**C.E.O. RECOMMENDATION:** Approve.

**BACKGROUND:**

**Summary**

The PSEC sites are temperature controlled rooms and shelters. The air conditioning units run continually in most of the areas of the county to ensure the temperature meets the requirements of the radio system equipment. Because of this, the service on the air conditioning units must be performed more often than most commercial units. The units in the east end of the County endure higher temperatures and without proper servicing, break down more often than the sites on the west end of the County.

The air conditioning units on the west end of the County will be serviced every 3 months. The air conditioning units on the east end of the County will be serviced every other month, due to the heat and wind conditions.

**Impact on Residents and Businesses**

Approval of this contract will enable continued public safety communication operations for the safety of the residents and businesses in Riverside County.

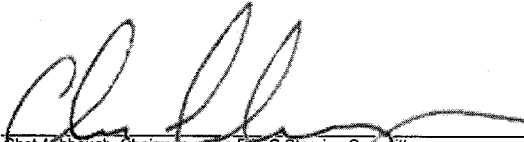

**SUPPLEMENTAL**

**Contract History and Price Reasonableness**

The Purchasing Department on behalf of RCIT issued a bid, Request for Quote (RFQ) PEARC-023, for Heating, Ventilation, Air Conditioning (HVAC) Maintenance & Repair. The bid was posted publically, eight companies received notification of the solicitation, four companies were attended the mandatory pre-bid meeting and three companies responded to the RFQ. Prices ranged from \$77,572 to \$157,292 annually for all site services. PSEC project managers reviewed the pricing and information provided by all bidders in response to the RFQ and determined Weatherite Corporation to be the lowest responsive responsible bidder for an inclusive award for services needed at all PSEC tower locations.

Repairs will be performed on an as needed basis. Weatherite provided the lowest labor rate for regular service hours (\$110) and the repair call-out fee (\$50) remains the same, regardless of request for an emergency response requiring a technician to be on-site within three hours or a normal call scheduled at the earliest agreed upon time.
