SUBJECT: FY 16/17 Budget Recommendations

Board members:

The midyear report approved by the Board of Supervisors on February 2, 2016, outlined a multi-year fiscal strategy to stabilize the budget long-term that included four key objectives for the FY 16/17 budget: rolling over ongoing FY 15/16 net county costs less one-time allocations; departmental absorption of labor and other cost increases; full cost recovery from contracts and fees as required by law; and cost containment through tighter operational efficiencies and greater use of best practices. Within this strategic framework, on June 20, 2016, I presented the Board a FY 16/17 recommended budget that provided \$5.4 billion in overall spending authority and \$3.1 billion for general fund operations, including \$814 million in discretionary general fund spending funded by \$753 million in discretionary revenue and \$61 million in general fund reserves. This proposal included a multi-year discretionary spending plan that rolls over most departments' FY 15/16 net cost allocations and caps discretionary spending at \$814 million through FY 20/21 to maintain discretionary reserves above \$100 million.

In the short term, we can expect discomfort as a result of holding spending down. The need to maintain spending at the proposed levels is driven by an expansion in public safety expenditures, including the inmate litigation settlement, not matched by an equal growth in revenue. Our long-term solution is to achieve operational savings as a result of the KPMG-led realignment effort.

The Board held budget hearings on June 20 and 21 to take testimony from departments and the public on discretionary budget issues and spending needs. To ensure baseline-spending authority for the next fiscal year was in place by June 30 as required by law, the Board approved the recommended budget as presented and continued budget hearings to June 28 for further discussion.

3-61

Chief among the critical issues raised during budget hearings was the drawdown of discretionary reserves. At the same time, the Board made clear its concern about continuing to fund the Medical Center during its transformation, as well as the budgetary impacts on the Public Defender, Office on Aging, and Veterans Services. In addition, the Board expressed concern regarding the impact overall of increases in internal service costs on all departments.

At that time, my office identified a combination of cuts and potential resources to address those concerns while closing the gap by \$23 million to maintain general fund discretionary reserves above \$150 million. Since then, my office has refined these options. They include additional resources resulting from one-time release of \$5.6 million in committed fund balance, and ongoing increases to a few discretionary revenues by a total of \$6.1 million in light of estimated year-end actual results. It also includes \$10.7 million in net cost reductions, primarily from \$4.6 million in cost savings resulting from a planned debt refinancing and \$2 million from anticipated use of departmental revenue to offset expanding detention behavioral health services to inmates. Finally, it includes \$13.8 million in additional ongoing spending, \$11 million of which is for the Medical Center. These are itemized in the table below:

**Proposed Amendments to
FY 16/17 Discretionary Spending Plan**
(in millions)

Liquidating committed fund balance:		
DPSS realignment growth	\$(4.3)	
SB90 (state mandates) deferral	(1.4)	
		\$(5.7)
Increased discretionary revenues		(6.1)
Net cost savings:		
Assessor	(0.3)	
Sheriff	(4.0)	
Probation	(0.5)	
Behavioral Health – Detention	(2.0)	
Animal Services	(0.2)	
Capital Finance Administration	(4.6)	
		(10.7)
Net cost increases:		
Public Defender	0.8	
Veterans Services	0.2	
Economic Development Program	1.6	
Office on Aging	0.2	
Riverside University Health System – Medical Center	11.0	
		13.8
Anticipated year-end fund balance available		(14.3)
Total reduction in use of reserves =		<u>\$(23.0)</u>

My office currently projects the ongoing effects of these decreases in net cost combined with the increases in estimated revenues and carry over of year-end fund balance will maintain discretionary reserves above \$150 million in FY 17/18. This will enable rebuilding reserves more quickly beginning in FY 18/19, and finally meeting the reserve requirement again by the end of FY 19/20.

In response to the Board's concerns regarding escalating workers compensation costs, in addition to the actions outlined above I also recommend cutting \$2.4 million from the culture of health effort funded through the Workers Compensation fund. This savings will be passed along to departments to help offset a portion of the cost increases resulting from higher workers compensation claims.

Included here are also other adjustments to the recommended budget of a more technical nature. These include the addition of a \$3.5 million budget and positions for the legacy Waste Management District budget unit which was inadvertently omitted from the recommended budget; and likewise the restoration of a number of positions for the Riverside University Health System that were also omitted.

