C.E.O. RECOMMENDATION: Approve

BACKGROUND:

Summary

The Riverside County Fire Department is eliminating one (1) fire engine and one (1) utility truck from their fleet. The Department is requesting to donate the vehicles to Ehrenberg Fire District. The Fire Department received a donation request from Ehrenberg Fire District to replace their outdated equipment. In addition, Ehrenberg Fire District provides mutual aid to Riverside County/CAL-Fire, Colorado River Indian Reservation (CRIT) and Quartzsite Fire District. The Riverside County Fire Department proposes to donate the following:

1994 Type I Fire Engine	License No. 018530	VIN No. 4ENRAAA83R1004114
2008 Ford Utility Truck	License No. 1198966	VIN No. 1FTSX21588EB86508

Impact on Residents and Businesses

There is no impact to the citizens or businesses.

Contract History and Price Reasonableness

The fire engine and utility truck have served its useful life and are fully depreciated. They are not being utilized by the Department and have been designated for County auction. The cost of maintenance and transfer of the one (1) fire engine and the one (1) utility truck will be the responsibility of Ehrenberg Fire District.

Chief Hawkins
c/o Riverside County Fire
210 W San Jacinto Ave
Perris CA 92570

I was referred to you in regards to equipment your agency is replacing.

I am the Chief of Ehrenberg Fire District in Ehrenberg Arizona. Our district encompasses an area from the Colorado River Indian Reservation to the North and East Boundaries, Colorado River for the West Boundary and 7 miles South of I-10 for the South Boundary. We also cover 10 miles of Interstate 10.

Our response area is predominately rural with harsh desert terrain and the recreation activity areas on the river.

We mutual aid with Riverside County/CAL-FIRE, Colorado River Indian Reservation (CRIT) and Quartzsite Fire District. We are proud to say we have responded for mutual aid with your agency. It has also been great honor to have participated in multiple training sessions with your agency that has greatly helped our effectiveness to assist your agency.

Our population is approximately 1900 permanent residences. We do however have a rather large increase in population during the summer weekends and the winter months with visitors residing within our district.

Our department has a small budget and due to our aging fleet, we are in dire need of equipment to update our fleet. We are interested in equipment your agency is removing from service.

Equipment that we are in need of includes 3/4 or 1 ton 4 X 4 pickups to replace/update our Type 6 unites, any wildland pump units if available and Type 1 or Type 3 engine(s) to have a reliable continuity of services with our current primary equipment and mutual aid abilities.

We would be grateful for any equipment we could obtain to help replace our outdated equipment.
