BACKGROUND:

Summary (continued)

Riverside County Ordinance 695.4 established an on-going program to abate hazardous vegetation, while at the same time, protecting rare and sensitive plant and animal species and the environment. The purpose of the Hazard Reduction program is to reduce or eliminate fire hazards created by vegetative growth and the accumulation of combustible debris, which poses a danger to health, safety, and welfare of the residents in the vicinity of any real property. Fire Prevention Technicians annually inspect unimproved parcels within the unincorporated areas of the County of Riverside, as defined by Riverside County Ordinance 695.4. Once all inspections are completed, an "Order to Abate" was sent to each owner of record. The order advised the parcel owner of their obligation to have the parcel in compliance within thirty days from the date of notice. Upon re-inspection, the Riverside County Hazard Reduction program turned over any parcel, found to be non-compliant, to the County Contractors for abatement. At the conclusion of the abatement, a bill was issued to the parcel owner of record. If not paid, then the County has the ability to recover abatement costs by assessing real property. This assessment incorporates the contractor's costs and the County administrative fee of \$254.00. The properties that are subject to this assessment are attached as Attachment "A" to the resolution. The Board of Supervisors, in the meeting on June 13, 2017, gave approval to set a public hearing for the adoption of Resolution No. 2017-101, confirming special assessments for the cost of abating hazardous weeds. Upon the closing of this public hearing on July 11, 2017 the special assessments and liens are confirmed.

Impact on Citizens and Businesses

The Hazard Reduction program is designed to protect life, property and the environment. Voluntary compliance is the primary goal for the program. The owner of record, for each parcel, is provided the opportunity to abate the property prior to the County conducting the abatement. The owner also has an opportunity to reimburse the County the cost of abatement prior to the lien process being initiated. The adoption of Resolution No. 2017-101 in the public hearing on July 11, 2017 of the list of those parcels not in compliance and subject to the abatement fee is the final step required under the Health and Safety Code Section 14910 and County Ordinance 695.4 to establish assessments and liens on those parcels.

SUPPLEMENTAL:

Additional Fiscal Information

The abatement charges for any work performed by the contactor and the County administrative fee will be included in the property owner's property tax statement as a special assessment. The Board of Supervisors approved the administrative fee of \$254.00 by Resolution No. 2011-080 with a public hearing on June 28, 2011. The current total parcels are 402, and the total amount to be assessed is \$153,102. The assessments will reimburse the department costs, which are funded by the General Fund

BACKGROUND:

Summary

Riverside County Ordinance 695.4 established an on-going program to abate hazardous vegetation, while at the same time, protecting rare and sensitive plant and animal species and the environment. The purpose of the Hazard Reduction program is to reduce or eliminate fire hazards created by vegetative growth and the accumulation of combustible debris, which poses a danger to the health, safety and welfare of the residents in the vicinity of any real property. Fire Prevention Technicians annually inspect unimproved parcels within the unincorporated areas of the County of Riverside, as defined by Riverside County Ordinance 695.4.

Once inspections are completed, an "Order to Abate" is sent to each owner of record. The order advises the parcel owner of their obligation to comply within thirty days from the date of notice. Upon re-inspection, the Riverside County Hazard Reduction program turns over any parcel, found to be non-compliant, to the County Contractors for abatement. At the conclusion of the abatement, a bill is issued to the parcel owner of record, in order to reimburse the county for the expense of abatement, along with an administrative fee of \$254.00. This administrative fee was approved by the Board of Supervisors by Resolution No. 2011-080 with a public hearing on June 28, 2011. If not paid, then the county has the ability to recover abatement costs by assessing real property. This assessment incorporates the contractor's costs and the administrative fee. The County is then able to recover costs through the property tax process.

The properties that are subject to this assessment are attached as Attachment "A" to the resolution. The resolution and exhibit will also be included in the presentation for the public hearing on July 11, 2017. The adoption of Resolution 2017-101 in the public hearing on July 11, 2017 of the list of those parcels not in compliance and subject to the abatement fee is the final step required under the Health and Safety Code Section 14910 and County Ordinance 695.4 to establish assessments and liens on those parcels.

Impact on Residents and Businesses

The Hazard Reduction program is designed to protect life, property and the environment. Voluntary compliance is the primary goal for the program. Each parcel owner is provided the opportunity to abate the property prior to the county conducting the abatement. The owner also

has an opportunity to reimburse the county the cost of abatement prior to the lien process being initiated.

SUPPLEMENTAL

Additional Fiscal Information

The abatement charges for any work performed by the contractor and the county administrative fee will be included in the property owner's property tax statement as a special assessment. The Board of Supervisors approved the administrative fee of \$254.00 by Resolution No. 2011-080 with a public hearing on June 28, 2011. The fee has not increased since 2011. The current total parcels are 344 and the total amount to be assessed is \$153,102. The assessments will reimburse the department costs, which are funded by the General Fund.
