STATE OF CALIFORNIA**

BACKGROUND:

Summary

As part of its mission, Riverside University Health System - Behavioral Health (RUHS-BH) Substance Abuse Prevention & Treatment Program is to provide treatment and recovery resources for individuals convicted of driving under the influence of alcohol to abstain from driving after drinking while promoting the health and safety of the drinking driver and the well-being of society.

The DUI program was developed to implement PC1000, DEJ, Assembly Bill (AB) 541 and Senate Bill (SB) 38. AB 541 became effective January 1982 and provides that a person convicted for a first time DUI may be granted probation on the condition that he/she participates in, and successfully completes an alcohol and drug education and counseling program designated by the Court. SB 38, effective January 1978, provided that a person convicted of a DUI for a second time in a seven-year period may be granted probation on the condition that they participate in and successfully complete a State/County approved eighteen-month program of counseling and education. 9 CCR § 9801.5 requires the Board of Supervisors to recommend organizations to provide First and Multiple Offender DUI Services in Riverside County.

Due to a growth in population of 38% - 40% during 2000 and 2014, the populated regions/areas are not adequately covered with multiple offender DUI providers. Additionally, some program levels are not currently available in certain regions, limiting services for persons convicted of driving under the influence who may not have access to transportation. Attachment A lists current Riverside University Health System - Behavioral Health Drinking Driver Program providers who are approved to provide First Offender DUI Services. Riverside University Health System - Behavioral Health is requesting the Board to approve these providers as DUI Multiple Offender providers as well.

These services include:

- **Wet & Reckless** (SB1176) A Wet & Reckless conviction is less than a Driving Under the Influence ("DUI") charge. The driver is convicted of driving with a measurable amount of alcohol but the individual's blood alcohol content is less than .08. The driver must complete a 12-hour education program; typically 6 weeks of education, 2 hours each.

- **First Offender** (AB541) The driver is convicted of a first DUI within 10 years and the blood alcohol content of 0.08-0.20. The driver must complete a 30-hour alcohol and drug education and counseling program. The program duration is 3-4 months and is structured as follows:
 - 18 hours of group counseling
 - 12 hours of education
 - 3 individual face-to-face sessions

- **First Offender** (AB1353) The driver is convicted of a first DUI within 10 years and blood alcohol content of 0.20 or higher. The driver must complete a 60-hour alcohol and drug education and counseling program. The program duration is 9 months, structured as follows:
 - 44 hours of group counseling

**SUBMITTAL TO THE BOARD OF SUPERVISORS COUNTY OF RIVERSIDE,
STATE OF CALIFORNIA**

- 12 hours of education
- 22 individual face-to-face sessions

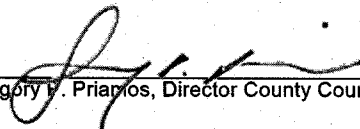

- **Second/Multiple Offender (SB38)** The driver is convicted of DUI two or more times within 10 years, with a blood alcohol content of 0.20 or higher. The driver must complete a 18-month multiple offender program. This program requires:
 - 52 hours of group counseling;
 - 12 hours of alcohol and drug education;
 - 6 hours of community reentry monitoring; and
 - Bi-weekly individual interviews during the first 12 months of the program.

Impact on Citizens and Businesses

DUI and PC1000 DEJ services will be accessible for both First and Multiple Offender participants to any of the State Licensed DUI providers of their choice. These services are a component of Behavioral Health's system of care aimed at improving the health and safety of consumers and the community.

Contract History and Price Reasonableness

This program is fully funded by DUI client fees and there is no county cost.
