**C.E.O. RECOMMENDATION:** Approve

**BACKGROUND:**

**Summary**

Tentative Tract Map No. 30852 was originally approved at Planning Commission on September 3, 2008.

The County Planning Department, as part of the review of this Extension of Time request, recommends the addition of seven (7) new conditions of approval, in order to be able to make a determination that the project does not adversely affect the general health, safety, and welfare of the public.

The applicant was informed of these recommended conditions and has agreed to accept them.

The Tentative Tract Map also benefited from Senate Bill No. 1185 (SB1185), Assembly Bill No. 333 (AB333), Assembly Bill No. 208 (AB208), and Assembly Bill No. 116 (AB116), which granted statutory extensions of time for tentative maps statewide.

The Planning Commission heard the first extension of time for Tentative Tract Map No. 30852 on July 19, 2017. The Planning Commission approved the project by a 5-0 vote.

**Board Action**

The Planning Commission's decision is final and no action by the Board of Supervisors is required unless the applicant or an interested person files a complete appeal application within 10 days of this notice appearing on the Board's agenda.

**Impact on Citizens and Businesses**

The impacts of this project have been evaluated through the environmental review and public hearing process by the Planning Department and the Planning Commission.

**Supplemental  
Additional Fiscal Information**

All fees are paid by the applicant. There is no General Fund obligation.

Tract Map 30852 Agenda Item 4. 4922

Gavilan Hills

August 28, 2017

Another nightmare Community of 1 acre homes spreading through out Gavilan Hills and Lake Matthews. How could I-15 EVER absorb another 250 x 10 approximately 2,500 car and truck trips descending on the freeway daily. The new freeway interchange isn't absorbing the new house and apartments that the County and Corona and Elsinore have already passed. It is still a parking lot on the way to Orange County.

This is an extension of time for one of the last Orange Groove farms in Riverside County. In light of climate change how will be assured that there is a yearly temperature conducive of producing oranges or any foods when the heat is changing the ocean and sending weather fronts to the East Coast thus Hurricane HARVEY THE LIKES OF NOT SEEN IN Houston. We have a problem Houston! We have produced too much heat out of California from over development and we need to stop the time extensions and stop the projects.

We opposed this project on an Old Ranch when it came thru the Board the first time and now we oppose its extension of time. Mitzland Development doesn't want to be known as a contributor to over heating the Planet and causing more weather change, do they? This is an encroachment on the Rural Mountainous Areas of Gavilan Hills and another gentrification of Perris, Meade, Lake Matthews Agricultural and wildlife habitation areas.

The project is capable of contributing to the CO2 Hot Spots in the 2003 Los Angeles Hot Spot study because it flows onto I-15 which connects to the 23<sup>rd</sup> worst bottle necked freeway in the USA.

This Mitzland development can either return it to its former glory as a working orange farm or turn it over to riverside habitat conservation for the same purpose and the Mitzland can write it off their taxes.

FIRST EXTENSION OF TIME  
Applicant: Mitzman Land Development Inc.  
c/o Howard Mitzman

Charissa Leach, P.E.  
Assistant TLMA Director

## COUNTY OF RIVERSIDE PLANNING DEPARTMENT EXTENSION OF TIME STAFF REPORT

The applicant of the subject case has requested an extension of time to allow for the recordation of the final map to subdivide 414.22 gross acres into 249 residential lots with a minimum lot size of 1 gross acre on 348.5 gross acres, 7 Open Space lots with a minimum lot size of .25 acres on 58.54 gross acres, and 4 detention basins with a minimum lot size of 0.70 acres on 3.89 gross acres.

Unless specifically requested by the applicant, this request will not be discussed at the time it is presented to the Planning Commission as a consent calendar item.

CEQA: The subject case has conformed to the requirements of the California Environmental Quality Act, and all impacts have been analyzed in order to protect the public health, safety and welfare. No new environmental documentation is required prior to the extension of time.

GENERAL PLAN: Unless otherwise noted, the subject case had been determined to be consistent with the General Plan and all of its elements.

