BACKGROUND:

Summary (continued)

The 2017 DOE WAP Standard Agreement No. 17C-4019, in the amount of \$303,402, brings federal funding to the County of Riverside for the term June 1, 2018 through May 31, 2019. Community Action Partnership uses DOE WAP funding to assist low-income consumers in repairing or replacing heating, cooling, and water heater appliances in an effort to correct health and safety concerns; replaces refrigerators, doors, windows, provides weather-stripping, and performs other weatherization measures that contribute to lowering energy consumption.

Impact on Citizens and Businesses

The DOE WAP provides installation of energy conservation measures designed to reduce energy costs and positively contribute to the overall health and safety of low-income households. The DOE WAP also provides business opportunities through the employment of local sub-contractors to complete weatherization installations. Citizens of Riverside County benefit from reduced carbon emissions as a direct result of the repair and replacement of inefficient or malfunctioning appliances, warm-air heating, ventilation and air conditioning systems provided by the DOE WAP.

SUPPLEMENTAL:

Additional Fiscal Information

No County General Funds will be required. Allocation of funding will be distributed in FY18/19. No budget adjustment is needed for FY 17/18.

In preparation of Budget FY18/19, DOE WAP funding was included at \$227,551. The new amount of \$303,402 reflects an increase of \$75,851 for FY18/19.

2. Contractor shall have no more than 30 days from the date of the TR or comparable document to tender payment to CSD or, alternatively, to provide CSD with complete and accurate information or documentary evidence in support of the allowability of questioned costs.
3. If Contractor challenges questioned costs and submits complete and accurate information or documentary evidence in support of the allowability of questioned costs as provided in subparagraph 2, CSD shall, after consideration of Contractor's submission, issue a TR requesting payment of disallowed costs, if any are determined to be owing, no later than thirty (30) days after receipt of Contractor's information or documentation. Contractor shall have 15 days from the date of the TR to tender payment or a repayment plan acceptable to CSD. In the alternative, Contractor may request a hearing in accordance with Article 10.4, paragraph D, subparagraph 5 of this Agreement, for CSD's final determination of disallowed costs.

- B. As the administrator of the DOE WAP grant for the State, CSD is required to ensure the funds allocated to Contractor are expended for the purposes identified

**STANDARD AGREEMENT
PARTS I & II - ENTIRE CONTRACT**

in federal, and for allowable and allocable costs under the applicable rules of the Office of Management and Budget (OMB).

- C. CSD is required to conduct on-site or in-house and follow-up monitoring of Contractor to ensure that Contractor meets the performance benchmarks, administrative standards, financial management requirements, and other requirements of the federal program.
- D. CSD shall provide Contractor reasonable advance notice in writing of on-site and/or in-house review monitoring reviews of Contractor's program or fiscal performance.
- E. Over the course of the DOE contract term, CSD will perform in-house desk reviews to verify compliance with financial and administrative requirements, and follow-up on prior year monitoring reporting findings and observations. Desk reviews will consist of a questionnaire that Contractors will be required to complete and return to CSD within 30 calendar days from receiving the questionnaire. CSD anticipates conducting a minimum of one desk review during the term of the contract period and may elect to increase the number and frequency of desk reviews based on the severity of non-compliance issues identified during the desk review process.
- F. CSD will conduct client file reviews at least once every quarter to meet the minimum five (5) percent client file review requirement of the DOE grant fund. Files will be reviewed to verify compliance with DOE mandates to include, but not limited to, client eligibility, adherence to the priority list and energy audit protocols, completion of post-inspections, and assessment for mechanical ventilation. CSD shall notify Contractor of the client files requested, and Contractor shall submit the client files within five (5) business days.
- G. CSD may increase the percentage of client files reviewed and frequency of client file reviews based on the severity of non-compliance issues identified during the client file review process.
- H. CSD will conduct monthly review of expenditure status to ensure Contractors are meeting their expenditure benchmarks, in accordance with Article 10.5. CSD will follow up with Contractor if contractual benchmarks are not being met.

**STANDARD AGREEMENT
PARTS I & II - ENTIRE CONTRACT**

- I. In accordance with Uniform Administrative Requirements, Cost Principles, and Audit Requirements (2 CFR § 200.336), Contractor shall cooperate with CSD program and audit staff and other representatives and provide access to all programs, records, documents, resources, personnel, inventory, and other things reasonably related to the administration and implementation of the services and activities funded directly or indirectly by this Agreement. To the extent Contractor maintains records and documents in an electronic format, Contractor must make such records and documents readily available to CSD program and audit staff and other representatives: 1) for review on an appropriate electronic device provided by Contractor; and/or 2) for reproduction in electronic and/or hard copy format, as is necessary to affect the purposes of this paragraph. In order to realize the objectives of this subparagraph and to ensure that the integrity of the program, the proper expenditure of grant funds, and to prevent fraud, waste, abuse, and unjust enrichment, whether by design or inadvertence, Contractor shall cooperate with CSD as follows:
1. Upon request, provide a list of clients, jobs or properties to or for which DOE WAP services have been provided by Contractor, and to or for which Contractor has provided related services under other federal, State or non-governmental programs such as, but not limited to, public and private utility company programs, collectively "Associated Programs."
 2. With respect to such list of clients, jobs, or properties, provide CSD and/or the investigative entities or persons referenced in Article 10.1, access to client files or similar records and documents of the Associated Programs for the purpose of determining whether related services have been provided that result in duplicate billings or any violation of federal or State law, this Agreement, or applicable federal and/or State DOE WAP program guidelines.
 3. For purposes of this paragraph E:
 - a. "Duplicate billing" is defined as receiving reimbursement from more than one funding source for the same expenditures or costs, whether in whole or in part, that Contractor incurs in connection with rendering a service to or for a client, job, or property, resulting in a total reimbursement to Contractor, from all sources, in excess of actual expenditures or costs incurred.
 - b. To the extent necessary to realize the objectives of this article, the term "Contractor" includes any subcontractor or agent of Contractor in possession of the files, records, or documents or

