BACKGROUND:

Summary

Eisenhower Medical Center maintains a program for Medical Residents studying in the fields of Emergency Medicine. This Agreement provides for the responsibilities of each party. The term of this agreement is January 1, 2017 through June 30, 2019.

Eisenhower Medical Center – Emergency Medical residency training involves training in EMS and pre-hospital medical care. The residents going out will be interns (in their first year of training after medical school). We are hopeful the interns will learn aspects of prehospital care, and see firsthand what our providers do day-to-day. Additionally, their accreditation body requires the residents provide some didactic education to prehospital providers, which would include lectures about some medical topic with relevancy to EMS providers.

Eisenhower Medical Center school of Graduate Medical Education desires to contract with the Riverside County Fire Department to provide supervised field experience for interns enrolled in its Medical Program, and as such, the two agencies have reached an agreement as to the level of service to be provided to the intern. Eisenhower Medical Center is a private Hospital and has established an emergency medical training school located in Rancho Mirage, CA with an accredited Medicine program for medical interns in the field of Emergency Medicine. The Medical Residents will be participating in field ride outs with a transporting ambulance or paramedic assessment engine to learn community based pre-hospital medical emergencies. During this ride-out period the medical intern will interact with patients, families, hospital, co-workers, and other emergency agencies of the same or different cultures.

The Riverside County Fire Department in Cooperation with CAL FIRE will greatly benefit in the mentoring and training of these Medical Interns as they will be observing medical emergencies and will be faced with the challenges first responders encounter as the medical emergencies are unfolding. This is a unique opportunity for Fire Personnel to interact with physicians while on emergency incidents and providing medical training to our personnel by the medical interns.

There is no cost to Riverside County for this program. Per Health and Safety Code Section 1799.100, *"In order to encourage local agencies and other organizations to train people in emergency medical services, no local agency, entity of state or local government, private business or nonprofit organization included on the statewide registry that voluntarily and without expectation and receipt of compensation donates services, goods, labor, equipment, resources, or dispensaries or other facilities, in compliance with Section 8588.2 of the Government Code, or other public or private organization which sponsors, authorizes, supports, finances, or supervises the training of people, or certifies those people, excluding*

physicians and surgeons, registered nurses, and licensed vocational nurses, as defined, in emergency medical services, shall be liable for any civil damages alleged to result from those training programs.