### **REQUEST:**

**FIRST EXTENSION OF TIME REQUEST for TENTATIVE TRACT MAP NO. 30852**

### **BACKGROUND:**

Tentative Tract Map No. 30852 was originally approved at Planning Commission on September 3, 2008.

The County Planning Department, as part of the review of this Extension of Time request, recommends the addition of seven (7) new conditions of approval, in order to be able to make a determination that the project does not adversely affect the general health, safety, and welfare of the public.

---

The applicant was informed of these recommended conditions and has agreed to accept them. Included in this staff report package are the recommended conditions of approval, and the correspondence from the Extension of Time applicant June 14, 2017 indicating the acceptance of the seven (7) recommended conditions.

**FURTHER PLANNING CONSIDERATIONS:**

**EFFECT OF Senate Bill No. 1185 (SB1185):** On July 15, 2008, AB208 was signed into law, which grants a one-time extension of existing subdivision maps so developers can build immediately when the demand for housing goes up. It gives developers an automatic 12 month extension on previously approved subdivision maps set to expire between July 15, 2008 and January 1, 2011.

**EFFECT OF Assembly Bill No. 333 (AB333):** On July 15, 2009, AB333 was signed into law, which grants a one-time extension of existing subdivision maps so developers can build immediately when the demand for housing goes up. It gives developers an automatic 24 month extension on previously approved subdivision maps set to expire between July 15, 2009 and January 1, 2012.

**EFFECT OF Assembly Bill No. 208 (AB208):** On July 13, 2011, AB208 was signed into law, which grants a one-time extension of existing subdivision maps so developers can build immediately when the demand for housing goes up. It gives developers an automatic 24 month extension on previously approved subdivision maps set to expire between July 13, 2011 and January 1, 2014.

**EFFECT OF Assembly Bill No. 116 (AB116):** On July 11, 2013, AB116 was signed into law, which grants a one-time extension of existing subdivision maps so developers can build immediately when the demand for housing goes up. It gives developers an automatic 24 month extension on previously approved subdivision maps set to expire between January 1, 2000 and July 11, 2013.

Therefore, upon an approval action by the Planning Commission, subsequent receive and file action by the Board of Supervisors, and the conclusion of the 10-day appeal period, the tentative map's expiration date will become September 3, 2018. If a final map has not been recorded prior this date, a second extension of time request must be filed 180 days prior to map expiration.

**RECOMMENDATION:**

**APPROVAL of the FIRST EXTENSION OF TIME REQUEST for TENTATIVE TRACT MAP NO. 30852** extending the expiration date and to reflect SB1185, AB333, AB208, and AB116 benefits to September 3, 2018, subject to all the previously approved and amended Conditions of Approval with the applicant's consent.

# Extension of Time Environmental Determination

Project Case Number: TR30852  
Original E.A. Number: EA 39293  
Extension of Time No.: First  
Original Approval Date: September 3, 2008  
Project Location: North of Dawson Canyon Road, South of Arcaro Drive, West of Gavilan Springs Ranch.

Project Description: Subdivision of 414.22 gross acres into 249 residential lots with a minimum lot size of 1 gross acre on 348.5 gross acres, 7 Open Space lots with a minimum lot size of .25 acres on 58.54 gross acres, and 4 detention basins with a minimum lot size of 0.70 acres on 3.89 gross acres.