**STANDARD AGREEMENT
PARTS I & II - ENTIRE CONTRACT**

other information bearing on related services under any relevant Associated Program.

4. It is understood that Contractor has no obligation to provide access to the client files, records, and documents of an Associated Program when no DOE WAP services have been provided and the client, job, or property is not required to be on the list furnished to CSD by Contractor, as provided herein.
5. In the event Contractor is unable to comply with the provisions of subparagraphs 1. or 2. because of restrictions placed on Contractor by law in connection with an Associated Program, or restrictions imposed on Contractor pursuant to a binding written agreement between Contractor and the funding source of such Associated Program, then Contractor shall so inform CSD by written declaration and provide supporting documentation for such declaration. Contractor shall, together with any declaration made, certify to CSD in writing that:
 - a. Contractor has not submitted duplicate billings to both DOE WAP and Associated Program.
 - b. Contractor has not otherwise engaged in similar actions in violation of federal or state law.
- J. CSD will host a File Transfer Protocol (FTP) Server and provide Contractor with specifications, documentation and sample of FTP file configurations screens, as necessary, to enable Contractor to use the FTP Servicer to upload client files, records and documents. Contractor shall submit client files, records and documents via the FTP to allow CSD to complete an in-house review.
- K. In the event that CSD determines that Contractor is not in compliance with material or other legal requirements of this Agreement, CSD shall provide the observations, recommendations, or findings and request for a corrective action plan to Contractor in writing. Contractor shall submit to CSD a specific action plan for correcting the noncompliance.
- L. Collection of Disallowed Costs
 1. In the event questioned costs are identified in a final decision on cost disallowance issued by CSD, Contractor shall comply with any demand for repayment, as specified in such final report.

**STANDARD AGREEMENT
PARTS I & II - ENTIRE CONTRACT**

2. *Time for response.* Contractor shall have no less than 30 days from receipt of the final decision to tender payment to CSD or, alternatively, to provide CSD with complete and accurate information or documentary evidence in support of the allowability of questioned costs.
3. *Notice after review of further supporting evidence.* If Contractor challenges questioned costs and submits complete and accurate information or documentary evidence in support of the allowability of questioned costs as provided above in subparagraph 2, CSD shall, after consideration of Contractor's submission, accordingly issue a revised Notice of Disallowed Costs, if any, no later than 30 days after receipt of Contractor's information or documentation. Contractor shall have 15 days from receipt of such Notice to tender payment or a repayment plan acceptable to CSD. In the alternative, Contractor may request a hearing in accordance with Article 10.4, paragraph D, subparagraph 5 of this Agreement, for CSD's final determination of disallowed costs.
4. All statements, notices, responses and demands issued in accordance with this paragraph shall be in writing.
5. CSD may, at its discretion, reasonably extend the time periods allowed for responses specified in this paragraph.

10.4 Enforcement Process - Noncompliance with Requirement of this Agreement

A. General

The authority for CSD Enforcement Actions, as defined in paragraph B, for cost disallowances/ recovery of misused funds, and for de-designation of eligible entity status (collectively "Enforcement Process") is found in the federal Office of Management and Budget (OMB) Circulars, and in state regulations, with particular reference to 22 CCR 100875. In order to facilitate compliance with the cited authorities, the parties to this Agreement agree that: 1) the present article shall guide, inform and clarify the Enforcement Process; 2) shall establish the procedures to be followed; and 3) establish the rights and obligations of the parties with respect to the Enforcement Process, for purposes of implementing the principles set out in the applicable legal authorities. Accordingly, the parties hereto agree as follows:

B. Enforcement Action, "High Risk" – Determination and Notice

1. If CSD determines that Contractor is not financially stable and that Contractor's financial condition is so tenuous that its ability to implement

**STANDARD AGREEMENT
PARTS I & II - ENTIRE CONTRACT**

this Agreement is seriously compromised, or if CSD determines that Contractor has not complied with the requirements of this Agreement and that Contractor's noncompliance constitutes a material breach of the Agreement, CSD may initiate an Enforcement Action. For purposes of this article, "Enforcement Action" means the imposition of any of the following: a) special conditions and/or sanctions; b) a determination of cost disallowance; c) contract suspension; d) contract termination; or e) termination of Contractor's service provider status.

