**BACKGROUND:**

**Summary**

The State Legislature enacted the County Service Area Law to provide broad statutory authority for county boards of supervisors to use County Service Areas (CSA) as a method to finance and provide needed public facilities and services within unincorporated areas of the county. Every fiscal year, in conjunction with the Board's consideration of the budget for the County of Riverside, the Board of Supervisors determines the nature, extent and cost of the services to be provided in each CSA, based on a report of the same prepared by the Economic Development Agency (EDA).

Pursuant to Riverside County Ordinance No. 573 and Government Code 25215 et seq., the proposed fiscal year 2018-2019 charges are attached as Exhibit A. County Service Areas provide municipal services to residential neighborhoods such as landscape maintenance, street lighting, street sweeping and road maintenance. The services each community receives are determined during the planning phase of new development. The cost associated with providing enhanced services are unique to each community. All new residential development is required to prepare an engineer's report that includes an annual adjustment by the greater of two percent or the cumulative percentage increase in the Consumer Price Index for all Urban Consumers (CPI-U) as it stands on March of 2018, and were increased accordingly.

**Impact on Residents and Businesses**

County Service Areas allow communities in unincorporated areas to pay for and receive specific municipal services. These services are unique to each community and enhance the quality of life.