This budget is the first step in a journey toward fiscal sustainability. The success of this multi-year plan will depend on substantial restraint to maintain overall discretionary spending flat over the next five years while still delivering mission-critical county services. Modest additional gains in discretionary revenues may occur, but we also face the potential for recessionary headwinds to blunt forecasted revenue growth. The Prop. 172 reserve previously set aside will be exhausted in FY 16/17, and all growth in that revenue is already factored into planned future allocations. Furthermore, due to apparent errors made by the Board of Equalization affecting all counties, within the next year we anticipate the state will scale back Prop. 172 and realignment revenue allocations from recent trend levels. Therefore, it is essential all departments adhere to their approved budgets while sustaining core county services.

Consequently, we have no choice but to find leaner, more efficient means of accomplishing the county's mission-critical strategic objectives within these constraints, even in the face of ever-increasing caseloads. Any expansion of discretionary spending in one area will require deep surgical cuts to spending in other areas. Therefore, every department will have to step up and do their part to meet this challenge. My office continues working with KPMG in its ongoing operational review of the justice departments, and their new review of select internal service departments. My office also has initiated a review of position control procedures to ensure the spending authority entailed by authorized positions aligns tightly with Board-approved appropriations. I will return to the Board in the near future with findings and recommendations resulting from these efforts.

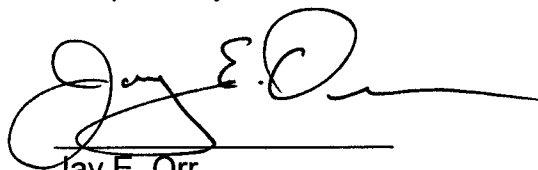

Meanwhile, we will continue working to conclude the FY 15/16 year-end processes that will determine the ending fund balances which will carry over to the FY 16/17 beginning balances, which we expect will be known by mid-September. I therefore plan to bring forward adoption of the budget on September 27, 2016, with those actual beginning balances, and will be able to confirm the resulting actual use of discretionary reserves at that time.

IT IS THEREFORE RECOMMENDED that the Board of Supervisors:

- 1) Approve the adjustments to the recommended budget listed in Attachment A;
- 2) Approve Resolution No. 440-9037 containing amendments of Ordinance 440 and Budget Schedule 20 listed in Attachment B;
- 3) Approve lifting the spending restrictions regarding hiring, purchasing, and travel imposed by the Board on June 28, and direct all department heads to take all necessary steps to ensure that spending stays within the Board-approved appropriation limits; and,
- 4) Direct the Executive Office to return to the Board on September 27, 2016, with the schedules necessary to adopt formally the FY 16/17 budget.

MEMORANDUM

June 17, 2016

TO: The Clerk of the Board Kecia Harper-Ihem

CC: Chief Assistant CEO George Johnson
Chief Financial Officer Paul McDonnell
Administrative Analyst Elizabeth Olson

FROM: Mike Hestrin, District Attorney

SUBJECT: Technical Changes To the District Attorney's Office's FY 16/17 Budget

In compliance with the need to contact you regarding technical changes in the Recommended Budget Schedule 20, we are submitting the following information:

- The Schedule 20 indicates the District Attorney has 749 authorized positions. This is an error. The District Attorney has a roster of 908 authorized positions which we maintain by ensuring their availability in the event we are able to secure non-general fund dollars (i.e. grants) or realize greater cost-savings.
- A number of our filled positions are missing from the Schedule 20. This includes the following positions with the corrected authorized positions count:

Sr. DA Investigator	37664	37

- The following position was on the District Attorney's Office FY15/16 roster but appears to have been removed, without the District Attorney's knowledge.

Position	Job Code	Authorized Positions
IT Web Developer II	86195	1

- A number of the authorized positions on the Schedule 20 reflect incorrect position counts. This includes the following positions with the corrected authorized position counts:

***NOTE:** The District Attorney's process is to start attorneys at the Deputy District Attorney I level and then as the deputies gain the necessary experience they promote to the subsequent levels through the Deputy District Attorney IV position. The above authorized positions include all Deputy District Attorney I - IV positions currently authorized.
