Effective Buying Income

“Effective Buying Income” is defined as personal income less personal tax and nontax payments, a number often referred to as “disposable” or “after-tax” income. Personal income is the aggregate of wages and salaries, other than labor-related income (such as employer contributions to private pension funds), proprietor’s income, rental income (which includes imputed rental income of owner-occupants of non-farm dwellings), dividends paid by corporations, interest income from all sources and transfer payments (such as pensions and welfare assistance). Deducted from this total are personal taxes (federal, state and local, nontax payments fines, fees, penalties, etc.) and personal contributions to social security insurance and federal retirement payroll deductions. According to U.S. government definitions, the resultant figure is commonly known as “disposable personal income.”

The following table summarizes the total effective buying income for the County and the State for the period 2012 through 2016:

Personal Income

Personal Income is the income that is received by all persons from all sources. It is calculated as the sum of wage and salary disbursements, supplements to wages and salaries, proprietors' income with inventory valuation and capital consumption adjustments, rental income of persons with capital consumption adjustment, personal dividend income, personal interest income, and personal current transfer receipts, less contributions for government social insurance.

The personal income of an area is the income that is received by, or on behalf of, all the individuals who live in the area; therefore, the estimates of personal income are presented by the place of residence of the income recipients.

Total personal income in Riverside County increased by 73% between 2002 and 2013. The following tables summarize personal income for Riverside County for 2002 through 2013.

There are five regional shopping malls in the County: Galleria at Tyler (Riverside), Hemet Valley Mall, Westfield Palm Desert Shopping Center, Moreno Valley Mall and the Promenade at Temecula. There are also two factory outlet malls (Desert Hills Factory Stores and Lake Elsinore Outlet Center) and over 200 area centers in the County.

Agriculture

Agriculture remains an important source of income in the County. Principal agricultural products are milk, eggs, table grapes, grapefruit, nursery, alfalfa, bell peppers, dates, lemons and avocados.

Four areas in the County account for the major portion of agricultural activity: the Riverside/Corona and San Jacinto/Temecula Valley Districts in the western portion of the County, the Coachella Valley in the central portion and the Palo Verde Valley near the County's eastern border.

The value of agricultural production in the County for 2011 through 2015 is presented in the following table:

Transportation

Several major freeways and highways provide access between the County and all parts of Southern California. State Route 91 extends southwest through Corona and connects with the Orange County freeway network in Fullerton. Interstate 10 traverses most of the width of the County, the western-most portion of which links up with major cities and freeways in Los Angeles County and the southern part of San Bernardino County, with the eastern part linking to the County's desert cities and Arizona. Interstate 15 and 215 extend north and then east to Las Vegas, and south to San Diego. State Route 60 provides an alternate (to Interstate 10) east-west link to Los Angeles County.

Currently, Metrolink provides commuter rail service to Los Angeles, San Bernardino and Orange Counties from several stations in the County. Transcontinental passenger rail service is provided by Amtrak with stops in Riverside and Indio. Freight service to major west coast and national markets is provided by two transcontinental railroads -- Union Pacific Railroad and the BNSF Railway Company. Truck service is provided by several common carriers, making available overnight delivery service to major California cities.

Transcontinental bus service is provided by Greyhound Lines. Intercounty, intercity and local bus service is provided by the Riverside Transit Agency to western County cities and communities. There are also four municipal transit operators in the western County providing services within the cities of Banning, Beaumont, Corona and Riverside. The SunLine Transit Agency provides local bus service throughout the Coachella Valley, service the area from Desert Hot Springs to Oasis and from Palm Springs to Riverside. The Palo Verde Valley Transit Agency provides service in the far eastern portion of the County (City of Blythe and surrounding communities).

The County seat, located in the City of Riverside, is within 20 miles of the Ontario International Airport in neighboring San Bernardino County. This airport is operated by Los Angeles World Airports, a proprietary department of the City of Los Angeles. Four major airlines schedule commercial flight service at Palm Springs Regional Airport. County-operated general aviation airports include those in Thermal, Hemet, Blythe and French Valley. The cities of Riverside, Corona, and Banning also operate general aviation airports. There is a military base at March Air Reserve Base, which converted from an active duty base to a reserve-only base on April 1, 1996. The March AFB Joint Powers Authority (the "JPA"), comprised of the County and the Cities of Riverside, Moreno Valley and Perris, is responsible for planning and developing joint military and civilian use. The JPA has constructed infrastructure improvements, entered into leases with private users and initialized a major business park project.

Education

There are four elementary school districts, one high school district, eighteen unified (K-12) school districts and four community college districts in the County. Ninety-five percent of all K-12 students attend schools in the unified school districts. The three largest unified school districts are Corona-Norco Unified School District, Riverside Unified School District and Moreno Valley Unified School District.

There are seven two-year community college campuses located in the communities of Riverside, Moreno Valley, Norco, San Jacinto, Menifee, Coachella Valley and Palo Verde Valley. There are also three universities located in the City of Riverside -- the University of California, Riverside, La Sierra University and California Baptist University.

Environmental Control Services

Water Supply. The County obtains a large part of its water supply from groundwater sources, with certain areas of the County, such as the City of Riverside, relying almost entirely on groundwater. As in most areas of Southern California, this groundwater source is not sufficient to meet countywide demand and the County's water supply is supplemented by imported water. At the present time, imported water is provided by Metropolitan Water District from the Colorado River via the Colorado River Aqueduct and the State Water Project via the Edmund G. Brown California Aqueduct. In the Southwest area of the County, 80% of the water supply is imported.

At the regional and local level, there are several water districts that were formed for the primary purpose of supplying supplemental water to the cities and agencies within their areas. The Coachella Valley Water District, the Western Municipal Water District and the Eastern Municipal Water District are the largest of these water districts in terms of area served. The San Geronio Pass Water Agency, Desert Water Agency, Palo Verde Irrigation District and Rancho California Water District also provide supplemental water to cities and agencies within the County.

The uncertainty associated with long-term water supply is a major concern of local and regional water agencies in California, especially southern California, which has been exacerbated due to the recent drought. The governor and the state legislature have been engaged in discussions to develop a comprehensive, state-wide water supply, storage and conveyance solution. However, no assurance can be made that a sustainable solution will be achieved within a reasonable timeframe.

Consequently, the Board of Supervisors adopted Ordinance 859.2 -Water Efficient Landscaping Ordinance, which conforms to AB 1881. AB 1881 requires that measures be taken to assure the maintenance and protection of natural resources (water) by requiring that the resources be conserved through the implementation of water efficient landscape practices for new developments. As an added measure, the Board of Supervisors amended Policy H-25 requiring the retrofit of public buildings to conform to the requirements of Ordinance 859.2.

Flood Control. Primary responsibility for planning and construction of flood control and drainage systems within the County is provided by the Riverside County Flood Control and Water Conservation District and the Coachella Valley Water District, Storm Water Unit.

Sewage. There are 18 wastewater treatment agencies in the County's Santa Ana River region and nine in the County's Colorado River Basin region. Most residents in rural areas of the County which are unsewered rely upon septic tanks and leach fields for sewage disposal.
