BACKGROUND:

Summary

In November 2016, California voters approved the passage of Proposition 56, the California Healthcare, Research and Prevention Tobacco Tax Act of 2016 (Prop 56). This new funding will be used to fund the Local Oral Health Program which will improve the oral health of Riverside County residents by addressing the promotion of healthy habits and population based prevention interventions. Communication strategies will be developed and implemented to inform and educate the public about oral health information. Community-clinical linkages will be developed to increase utilization of dental services. Public health will collaborate with dental providers, health care systems, professional organizations, and educational institutions to expand the capacity to support prevention and early treatment services. A surveillance system will be developed to measure key indicators of oral health and key performance measures for tracking program progress. A key priority will be to identify and address underserved areas and populations.

This new funding will require the addition of three new Health Education Assistant II (HEA II) positions, which will develop oral health educational materials and/or educational sessions for community partners. They will participate in the assessment of eligible children and facilitate referrals for oral health preventive services. The HEA's will also conduct regional water district engineer/operator training on the safety and benefits of fluoridation and the important role water engineers/operators have in preventing dental disease. Additionally, they will create materials on fluoridation in order to meet community literacy levels/languages/cultures.

Impact on Citizens and Businesses

This funding will allow Riverside County Department of Public Health to provide oral health education and intervention programs to minimize the incidence of dental disease.

SUPPLEMENTAL:

Additional Fiscal Information

The awarded amount of \$3,629,565 will be distributed as indicated below. The allocation amount for fiscal year 17/18 is \$725,913. The performance period commenced January 1, 2018; however, the amount requested for budget adjustment is \$383,309 due to late ramp up.

**Narrative Summary Form
Riverside County Public Health**

Riverside County is the fourth largest county in California spanning more than 7,200 square miles with 28 cities and numerous rural, unincorporated areas. The County is the same size as the State of New Jersey and is situated between Los Angeles and San Diego counties. The geography is mostly desert in the central and eastern portions of the county. The western portion of the county has a Mediterranean climate. The County has experienced a 44% increase in population over the past decade and is the tenth most populous county in the nation. Riverside County is home to a racially and ethnically diverse population of 2.3 million people. More than 55% of the population identifies themselves as non-white. Riverside County has a high incidence of poverty. The median household income is \$56,592; 39.2% of residents and 49.6% of children under the age of 18 are below 200% FPL.

In general, Riverside County's health fares rather poorly compared to other counties in California. The County Health Rankings puts Riverside County in 28th place out of 57 counties in the State for health outcomes and 40th for health factors. The ratio of the population to dentists is 2,020:1 much higher than neighboring San Bernardino with a ratio of 1,500:1.

The UCLA California Health Interview Survey from 2015 indicates that 22.6% of Riverside county children ages 2-11 have never been to the dentist and only 71.2% of children in this age range have been seen by the dentist in the past 12 months.

The Riverside University Health System-Public Health (RUHS-PH) was established in 1926. The goal of RUHS-PH is to ensure the health and well-being of county residents and visitors. The Riverside County Community Health Improvement Plan 2016-2021 currently includes oral health in two priority areas:

Priority Area 2: Promoting Healthy Behavior

- Bring more services to schools and communities such as mobile dental clinics, events, health fairs, and school clinics.
- Increase dental health care screening by using resources like virtual dental home.

Priority Area 4: Improving Access to Care

- Increase mobile/dental health clinics in elementary schools.

Although Riverside County does not currently have an oral health plan in place our county was a participant in the California Children's Dental Disease Prevention Program (CCDDPP) school-based prevention program from its initial inception in 1980 through 2007. The program was closed in 2007 due to the ongoing budget deficits at the State as well as significant fiscal pressures at the local level. Riverside County was not able to continue funding its school-based oral health program and the program ceased operation in June 2007; passing their grant award over to the local community college to

finish out the grant cycle. A variety of community-based organizations, health foundations, and non-profits and have stepped forward since that time with varying degrees of success to try to fill the gap.

