3. Authorize the Economic Development Agency (EDA) to advertise for additional pre-qualified general contractors for OSHPD construction and/or seismic renovation projects \$5,000,000 to \$30,000,000.

**BACKGROUND:**

**Summary**

On January 6, 2015 (Item 3-13), the Board of Supervisors approved the Pre-Qualification for Prime Contractor Package for the purpose of establishing a list of pre-qualified general contractors to bid on the construction and/or seismic renovation projects in three specific construction project types at two experience (cost) levels: 1) General County facilities; 2) Health facility construction projects subject to the requirements of OSHPD; and 3) Detention and justice facilities. The two experience (cost) levels consist of: Level I – construction projects ranging from \$175,000 to \$4,999,999; and Level II – construction projects ranging from \$5,000,000 to \$30,000,000.

The Request for Qualifications (RFQ) and Pre-Qualification for Prime Contractor Package were advertised beginning on June 18, 2015 and the deadline for submittals was July 31, 2015. The solicitation package included a five-part questionnaire that assessed a contractor's strength, performance history and project experience in the selected field. Project references, provided by the applicant, were interviewed. Only applicants that were ranked with the highest score and past performance are selected to be pre-qualified to bid on Board-approved public works projects for one year following the Notice of Pre-qualification.

Of the four applications received and evaluated in the construction project category of OSHPD - Level II (\$5,000,000 - \$30,000,000), only two applicants were selected to be pre-qualified. While the approval of the two pre-qualified general contractors should proceed, EDA staff recommends advertising for additional pre-qualified general contractors in this category and experience level to increase competition in order to obtain the most reasonable bid price to the County.

**Impact on Citizens and Businesses**

Approval of the pre-qualification of the general contractors will position the County to expedite the construction of various countywide, Board-approved projects by hiring contractors with the demonstrated expertise and experience in the selected field and experience (cost) level. This will result in the efficient delivery of services to the public while minimizing the county's legal risk of potential lawsuits.

**Additional Fiscal Information**

The experience level (cost) range of \$5,000,000 to \$30,000,000 does not obligate any county funds. The Board of Supervisors will approve future construction contract awards pursuant to county Board Policy B-22.