2. To initiate an Enforcement Action, CSD must provide Contractor with written notice of "high risk" designation, setting forth: 1) the factual and legal basis for the determination of noncompliance, upon which the "high risk" designation is based; 2) the corrective action(s) required; and 3) the date by which they must be taken and completed.
3. For purposes of this article, "material breach" means any act or omission by Contractor that is in contravention or disregard of Contractor's duties and obligations under the terms of this Agreement and under applicable State and federal law, which act or omission:
 - a. constitutes fraud or gross negligence by Contractor or its agent(s);
 - b. is likely to result in significant waste and/or abuse of federal funds;
 - c. has a significant adverse impact on Contractor's ability to meet its administrative, financial, or programmatic duties and obligations over the term of the contract or a significant portion thereof;
 - d. violates or otherwise disregards significant program guidance and other requirements of the Federal Government, whether issued directly or through CSD;
 - e. may have serious adverse effects and consequences on the Contractor's customers, employees, subcontractors, creditors, suppliers, vendors, or other stakeholders; OR
 - f. may otherwise significantly and adversely affect the viability, effectiveness, or integrity of the program.

C. Special Conditions and Sanctions

1. "High risk" designation may include the imposition of Special Conditions, Sanctions and/or other special requirements with respect to Contractor's

**STANDARD AGREEMENT
PARTS I & II - ENTIRE CONTRACT**

performance. CSD may impose Special Conditions and/or Sanctions upon a determination that such steps are reasonably necessary to address acute financial instability or a material breach of contract, as defined in paragraph B, above.

2. Notice of Special Condition(s) and/or Sanction(s) shall be in writing and shall become effective on the date specified in the notice. Notice must contain the following information:
 - a. The nature of the Special Condition(s) and/or Sanction(s) being imposed;
 - b. The reason(s) for imposing Special Condition(s) and/or Sanction(s); and
 - c. The corrective actions that must be taken and the time allowed for completing them before CSD removes the Special Condition(s) and/or Sanction(s).
3. Special Conditions may include, but are not limited to:
 - a. obtaining training and/or technical assistance;
 - b. the imposition of special or additional reporting requirements;
 - c. special or conditional cost reimbursement requirements and procedures;
 - d. the provision of documentation by Contractor; and/or
 - e. the requirement to amend or modify systems, procedures, and/or policies;
4. Sanctions may include, but are not limited to:
 - a. the suspension of advances and/or reimbursements; and/ or
 - b. the issuance of stop work orders.
5. Sanctions may not be imposed without a hearing being first held in accordance with applicable regulations, *unless* CSD reasonably determines on the basis of credible information that:

**STANDARD AGREEMENT
PARTS I & II - ENTIRE CONTRACT**

- a. substantial sums to be paid to Contractor have been or will be used in violation of law or the provisions of this Agreement, or
 - b. the associated costs are otherwise very likely to be disallowed; and
 - c. if Sanctions are not immediately imposed, taxpayer dollars are at significant risk and are unlikely to be recovered.
6. Review of Special Conditions and/or Sanctions.
- a. if Contractor elects to contest the action to impose Special Conditions and/or Sanctions, Contractor shall have five working days following receipt of Notice of Enforcement Action in which to show cause, in writing, why the Special Conditions or Sanctions should not be enforced;
 - b. CSD shall have five working days following receipt of Contractor's response to accept or reject Contractor's objection and to state in writing the consequences of the decision and Contractor's obligations going forward, if any.
 - c. Contractor may, within five days of receipt of Notice of Enforcement Action, request an informal meeting for the parties to consider the merit of the Notice and to discuss alternative courses of action, which meeting CSD may agree to if, in its sole judgment, it determines the meeting would be helpful to the process, can be held expeditiously, and will not unduly cause delay or otherwise increase the risk of loss of taxpayer dollars.
 - d. Contractor may, at any time, request in writing that CSD initiate the contract suspension or contract termination processes, to include the requisite hearings, as set out in 22 CCR 100875.
 - e. Should Contractor fail to show cause why the Enforcement Action should not go forward, or should Contractor fail to request that CSD initiate either the contract suspension or termination processes, CSD may initiate such action upon its own motion.
 - f. Special conditions and sanctions shall remain in effect until the hearing procedure is completed, provided, with respect to sanctions, CSD reasonably determines that subparagraph 5.c. applies.