Earlier this year the Department of Health Care Services announced that the two-county region of Riverside and San Bernardino was to receive 13.7 million dollars over the next 3.5 years as part of the Dental Transformation Initiative; Local Dental Pilot Project- Inland Empire (LDPP-IE). The LDPP-IE will implement the Virtual Dental Home to increase access to care for Medi-Cal children. The region will also pilot a risk-based intervention for use by home visitors and community health workers the Early Childhood Oral Health Assessment. It is the intention of the pilot that these two strategies will lead to systems change and help to address the oral health needs of vulnerable and underserved communities within the jurisdiction.

The Riverside County Child Health and Disability Prevention (CHDP) program began providing fluoride varnish application training workshops for primary care physicians and their staff in March of this year. So far, 20 providers have received the training and extra sessions of this workshop have been added to the schedule to meet the growing demand for this training. The CHDP general overview workshops continue to stress the importance of oral health and the establishment of a dental home for CHDP eligible children. The staff continues to provide care coordination activities for referrals for routine and urgent dental care for these children as well. The CHDP Public Health Nurses review physician records during routine audits to ensure that all providers are meeting their obligation to provide families with oral health information at each appointment and to refer children for oral health/dental services.

Our vision of the Local Oral Health Program in Riverside County is to identify gaps in access to oral health care for children and adults, including those with special needs. We intend to partner with the team carrying out the Inland Empire Regional Dental Transformation Initiative and our public health programs including: CHDP, Nutrition Services, MCAH, and CCS to avoid duplication of services and to identify and address remaining gaps in services for the targeted populations.

**Scope of Work and Deliverables
FY 2017-2022**

GOAL: The California Department of Public Health, Oral Health Program (CDPH/OHP) shall grant funds to Local Health Jurisdictions (LHJ) from Proposition 56, the California Healthcare, Research and Prevention Tobacco Tax Act of 2016 (Prop 56) for the purpose and goal of educating about oral health, dental disease prevention, and linkage to treatment of dental disease including dental disease caused by the use of cigarettes and other tobacco products. LHJs are encouraged to implement the strategies recommended in the California Oral Health Plan and shall establish or expand upon existing Local Oral Health Programs (LOHP) to include the following program activities related to oral health in their communities: education, dental disease prevention, linkage to treatment, surveillance, and case management. These activities will improve the oral health of Californians.

Objectives 1-5 below represent public health best practices for planning and establishing new LOHPs. LHJs are required to complete these preliminary Objectives before implementing Objectives 6-11 outlined below. LHJs that have completed these planning activities may submit documentation in support of their accomplishments. Please review the LOHP Guidelines for information regarding the required documentation that must be submitted to CDPH OHP for approval.

Objective 1: Build capacity and engage community stakeholders to provide qualified professional expertise in dental public health for program direction, coordination, and collaboration.

Create a staffing pattern and engage community stakeholders to increase the capacity to achieve large-scale improvements in strategies that support evidence-based interventions, health system interventions, community-clinical linkages, and disease surveillance and evaluation. At a minimum an Oral Health Program Coordinator position should be developed to coordinate the LOHP efforts. Recruit and engage key stakeholders to form an Advisory Committee or task force. Convene and schedule meetings, identify goals and objectives, and establish communication methods. This group can leverage individual members' expertise and connections to achieve measurable improvements in oral health.

Objective 2: Assess and monitor social and other determinants of health, health status, health needs, and health care services available to California communities, with a special focus on underserved areas and vulnerable population groups.

Identify partners and form a workgroup to conduct an environmental scan to gather data, create an inventory of resources, and plan a needs assessment. Conduct a needs assessment to determine the need for primary data, identify resources and methods, and develop a work plan to collect missing data. Collect, organize, and analyze data. Prioritize needs assessment issues and findings, and use for program planning, advocacy, and education. Prepare a report and publish widely.

Objective 3: Identify assets and resources that will help to address the oral health needs of the community with an emphasis on underserved areas and vulnerable population groups within the jurisdiction.

**Scope of Work and Deliverables
FY 2017-2022**

Take an inventory of the jurisdiction's communities to identify associations, organizations, institutions and non-traditional partners to provide a comprehensive picture of the LHJ. Conduct key informant interviews, focus groups, and/or surveys, create a map, and publish the assets identified on your website or newsletter.