On September 3, 2008, this Tentative Tract Map and its original environmental assessment/ environmental impact report was reviewed to determine: 1) whether any significant or potentially significant changes in the original proposal have occurred; 2) whether its environmental conditions or circumstances affecting the proposed development have changed. As a result of this evaluation, the following determination has been made:

<input type="checkbox"/>	I find that although the proposed project could have a significant effect on the environment, <b>NO NEW ENVIRONMENTAL DOCUMENTATION IS REQUIRED PRIOR TO APPROVAL OF THE EXTENSION OF TIME</b> , because all potentially significant effects (a) have been adequately analyzed in an earlier EIR or Negative Declaration pursuant to applicable legal standards and (b) have been avoided or mitigated pursuant to that earlier EIR or Negative Declaration and the project's original conditions of approval.
<input checked="" type="checkbox"/>	I find that although the proposed project could have a significant effect on the environment, and there are one or more potentially significant environmental changes or other changes to the circumstances under which the project is undertaken, <b>NO NEW ENVIRONMENTAL DOCUMENTATION IS REQUIRED PRIOR TO APPROVAL OF THE EXTENSION OF TIME</b> , because all potentially significant effects (a) have been adequately analyzed in an earlier EIR or Negative Declaration pursuant to applicable legal standards and (b) have been avoided or mitigated pursuant to that earlier EIR or Negative Declaration and revisions to the project's original conditions of approval which have been made and agreed to by the project proponent.
<input type="checkbox"/>	I find that there are one or more potentially significant environmental changes or other changes to the circumstances under which the project is undertaken, which the project's original conditions of approval may not address, and for which additional required mitigation measures and/or conditions of approval cannot be determined at this time. Therefore, <b>AN ENVIRONMENTAL ASSESSMENT/INITIAL STUDY IS REQUIRED</b> in order to determine what additional mitigation measures and/or conditions of approval, if any, may be needed, and whether or not at least one of the conditions described in California Code of Regulations, Section 15162 (necessitating a Supplemental or Subsequent E.I.R.) exist. Additionally, the environmental assessment/initial study shall be used to determine <b>WHETHER OR NOT THE EXTENSION OF TIME SHOULD BE RECOMMENDED FOR APPROVAL</b> .
<input type="checkbox"/>	I find that the original project was determined to be exempt from CEQA, and the proposed project will not have a significant effect on the environment, therefore <b>NO NEW ENVIRONMENTAL DOCUMENTATION IS REQUIRED PRIOR TO APPROVAL OF THE EXTENSION OF TIME</b> .

RE: FIRST EXTENSION OF TIME REQUEST for TENTATIVE TRACT MAP No. 30852

The County Planning Department has determined it necessary to recommend the addition of seven (7) new conditions of approval in order to be able to make a determination that the project does not adversely affect the general health, safety and welfare of the public.

Please review the proposed conditions of approval attached in this correspondence. If these conditions are acceptable, then submit a short written letter/memo/email that clearly references this case, the acceptance of each condition by name and number, and clearly state that you, the Extension of Time Applicant, accept these conditions. This documentation will then be included in the staff report package. The attached document is a copy of the recommended conditions which are identified as follows:

- 50. E HEALTH. 5
- 50. TRANS. 44
- 60. BS GRADE. 14
- 60. TRANS. 1
- 80. TRANS. 1
- 90. BS GRADE. 3
- 90. TRANS. 9

If the addition of the conditions is not acceptable, please notify me so we can discuss your concerns. If the issue cannot be resolved, then I will direct you to contact the individual Department representative to discuss this matter further.

Once the conditions have been accepted, I will begin preparing the staff report package for a Planning Commission hearing as a consent item. County Ordinance requires that conditions added through the extension of time process are presented to and accepted by the applicant. If you, the EOT applicant, is unable to accept these conditions, the Planning Department will recommend denial of this extension of time request. An opportunity will, if requested, be provided for arguments to be made to the hearing body justifying why this request should be approved without the recommended conditions of approval.

I am eager to move this case forward and continue the extension of time process. If you have not contacted me within thirty (30) days, I will begin preparing this case with a recommendation of denial. I need one of two items to proceed:

- 1) Correspondence from you, the EOT applicant, accepting the recommended conditions per the directions provided above; or,
- 2) Correspondence from you, the EOT applicant, advising me of the concerns with the recommended conditions. If the concern still exists after our discussion, then direction on how to approach the issue will be given and additional time will be provided until the issue is resolved.

If you have any questions, comments, or concerns regarding this email, please feel free to contact me as indicated below.
