BACKGROUND:

Summary

The Office on Aging (OoA) was awarded a grant from the Regional Access Project (RAP) Foundation, accepted by the Board of Supervisors on September 30, 2014, Agenda number 3.16. The OoA has sponsored a Volunteer Program, RSVP, in the Coachella Valley for twenty (20) years. The RSVP Coachella Valley Volunteer Program is a federal program with a forty-three (43) year history in the Coachella Valley. The grant funding awarded to the OoA contributes to the Desert Volunteer Connect Program coordination of volunteer programs in the Coachella Valley area. Since this coordination effort began, it has been successful in identifying agencies who benefit by the use of volunteers and ensuring there are enough volunteers to meet the volunteer opportunities in the Coachella Valley area.

The implementation of the Desert Volunteer Connect Program coordinated effort was delayed, which resulted in available funding to be utilized for the extended period. The RAP Foundation is extending the period of performance by six (6) months, with expiration date of March 31, 2018, to ensure all funding is exhausted for the coordination of volunteer programs in the Coachella Valley area.

Impact on Residents and Businesses

The impact on the citizens of the Coachella Valley is positive. Research outcomes have proven that engagement activities such as volunteering are an important element in the overall health and wellness of older adults. Older adults are most likely to experience increased physical and mental health benefits from their volunteer activities. Those who volunteer have lower mortality rates and greater function ability, and lower rates of depression later in life than those who do not volunteer. Volunteering allows seniors to remain vital, connected and engaged in their communities, which will alleviate the need for elevated spending in entitlement programs and community and social services in the future.