**STANDARD AGREEMENT
PARTS I & II - ENTIRE CONTRACT**

D. Cost Disallowance

1. If Contractor's non-compliance with the terms of this Agreement results in an enforcement action, and if CSD determines that Contractor's non-compliance has resulted in questioned costs, CSD shall provide Contractor with a Statement of Questioned Costs along with the Notice of Enforcement Action, or at such later time in the Enforcement Process as questioned costs have been identified.
2. The Statement of Questioned Costs shall include:
 - a. a description of the costs questioned and the specified amount by type or category of costs;
 - b. the reason the costs are questioned, and the information and/ or documentation required to justify payment of the costs; and
 - c. the timeframe and procedures for Contractor's submission of the required information or documentation to CSD.
3. If CSD determines that more information is required before a Statement of Questioned Costs can be issued or before a final determination of cost disallowance can be made, CSD may conduct an investigative audit of Contractor's records, files and books of account, or retain an audit firm for such purpose. Contractor agrees to cooperate fully in any audit conducted and to ensure that Contractor's agents, accountants and subcontractors cooperate in the performance of such audit. A report of any audit conducted shall be shared with Contractor, who shall be given ample opportunity to respond to findings and to submit information and documentation in support of the response. If Contractor fails to cooperate in the conduct of an audit, initiated pursuant to this subparagraph, CSD may either impose sanctions, as provided in subparagraph C. 4. or, if feasible, issue a Notice of Disallowed Costs.
4. After CSD has considered any information and/ or documentation submitted by Contractor in response to a statement of questioned costs or in response to an investigative audit report, CSD shall issue a Notice of Disallowed Costs, which notice shall include:
 - a. the amount of disallowed costs to be repaid, if any; and
 - b. the date by which repayment must be made or, in the alternative,

**STANDARD AGREEMENT
PARTS I & II - ENTIRE CONTRACT**

- c. the date by which Contractor must submit a proposed repayment plan for consideration by CSD.
5. Before the expiry of five working days after receipt of a Notice of Disallowed Costs, Contractor may challenge the Notice of Disallowed Costs by requesting a hearing, conducted in accordance with the procedures set out in 22 CCR 100875, for the purpose of adjudicating the matter of cost disallowance, provided however that either Contractor or CSD may opt to adjudicate other pending Enforcement Action matters, as provided in subparagraph C. 6. d. of this section, in a combined proceeding.
6. If Contractor fails to request a hearing to adjudicate cost disallowance, as provided in subparagraph 5, the Notice of Disallowed Costs shall be deemed final and Contractor shall comply with the provisions of the present Paragraph D.
7. Contractor will not be deemed to have complied with a Notice of Disallowed Costs until repayment is made or CSD has approved a repayment plan. In determining the acceptability Contractor's repayment plan, CSD shall take into consideration such factors as, but not limited to:
 - a. federal requirements or conditions applicable to the grant(s) under which the disallowed costs were funded;
 - b. the exigencies of the grant program and CSD's ability to reallocate the funds repaid or otherwise dispose of the funds in accordance with applicable law;
 - c. the risk of being unable to recover funding and the options for securing Contractor's repayment obligation; and
 - d. Contractor's financial condition and ability to pay.
- E. Contractor shall remain on "high risk" until CSD reasonably determines that Contractor has complied with the requirements of the Notice of "High Risk" Designation, including verification by CSD that corrective measures have been implemented, that all conditions have been met and that disallowed costs have been repaid or, alternatively, that CSD has deemed Contractor's repayment plan to be acceptable and Contractor has demonstrated it is in compliance with the plan. Upon determination that Contractor has complied with the requirements of the Notice of "High Risk" Designation, CSD shall give Contractor written notice of such determination.

**STANDARD AGREEMENT
PARTS I & II - ENTIRE CONTRACT**

F. In the event Contractor's non-compliance with the terms and conditions of this Agreement are not remedied through imposition of special conditions, and/or sanctions, thereby enabling CSD to remove "high risk" designation, CSD may initiate further Enforcement Actions involving Contract Suspension, Contract Termination and Termination of service provider status, which shall be initiated and conducted in accordance with the applicable provisions found in 22 CCR 100875 and other applicable State and federal statutes and regulations.

G. Lien rights

The State retains lien rights on all funds advanced.

10.5 Service Delivery, Expenditure Requirements, and Consequences for Failure to Perform

A. Service Delivery and Expenditure of Funds

1. Contractor shall be afforded maximum flexibility and control, within the parameters of federal law, in the planning, administration, and delivery of DOE WAP services. Regardless of the modalities and techniques utilized, Contractor shall: a) Ensure that the maximum numbers of persons are served consistent with the effective and efficient service delivery under program requirements and applicable law; and b) Fully expend program funds within the contract term.
2. A substantial failure to expend funds and provide services to readily available qualified applicants, except for compelling reasons beyond Contractor's control and within CSD's determination, shall be deemed prima facie evidence of breach of contract and may constitute grounds for "high risk" designation and the applicable remedies as provided in Article 10.4, "Enforcement Process – Noncompliance with the Requirements of this Agreement." Such failure of performance may, in accordance with the provisions of this Article, result in a reduction in Contractor's grant allocation and the redistribution of unexpended funds.

B. Contractor Performance Benchmark and Reporting Requirements

1. If Contractor fails to expend at least 99% of its grant allocation by May 31, 2019, then CSD may give Contractor notice of its intent to reduce Contractor's grant allocation in the following contract year.
2. Contractor's acceptable level of performance benchmarks under this

**STANDARD AGREEMENT
PARTS I & II - ENTIRE CONTRACT**

Agreement shall reflect expenditures of no less than 15% by August 31, 2018, 50% by November 31, 2018, 75% by February 28, 2019 of the total allocation, exclusive of capped budget items.