Objective 4: Develop a Community Health Improvement Plan (CHIP) and an action plan to address oral health needs of underserved areas and vulnerable population groups for the implementation phase to achieve local and state oral health objectives.

Identify a key staff person or consultant to guide the community oral health improvement plan process, including a timeline, objectives, and strategies to achieve the California Oral Health Plan. Recruit stakeholders, community gatekeepers, and non-traditional partners identified in the asset mapping process and members of the AC to participate in a workgroup to develop the CHIP and the Action Plan. The Action Plan will a timeline to address and implement priority objectives and strategies identified in the CHIP. The workgroup will identify the "who, what, where, when, how long, resources, and communication" aspects of the Action Plan.

Objective 5: Develop an Evaluation Plan that will be used to monitor and assess the progress and success of the Local Oral Health Program.

Participate with the CDPH OHP to engage stakeholders in the Evaluation Plan process, including those involved, those affected, and the primary intended users. Describe the program using a Logic Model, and document the purpose, intended users, evaluation questions and methodology, and timeline for the evaluation. Gather and analyze credible evidence to document the indicators, sources, quality, quantity, and logistics. Justify the conclusions by documenting the standards, analyses, interpretation, and recommendations. Ensure that the Evaluation Plan is used and shared.

Objective 6: Implement evidence-based programs to achieve California Oral Health Plan objectives.

To accomplish this Objective, LHJs can choose evidence-based or best practice strategies such as, but not limited to increase the number of low-income schools with a school-based or school-linked dental program; increase the number of children in grades K-6 receiving fluoride supplements, such as fluoride rinse, fluoride varnish, or fluoride tablets; increase the number of children in grades K-6 receiving dental sealants and increase or maintain the percent of the population receiving community fluoridated water.

Objective 7: Work with partners to promote oral health by developing and implementing prevention and healthcare policies and guidelines for programs, health care providers, and institutional settings (e.g., schools) including integration of oral health care and overall health care.

To accomplish this Objective, LHJs can choose evidence-based or best practice strategies

**Scope of Work and Deliverables
FY 2017-2022**

such as, but not limited to: convene partners (e.g., First 5, Early Head Start/Head Start, Maternal Child and Adolescent Health (MCAH), Child Health and Disability Prevention (CHDP), Black Infant Health (BIH), Denti-Cal, Women, Infant and Children (WIC), Home Visiting, schools, community-based organizations, etc.) to improve the oral health of 0-6 year old children by identifying facilitators for care, barriers to care, and gaps to be addressed; and/or increase the number of schools implementing the kindergarten oral health assessment by assessing the number of schools currently not reporting the assessments to the System for California Oral Health Reporting (SCOHR), identifying target schools for intervention, providing guidance to schools, and assessing progress.

Objective 8: Address common risk factors for preventable oral and chronic diseases, including tobacco and sugar consumption, and promote protective factors that will reduce disease burden.

To accomplish this Objective, LHJs can choose evidence-based or best practice strategies such as, but not limited to: increase the number of dental offices providing tobacco cessation counseling; and/or increase the number of dental office utilizing Rethink Your Drink materials and resources to guide clients toward drinking water, especially tap water, instead of sugar-sweetened beverages.

Objective 9: Coordinate outreach programs, implement education and health literacy campaigns, and promote integration of oral health and primary care.

To accomplish this Objective, LHJs can choose evidence-based or best practice strategies such as, but not limited to: increase the number of dental offices, primary care offices, and community-based organizations (CBO) (e.g., Early Head Start/Head Start, WIC, Home Visiting, BIH, CHDP, Community Health Worker/Promotora programs, etc.) using the American Academy of Pediatrics' Brush, Book, Bed (BBB) implementation guide; and/or increase the number of dental offices, primary care clinics, and CBOs using the Oral Health Literacy implementation guide to enhance communication in dental/medical offices; and/or increase the number CBOs that incorporate oral health education and referrals into routine business activities.

**Scope of Work and Deliverables
FY 2017-2022**

Objective 10: Assess, support, and assure establishment and improvement of effective oral healthcare delivery and care coordination systems and resources, including workforce development and collaborations to serve vulnerable and underserved populations by integrating oral health care and overall health care.

