FORM 11: Receive and File the Report by Riverside County Regional Medical Center on Agreement  
Signed Under Delegated Authority During the First Quarter of FY 2015-16**

**BACKGROUND:**

**Summary**

RCRMC had two primary goals in seeking limited delegation authority. The primary objective was to reduce the time normally required to finalize an agreement. Typical agreements might provide equipment for patient service, initiate student internships, or they might generate net new revenue. In each case there is a sizable benefit to expediting the approval process. The secondary objective was to remove items that are repetitive or routine and thus help declutter the Board agenda.

In the first two months many beneficial agreement have been signed, including nine affiliation agreements with universities to provide training to students and doctors, three agreements with health insurance providers like IEHP that facilitated the transfer of significant payments, and five agreements with local pharmacies to provide prescription drug services for our patients. These pharmacy agreements generate revenue for the hospital without increasing drug costs to patients.

**Impact on Citizens and Businesses**

Delegated authority allows for patient services to be delivered faster. Those agreements that increase revenue or accelerate payments improve the hospital's fiscal health.