3. CSD will monitor Contractor's expenditures to evaluate compliance with required performance benchmark levels for each program category, including capped budget items.
4. If Contractor fails to meet the performance benchmarks, CSD may, at its sole option, notify Contractor in writing that Contractor's total allocation, including capped budget items, shall be reallocated. Notice of such action shall be issued within 15 days after Contractor's performance benchmark period.
5. If Contractor fails to submit timely expenditure reports, thus preventing CSD from evaluating Contractor's expenditure performance, CSD may determine that Contractor has not met its 15%, 50%, 75% and 99% expenditure goals and is not compliant with this Agreement. Upon such determination, CSD may notify Contractor in writing of its intent to reallocate in accordance with section 10.5(C).

C. Consequences of Failure to Perform

1. If Contractor fails to comply with the provisions of Section 10.5(B) and CSD has given written notice of reallocation of Contractor's funding, Contractor shall cease production upon receipt of such notice. Contractor shall, within 30 days, provide CSD with an accounting of outstanding expenditures not yet submitted for reimbursement, which will enable CSD to determine the amount of Contractor's allocation available for redistribution. Reimbursement for outstanding allowable costs shall be made through the normal reimbursement procedure consistent with this Agreement.
2. If Contractor's allocation has been reduced by CSD, pursuant to Section 10.5(B), Contractor shall closeout the contract at the end of the contract term, as provided herein, and in accordance with normal closeout procedures.
3. For purposes of final reconciliation during closeout, the contract amount of this Agreement shall be the adjusted contract amount specified by CSD in accordance with Section 10.5(C)(2) after reallocation of Contractor's funding, if any, has been effected.
4. If Contractor's allocation is reduced and redistributed as provided herein,

**STANDARD AGREEMENT
PARTS I & II - ENTIRE CONTRACT**

CSD may reduce Contractor's grant allocation for the following contract year. This reduction shall be in an amount equal to the amount Contractor underspent under the present Agreement.

5. If Contractor fails to expend at least 99% of its allocation by May 31, 2019, CSD may reduce Contractor's grant allocation for the following contract year. This reduction shall be in an amount equal to the amount Contractor underspent under the present Agreement.
6. Contractors that fail to expend at least 99% of their allocation may not receive carryover allocation in the following contract year.
7. In recognition of the fact circumstances sometimes make satisfactory expenditure of allocations problematical, CSD will consider Contractor's cooperation with the reallocation of funds during the contract term, together with Contractor's demonstrated ability to resume effective contract implementation, to be indicators that Contractor's funding should be restored, in whole or in part, in the next contract year.
8. Funding redistribution and/or reallocation is deemed preferable to contract extension. However, CSD may extend a contract if CSD reasonably determines that:
 - a. Contractor made a good faith effort to implement the contract;
 - b. The failure to expend at least 99% of the grant allocation is due to extenuating circumstances beyond Contractor's control;
 - c. Contractor will be able to expend current funding, in addition to any future contract allocations, during the contract extension period; and
 - d. Contract extension is in the best interest of the low-income community in Contractor's service area.

The DOE has directed CSD to address areas of concern and non-compliance identified in the 2017 DOE State Plan and monitoring report.

The additional requirements shall apply in addition to standard CSD requirements outlined in the CSD Field Guide and CSD Weatherization Installation Standards (WIS).

The following program changes will occur at the onset of the contract term.

1.0 Air-Conditioning and Heating System Repairs and Replacements

- Pursuant to Weatherization Program Notice (WPN) 17-7, heating or cooling system repairs or replacements must be modeled as an energy efficiency measure first using the REM energy audit.
- Energy audit must follow the Single-family/Small Multi-Family Energy Audit Protocol in Appendix D of the CSD Weatherization Field Guide
- When a heating or cooling, system does not qualify as an energy efficiency measure, the following conditions must be met before the unit can be replaced or repaired with Health and Safety funds:
 - “Red tagged,” inoperable, or nonexistent primary heating system may be replaced, repaired or installed.
 - Primary air conditioning system replacement, repair, or installation is allowed only in homes where occupant is “at-risk” AND climate conditions warrant.
 - CSD is using the ECIP Policies and Procedures criteria to define an “at-risk” occupant. Specifically, at-risk occupants are considered those that:
 1. Have a qualifying “medical condition” that requires temperature or climate control. Must be verified by a doctor’s recommendation or other objective evidence gathered at the time of application; OR
 2. Is a member of a vulnerable population and the absence of the appliance creates an emergency health and safety need.

2.0 Post Inspection Diagnostic Retesting

- Pursuant WPN 15-4, every DOE WAP unit reported as a completed unit must receive a final post inspection by a certified Quality Control Inspector ensuring that all work meets the Weatherization Installation Standards and Field Guide requirements.