To accomplish this Objective, LHJs can choose evidence-based or best practice strategies such as, but not limited to: regularly convene and lead a jurisdiction-wide Community of Practice comprised of Managed Care Plans, Federally Qualified Health Centers, CBOs, and/or Dental Offices focused on implementing the Agency for Health Care Research and Quality's Design Guide for Implementing Warm Handoffs in Primary Care Settings or the ; and/or identifying a staff person or consultant to facilitate quality improvement coaching to jurisdiction-wide Community of Practice members focused on increasing the number of at-risk persons who are seen in both a medical and dental office; and/or improve the operationalization of an existing policy or guideline, such as the increasing the number of infants who are seen by a dentist by age 1; and/or promote effectiveness of best practices at statewide and national quality improvement conferences.

Objective 11: Create or expand existing local oral health networks to achieve oral health improvements through policy, financing, education, dental care, and community engagement strategies.

To accomplish this Objective, LHJs can choose evidence-based or best practice strategies such as, but not limited to: create a new (or expand an existing) Oral Health Network, Coalition, or Partnership by identifying key groups and organizations; planning and holding meetings; defining issues and problems; creating a common vision and shared values; and developing and implementing an Action Plan that will result in oral health improvements. LHJs are also encouraged, where possible, to collaborate with local Dental Transformation Initiative (DTI) Local Dental Pilot Projects to convene stakeholders and partners in innovative ways to leverage and expand upon the existing momentum towards improving oral health. LHJs that are currently implementing local DTI projects should develop complementary, supportive, but not duplicative activities.

**Scope of Work and Deliverables
FY 2017-2022**

DELIVERABLES/OUTCOME MEASURES: LHJs are encouraged to implement the strategies recommended in the California Oral Health Plan. Funds are made available through Prop 56 to achieve these deliverables. The activities may include convening, coordination, and collaboration to support planning, disease prevention, education, surveillance, and linkage to treatment programs. To ensure that CDPH fulfills the Prop 56 requirements, LHJs are responsible for meeting the assurances and the following checked deliverables. Deliverables not met will result in a corrective action plan and/or denial or reduction in future Prop 56 funding.

Director and State Public Health Officer

State of California—Health and Human Services Agency
California Department of Public Health

EDMUND G. BROWN JR.
Governor

September 27, 2017

Dear California Local Health Officer:

NOTIFICATION OF INTENT TO SUPPORT LOCAL ORAL HEALTH PROGRAMS

This letter provides notification of the intent to award funds to local health departments or jurisdictions (LHJs) through Proposition 56, The California Healthcare, Research and Prevention Tobacco Tax Act of 2016 (Prop 56), pending approval of the State Budget for Fiscal Year 2017/18. The California Department of Public Health (CDPH), Oral Health Program (OHP) has a unique opportunity to build capacity at the local level to address oral health which is essential for overall health. Tooth decay is the number one chronic disease of childhood.

The purpose of this award is to support the proposed California Oral Health Plan activities. We are confident that the LHJs, in collaboration with the CDPH/OHP, will strive to achieve improvements in oral health and accomplish the state oral health objectives within their jurisdictions. The activities should address problems identified by LHJ needs assessments and reflect the California Oral Health Plan priorities.

The activities in Year 1 may be focused on planning for implementation of interventions in subsequent years. The planning exercise should lead to a three year action plan. Smaller counties may choose to form a consortium with other LHJs and pool resources to implement local oral health programs. LHJs that prefer a resource pool approach should notify CDPH. Based on the interest expressed by local First 5 Commissions and local Child Health and Disability Prevention Programs, LHJs are strongly encouraged to collaborate with them in developing a local oral health program.

We anticipate that approximately \$18 million will be available for distribution. Award amounts to LHJs will vary and be determined by the estimated low income population based on the United States Department of Agriculture Economic Research Service estimate of county poverty rate (<https://data.ers.usda.gov/reports.aspx?ID=17826>).

It is anticipated that awards will be for a term of three years with an option to extend for two additional years. CDPH will provide program guidance regarding requirements,

Current State Employees (Pub. Contract Code §10410):
