BACKGROUND:

Summary

This action of the Board will extend, for six additional months, the term of the Professional Services Agreement with Huron Consulting Services, LLC (the "Agreement") to continue RUHS's efforts to decommission systems that are no longer in active productive use since the EPIC EHR system was implemented.

The Huron Project Manager assigned to this engagement was to coordinate moving the data from legacy systems to the newly purchased Cerner Mediquant data archiving system. The first task was to pull support contracts of all the systems being archived and determine an archiving schedule to optimize timing around support contract expirations and renewals, then restructure the project accordingly. Once the work began, RUHS discovered other systems were needing to be archived such as Tele-Tracking, Surgery Tissue Manager, ANSOS Nurse Scheduling, and OB Tracevue, and thereby requiring consideration and further project restructuring.

Impact on Citizens and Businesses

The information service systems used at RUHS impacts patient care and the patients receiving care. Consolidation of data from multiple locations into a single secure location will provide better security for patient data and have less risk of an information security breach.

Contract History and Price Reasonableness

On August 29, 2017, as part of agenda item number 3.91, the Board of Supervisors approved a motion to ratify and execute the Agreement between the County of Riverside and Huron Consulting Services for project management services in an amount not to exceed \$397,475, effective July 25, 2017 through June 30, 2018 (the "Agreement").

This First Amendment will extend the term of the Agreement for an additional six months to allow Huron to complete the remaining data archive tasks. This six-month extension will increase the maximum contract amount by 22% (an increase of \$86,172) from \$397,475 to \$483,647.