- The final post inspection must include an assessment of the original audit and confirm that the measures called for on the work order were appropriate and in accordance with the Single-family/Small Multi-Family Energy Audit Protocol or Priority List Protocol.
- To properly assess the original audit, the post inspection must include 100% retesting of combustion appliance safety and duct/shell sealing tests will be required on all DOE units.

3.0 Carbon Monoxide Detectors (CO) and Smoke Alarms

- Installation of smoke and CO detectors is allowed where detectors are not present or are inoperable.
- Replacement of operable smoke and CO detectors is not an allowable cost, unless required by local code.
- If required by local code, the excerpt from the local code must be included in the client file or provided to CSD upon request.

4.0 Mechanical Ventilation

- Mechanical Ventilation has been recategorized as a Health and Safety measure.
- Health and Safety cap has been increased to 32% to accommodate the CSD is waiting for approval on a 32% health and safety rate.

5.0 Income Guidelines

DOE reviewed agency websites and found that the way income eligibility guidelines for weatherization services are presented may be misinforming clients.

Prior to contract execution Contractors shall provide proof to CSD that Contractor's website has been updated. LSPs should adopt one of the following options --

- Remove references to DOE from your website;
- DOE income guidelines must be posted on your website (enclosed); or
- Indicate on your agency website that clients may be eligible for DOE weatherization services and to contact your agency for more information.

ADDENDUM B - PARTICIPATION CONDITIONS Community Action Partnership of Riverside County

2017 Department of Energy Participation Conditions

Allocation

The minimum allocation determined by the 3-factor formula will be awarded to every agency who confirms participation. The amount of additional funds available will be determined after all agencies' participation has been confirmed.

Please be advised that the Department of Energy (DOE) has imposed special fiscal conditions upon the Department of Community Services and Development (CSD) for concerns related to California's performance. Each reimbursement request submitted by CSD must be approved by DOE before payment is rendered. This will cause a delay in payments to the network from 2 – 30 days beyond CSD's normal turnaround time. In general, DOE's review should be completed within two business days unless concerns are identified.

Contract Terms

- The contract term will start June 1, 2018 and continue through May 31, 2019.
- Signed contracts must be returned to CSD no later than 30 days (non-profit agencies) or 45 days (public agencies) after the date of issuance.
- Agencies must accept all contract terms without challenge or accommodation.

Performance and Expenditure Benchmarks

The 2017 DOE Weatherization Assistance Program Performance and Expenditure Benchmarks form must be completed and returned with the contract. Agencies will be required to meet the following expenditure benchmarks:

- August 31, 2018 – 25%
- November 30, 2018 – 50%
- February 28, 2019 – 75%
- May 31, 2019 – 99%

Production will be monitored to the number of completed units entered on the performance benchmarks form. A progress letter will be issued to agencies by CSD after each benchmark threshold date.

Compliance Monitoring

- General Requirements
 - Agencies will be monitored for adherence to all DOE fiscal, administrative and programmatic requirements (e.g., priority list, blower door, energy audit, etc.).

ADDENDUM B - PARTICIPATION CONDITIONS
Community Action Partnership of Riverside County

- Agencies are required to submit timely reports and data submission including additional fiscal, administrative and programmatic documentation when requested.
- Requested documentation and client files will be uploaded to a secure File Transfer Protocol site.
- Desk Review
 - Over the course of the DOE contract term, CSD will perform in-house desk reviews to verify compliance with financial and administrative requirements and follow-up on prior year monitoring reporting findings and observations.
 - Desk reviews will consist of a questionnaire that Contractors will be required to complete and return to CSD within 30 calendar days from receiving the questionnaire.
 - CSD anticipates conducting a minimum of one desk review during the term of the contract period and may elect to increase the number and frequency of desk reviews based on the severity of non-compliance issues identified during the desk review process.
- Quarterly Client File Review
 - CSD will conduct client file reviews at least once every quarter to meet the minimum five percent client file review requirement of the DOE grant fund.
 - Files will be reviewed to ensure compliance with DOE mandates to include, but not limited to, client eligibility, adherence to the priority list and energy audit protocols, completion of post-inspections, and assessment for mechanical ventilation.
 - CSD shall notify Contractor of the client files requested, and Contractor shall submit the client files within five business days.
 - CSD may increase the percentage of client files reviewed and frequency of client file reviews based on the severity of non-compliance issues identified during the client file review process.
- Monthly Performance Review
 - CSD will conduct monthly review of expenditure status to ensure Contractors are meeting their expenditure benchmarks as required per the contract.
 - CSD will follow up with Contractor if contractual benchmarks are not being met.
- Quality Assurance (QA) Inspections
 - CSD QA inspections will occur on a regular basis to meet the five percent minimum quota. CSD may determine that an increase in the number of

ADDENDUM B - PARTICIPATION CONDITIONS
Community Action Partnership of Riverside County

inspections is warranted based upon identified issues and previous inspection findings.

- Onsite Visits
 - If an issue is identified because of any review, CSD may determine that an onsite visit is warranted. This visit could include CSD Field, QA, Technical Support staff and/or a CSD-contracted third party.

