**FORM 11: RE: Adjusting Waste Hauler Fees for All Franchise Areas**

May 24, 2016

Page 2

**BACKGROUND:**

**Summary**

Waste Collection Franchise Agreements covering most unincorporated portions of Riverside County were phased in between 1997 and 1998. Within each of the existing twelve Franchise Agreements is a provision for an annual adjustment of the rates effective each July. The franchise areas (Areas) are spread throughout the entire county. Board of Supervisors District 1 has portions of Areas 1,3, and 4 served by Waste Management Inc., and Area 5 served by CR &R. Board of Supervisors District 2 contains portions of Areas 1,3, and 4 served by Waste Management Inc and Area 2 served by Burrtec Waste. Board of Supervisors District 3 has portions of Area 3 served by Waste Management Inc. and Areas 5,6,7,8 and 9 served by CR &R. Board of Supervisors District 4 contains Area 10 served by Desert Valley Disposal, Area 12 served by Burrtec Waste and Area 13 served by CR&R. Board of Supervisors District 5 contains a portion of Areas 1 and 3 served by Waste Management Inc, Areas 6,7, and 9 served by CR &R.

This adjustment allows a "pass through" for any changes to landfills costs including the Alternative Daily Cover (ADC) surcharge or transfer station fees, plus an increase based on Consumer Price Index (CPI) for the balance of the rate. There will also be the continued adjustment of fees charged in Desert Center due to the reduction of the County subsidy. All non-disposal costs are adjusted by the CPI for the Los Angeles/Anaheim/Orange County, CA, as published by the United States Department of Labor, Bureau of Labor Statistics. The proposed rates were adjusted as delineated in the franchise agreement using a CPI of 2% for the twelve (12) month period January 2015 through December 2015. The increase would only affect the service component of the rate and not the disposal costs.

CR&R, the franchisee that services Areas 5,6,7,8,9, and 13, requests the addition of one fee. This would be a one-time charge of a \$31.50 administrative fee that would be added to any past due waste collection accounts. This administrative fee would be added to the property taxes and would only be imposed after meeting the established process of the Department of Environmental Health and County Ordinance 745. The fee would cover the costs of CR&R staff and consultant time expended in preparing the past due amounts placed on the property taxes.

The detailed rate calculation worksheets factoring in the CPI increase and any other increases controlled by other agencies will be reviewed by the Riverside County Auditor Controller's Office for accuracy and maintained by the Department of Environmental Health.

**Impact on Residents and Businesses**

The current typical residential accounts pay between \$17.92 and \$32.91 depending on the distance to disposal sites, geographic conditions and types of services requested. The approval of the proposed 2% increase would raise the typical residential rate in the Franchise Areas by approximately \$0.35 per month. The typical commercial customer pays between \$95 and \$1500 per month depending on the level of service and frequency requested. The proposed 2% increase could result in an approximate increase of between \$1.43 and \$24.00 per month.

The processing charge of \$31.50 proposed by CR&R would affect any property owners with numerous past due waste collection invoices that remain unpaid and that are subject to the established property tax lien procedure of Ordinance 745.

The approval of this change will result in no cost to the County; implementation expenses are borne by the franchisee.
