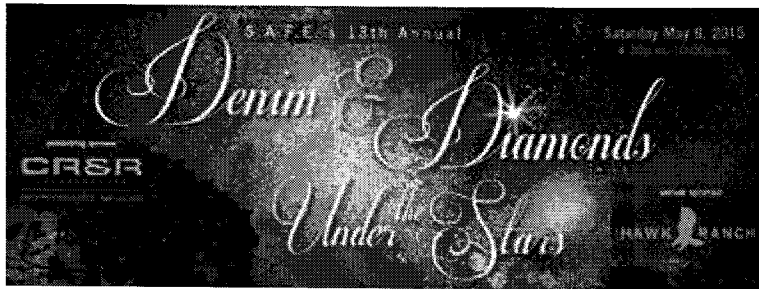

Per Riverside County Sheriff's newly released crime statistics for 2013-2014 most crimes are down for the County. That is great new except for one devastating category of crime, violent crimes and this is DOMESTIC VIOLENCE which rose 9.3% . This rise comes on the heels of less resources to our existing programs across the entire county and most specifically Safe Alternatives for Everyone. Domestic violence funding has been dismal the past few years and SAFE has worked hard to come out of the recession. Nonprofits on average take 5 years longer to rebound than profit companies after a recession and we are seeing that for ourselves unfortunately. With funding from Foundations and companies low and needs for services higher it is a dire combination of events.

California Association of Nonprofits put out a ground breaking study on nonprofits in California this year and the picture for the Inland Empire is not good, though also not surprising to those of us who work in the field . The Inland Empire has over 11% of the population in California, tied for 4th in population, yet we have the second lowest revenue per capita per poor and the second lowest assets per capita per poor just behind San Joaquin region in the entire state. Our neighboring counties such as San Diego has 9% of the state's population, over 900 more nonprofits to help the citizens of that County and over double the % of revenue and Orange County is very similar. Riverside County as a whole needs to move forward in working together to bring in additional dollars and SAFE needs the County of Riverside to support our work that is desperately needs for the health and welfare of our citizens. Not only does SAFE provide emergency services to the children, youth and families seeking safety, we provide long term assistance to victims of domestic violence. After the violence is over and the family is out of the situation, the journey to be financially successful and a productive member of society is long if ever attained. The rate of mothers and children going back to the abusive situation is frustrating at best, and deadly at worst. When mothers are faced with homelessness (60% of the homeless are women and children fleeing domestic violence) for their children and no other solution, going back to the violent situation is all they have. SAFE need resources to help aide families in that long recovery.

Domestic violence affects children and their caretakers for many years. Many of the children exposed to violence will have significant mental health, physical health and issues their entire life and many times live out the cycle of violence they have learned as children. We must address domestic violence as the societal epidemic it is and that means provide the qualified nonprofits like SAFE with significant resources to combat it. With domestic violence services underfunded many individuals needing services go without. That means they will access all the other much more expensive systems such as child protective services, juvenile justice, adult justice system, first responders and the list goes on. Not only does the system now have more children to care for, more homeless mothers, more law enforcement response needed, we have lives that are being devastated and futures looking bleak. With appropriate prevention and intervention we can reduce the families that live distraught, horrific lives in abuse and violent homes. SAFE does just that, saving and changing lives every day. SAFE respectfully asks for support and full funding for our CDBG 2015-2016 application to the County of Riverside to enable us to do the work in the 3rd District that it so desperately needs.