Training

- Agencies are required to participate in all training deemed appropriate by CSD or its representatives.
- Additional training may be required if issues identified through reviews or previous findings warrant it. The training may be applicable to field and program support staff.

Additional Requirements

- Because no 2016 completed units were available for inspection when inspectors were onsite:
 - CSD will require a sampling of client files to be submitted before the end of the first quarter to confirm program compliance.
 - The percentage of client files to be reviewed and inspections to be conducted will be increased to a minimum of 10% to confirm program compliance.

DOE WEATHERIZATION PRIORITY PLAN NARRATIVE

Agency Name: Community Action Partnership of Riverside County		Contract Number: 17C-4019	Program Year: 2017
Prepared By: Name Lin Vong	Title Energy Division Manager	E-Mail Address: lvong@capriverside.org	
DUNS #: 105920057	CCR #: 3TDL9	Telephone Number: 951-955-6404	

PRIORITY PLAN NARRATIVE

1) Describe in narrative format the selection process for dwellings to be weatherized and the outreach methods to be utilized to assure that eligible households are made aware of the services available through DOE WAP or any similar energy-related assistance program. Describe how your outreach activities are designed to target households that have not been previously served under a LIHEAP or DOE WAP Weatherization program.

Community Action Partnership (CAP) of Riverside County will weatherize homes consistent with the priority criteria established by DOE. First priority will be given to households that have the highest energy burden and residential energy users. Vulnerable populations identified by DOE including: households with elderly persons (60 years of age or older), persons with disabilities, American Indians, migrant and seasonal farm workers, and families with children under the age of 19 will also be given priority processing and will be targeted through outreach efforts. As part of ongoing efforts to reach these populations, individuals receiving utility assistance will be referred for weatherization and given priority processing. Health and safety issues requiring immediate attention for the safety of the household will also receive priority services. Ongoing coordination with existing community based organizations, City and County departments, and utility providers ensure maximum and efficient utilization of all energy resources to reach our customers. Continued outreach efforts include promotion of the weatherization program via CAP Riverside website, increase workshop times and opportunities to attend, distribute informational brochures to County departments, partners, and community based organizations.

2) Describe in narrative format your selection process to ensure compliance with the DOE Reweatherization Policy when providing services to dwellings previously weatherized on or before September 30, 1994.

CAP Riverside will ensure compliance with the DOE Reweatherization Policy by assuring that homes previously weatherized through DOE are certified and eligible to receive additional services. Through the intake process, CAP will make every effort to determine which customers have previously received services by checking Serv-Traq and In-House historical logs. During the assessment phase, unapplied measures will be identified for installation along with any previously installed measures that may have been damaged or are defective by means of the previous tenant, flood, fire, or act of nature. A first-in-first-out process of selection will be utilized to complete weatherization jobs outside of priority processing. Considerations made for normal selection processing include urgency, priority group, and geographical location.

3) In narrative format, describe how your client education services will be provided to include needs assessments, budget education/counseling, energy conservation and weatherization measures education.

Workshops to attract prospective customer that have not been previously serviced under LIHEAP or DOE weatherization programs, are conducted County-wide to highlight program benefits, offer budget education and counseling, and provide energy conservation education. Education on weatherization measures is presented at the time of initial home assessment. The assessor will complete a walk-through of the home with the customer and explain the assessment process and the results once the assessment is complete. Upon completion of all work and installed measures, the subcontractor will review the benefits of work completed and describes how to properly utilize and care for the measures installed. Inspectors also review the measures/benefits with the customer through the final Quality Assurance Inspection that marks completion of job. Customers are provided with written energy conservation information with tips to help conserve, information on Lead safety, description of benefits for measures installed, description of what each measure does to conserve and proper use of each measure. Workshops are conducted in-house and at County-wide clinics to showcase the benefits of the weatherization program to prospective customers. These workshops include a video presentation, information on money management, budgeting, how to read your utility bill, how to conserve energy, cautions against lead poisoning and lead safety, benefits of weatherization in the home, and an opportunity for prospective customers to submit an application. Bilingual staff are in attendance to assist those customers with limited English speaking abilities.

DOE WEATHERIZATION PRIORITY PLAN NARRATIVE

Agency Name: Community Action Partnership of Riverside County	Contract Number: 17C-4019	Program Year: 2017
4) In narrative format, describe how you will provide T&TA to your administrative and program staff.		
<p>All new weatherization Assessors/Inspectors/subcontractors complete the required training as specified in the DOE contract. Subcontractors receive hands on training and technical assistance from inspectors throughout the year. Inspectors schedule full day/week "ride along" with subcontractors and provide field training on conducting proper assessments and proper installation of measures. Inspectors and subcontractors receive hands on training and technical assistance during monitoring phases of the contract by the State Inspectors. Classroom style trainings are held periodically to address specific areas of need including: outreach, assessment, energy audit, blower door training, etc. Administrative support staff participates in various parts of the training provided to subcontractor and inspectors. Administrative/Program Management staff also attends various meetings with the State and utility companies which focus on training/technical assistance as it pertains to weatherization measures/standards and contracts. Subcontractor employees, and Assessors/Inspectors complete CSD required training on-line as needed. Weatherization staff participates in State sponsored webinars. Assessors/Inspectors also participate in weekly safety trainings and meetings to address issues. Program staff participate in annual orientation/training when the new contract is executed to review changes to the program, etc. Customer service training is provided to help staff/subcontractors increase communication and to maximize professional working relationships.</p>		
5) Describe in narrative format how you will leverage DOE WAP funds with other available program funds and how much leveraging you plan on coordinating.		
<p>CAP Riverside will perform services and install energy conservation measures as per Agreement and in accordance with requirements of another CSD and non-CSD funding source concurrently in the same dwelling as feasible and in the best interest of the client. Measures will be billed and tracked separately. Duplicate reimbursement for the same costs charged to a CSD program with any other public or privately funded program will not be claimed in any instance or circumstance.</p>

