BACKGROUND:

Summary

The Riverside County Sheriff's Department is committed to finding alternatives to county jail incarceration. On May 17, 2013, the Riverside County Sheriff's Department entered into an agreement with the CDCR for the purpose of sending qualified inmates to work in the Fire Camp Program at fire camps within Riverside County. The Fire Camp Program is an innovative program partnership which provides educational and vocational programming to inmates, of which Riverside County was the first county partnership in the State of California.

During the latter part of 2014, CDCR amended their fee schedule for the program, and sent the Riverside County Sheriff's Department the proposed first amendment to the original 2013 agreement.

The first amendment to the agreement, approved by the Board of Supervisors on July 7, 2015 authorized no more than 200 inmates to be housed in the program at any one time, at a cost of \$81.00 per day for each inmate as they attend the 38 days of mandatory training, to be reduced to \$10.00 per day for housing upon completion of training. Housing costs from the original agreement was reduced from \$46.19 per day, while training costs remained the same. The maximum number of inmates authorized to participate in this program was not to exceed 500 during the duration of the new two-year agreement.

This second amendment extends the agreement two years: fiscal year 2017/2018 and fiscal year 2018/2019. This extension of the current agreement has no change in costs. The fee structure and a full 100% AB109 funding remain unchanged.

Impact on Residents and Businesses

Sending qualified inmates to the CDCR for the purposes of working the fire camp program will help to alleviate inmate population due to a lack of bed space while offering training in fire-fighting skills. The CDCR has also agreed to place County offenders in State fire camps located within Riverside County whenever possible to help the local community by clearing firebreaks, public road maintenance, park maintenance, sand bagging/flood protection, and clearing fallen trees and debris.
