BACKGROUND (Continued):

Summary

Each program offers residential and non-residential treatment components that provide peer-to-peer engagement and support services in non-intrusive low demand environments.

The residential component has a basic structure of 24-hour residency, with no limit on length of stay, semi-private sleeping accommodations, and common use of kitchen facilities, dining rooms, and bathrooms for up to 25 persons. The non-residential component consists of a drop-in center for persons who are chronically homeless and have serious mental health disorder(s), to provide food, clothing, and bathroom and laundry facilities.

On June 2, 2015, (3-13), the Board of Supervisors approved the one year agreements with Recovery Innovations, Inc. to provide Permanent Supportive Housing Services in Riverside (The Place) and in the Desert Region (The Path), for a combined aggregate of \$1,300,000 for FY15/16.

A competitive bid process for these services for FY16/17 is currently being conducted. RUHS-BH is requesting approval to renew both agreements with Recovery Innovations Inc. for the term July 1, 2016 through September 30, 2016. This will allow sufficient time for the bid process to be completed without interruption of services to consumers.

Impact on Citizens and Businesses

These services are a component of Behavioral Health's system of care aimed at improving the health and safety of consumers and the community.

Additional Fiscal Information

The maximum contract amounts for the agreements with Recovery Innovations, Inc reflect anticipated costs for three (3) months, with sixty-three percent (63%) of funding provided by Federal Housing and Urban Development (HUD) dollars and thirty-seven percent (37%) of the funding provided by the State of California Mental Health Services Act (MHSA). There are sufficient funds in the Department's FY16/17 budget and no additional County funds are required.