DOE WEATHERIZATION PRIORITY PLAN NARRATIVE

Agency Name Community Action Partnership of Riverside County	Contract Number 17C-4019	Program Year 2017
Prepared By Name Lin Vong	Title Energy Division Manager	E-Mail Address lvong@capriverside.org
DUNS# 105920057	GOR# 3TDL9	Telephone Number 951-955-6404

PRIORITY PLAN NARRATIVE

1) Describe in narrative format the selection process for dwellings to be weatherized and the outreach methods to be utilized to assure that eligible households are made aware of the services available through DOE WAP or any similar energy-related assistance program. Describe how your outreach activities are designed to target households that have not been previously served under a LIHEAP or DOE WAP Weatherization program.

Community Action Partnership (CAP) of Riverside County will weatherize homes consistent with the priority criteria established by DOE. First priority will be given to households that have the highest energy burden and residential energy users. Vulnerable populations identified by DOE including: households with elderly persons (60 years of age or older), persons with disabilities, American Indians, migrant and seasonal farm workers, and families with children under the age of 19 will also be given priority processing and will be targeted through outreach efforts. As part of ongoing efforts to reach these populations, individuals receiving utility assistance will be referred for weatherization and given priority processing. Health and safety issues requiring immediate attention for the safety of the household will also receive priority services. Ongoing coordination with existing community based organizations, City and County departments, and utility providers ensure maximum and efficient utilization of all energy resources to reach our customers. Continued outreach efforts include promotion of the weatherization program via CAP Riverside website, increase workshop times and opportunities to attend, distribute informational brochures to County departments, partners, and community based organizations.

2) Describe in narrative format your selection process to ensure compliance with the DOE Reweathering Policy when providing services to dwellings previously weatherized on or before September 30, 1994.

CAP Riverside will ensure compliance with the DOE Reweathering Policy by assuring that homes previously weatherized through DOE are certified and eligible to receive additional services. Through the intake process, CAP will make every effort to determine which customers have previously received services by checking Serv-Traq and In-House historical logs. During the assessment phase, unapplied measures will be identified for installation along with any previously installed measures that may have been damaged or are defective by means of the previous tenant, flood, fire, or act of nature. A first-in-first-out process of selection will be utilized to complete weatherization jobs outside of priority processing. Considerations made for normal selection processing include urgency, priority group, and geographical location.

3) In narrative format, describe how your client education services will be provided to include needs assessments, budget education/counseling, energy conservation and weatherization measures education.

Workshops to attract prospective customer that have not been previously serviced under LIHEAP or DOE weatherization programs, are conducted County-wide to highlight program benefits, offer budget education and counseling, and provide energy conservation education. Education on weatherization measures is presented at the time of initial home assessment. The assessor will complete a walk-through of the home with the customer and explain the assessment process and the results once the assessment is complete. Upon completion of all work and installed measures, the subcontractor will review the benefits of work completed and describes how to properly utilize and care for the measures installed. Inspectors also review the measures/benefits with the customer through the final Quality Assurance Inspection that marks completion of job. Customers are provided with written energy conservation information with tips to help conserve, information on Lead safety, description of benefits for measures installed, description of what each measure does to conserve and proper use of each measure. Workshops are conducted in-house and at County-wide clinics to showcase the benefits of the weatherization program to prospective customers. These workshops include a video presentation, information on money management, budgeting, how to read your utility bill, how to conserve energy, cautions against lead poisoning and lead safety, benefits of weatherization in the home, and an opportunity for prospective customers to submit an application. Bilingual staff are in attendance to assist those customers with limited English speaking abilities.

Inspectors schedule full day/week "ride along" with subcontractors and provide field training on conducting proper assessments and proper installation of measures. Inspectors and subcontractors receive hands on training and technical assistance during monitoring phases of the contract by the State Inspectors. Classroom style trainings are held periodically to address specific areas of need including: outreach, assessment, energy audit, blower door training, etc. Administrative support staff participates in various parts of the training provided to subcontractor and inspectors. Administrative/Program Management staff also attends various meetings with the State and utility companies which focus on training/technical assistance as it pertains to weatherization measures/standards and contracts. Subcontractor employees, and Assessors/Inspectors complete CSD required training on-line as needed. Weatherization staff participates in State sponsored webinars.
