**BACKGROUND:**

**Summary**

Since July 21, 1998, the Board of Supervisors has continuously approved the agreements between DHCS and Riverside University Health System – Behavioral Health (RUHS-BH) to provide Medi-Cal Specialty Mental Health Services (SMHS) to beneficiaries in Riverside County. The most recent agreement, #12-89385 was approved by the Board on August 20, 2013 (#3-53), covering the term May 1, 2013 through June 30, 2018. The agreement specifies the Federal and State requirements that counties must meet to participate as a Mental Health Plan (MHP) and claim Federal Financial Participation (FFP) for SMHS provided. SMHS include: mental health services, medication support, intensive day treatment, day rehabilitation, crisis intervention, adult and crisis residential treatment services, psychiatric health facility services, Intensive Care Coordination, Intensive Home Based Services, Therapeutic Behavioral Services, Therapeutic Foster Care, Psychiatric Inpatient Hospital Services and Targeted Case Management.

In DHCS Standard Agreement #17-94604, significant changes were made and approved by the Centers for Medicare and Medicaid to conform to the updated Federal Medicaid Managed Care regulations. This agreement is in effect retroactively with a term July 1, 2017 through June 30, 2022 because many of the requirements in the updated Medicaid Managed Care regulations became effective and applicable July 1, 2017. Additionally, in order to avoid overlapping contract terms, DHCS issued Amendment #A01 to Agreement #12-89385, to terminate contract retroactively to June 30, 2017.

**Impact on Residents and Businesses**

These services are a component of the Department's system of care aimed at improving the health and safety of the communities of Riverside County.

**Additional Fiscal Information**

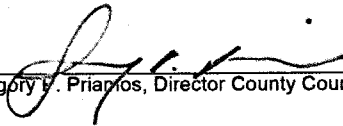

Standard Agreement #17-94604 differs from the prior contract in that it is a zero dollar contract. RUHS-BH's authority to be reimbursed by DHCS is established in accordance with Chapter 3, Part 2, Division 5 of the Welfare and Institution Code along with Sections 5600, 5750, 5650, and Government Code Sections 11138, 14705 and 14718. Therefore, DHSC is not required to develop and include individual county funding estimates for the five year term of the contract.

Reimbursements are made to RUHS-BH on a claims basis. No additional County funds are required.

These services shall be authorized with the same frequency as the concurrent day treatment intensive or day rehabilitation services.
- B. The Contractor shall not delegate the payment authorization function to providers. When the Contractor is the day treatment intensive or day rehabilitation provider, the Contractor shall assure that the payment authorization function does not include staff involved in the provision of day treatment intensive, day rehabilitation services, or mental health services provided concurrent to day treatment intensive or day rehabilitation services.
- C. The Contractor shall require that providers of day treatment intensive and day rehabilitation meet the requirements of California Code of

Regulations, title 9, sections 1840.318, 1840.328, 1840.330, 1840.350 and 1840.352.

- D. The Contractor shall require that providers include, at a minimum, the following day treatment intensive and day rehabilitation service components:
- 1) Community meetings. These meetings shall occur at least once a day to address issues pertaining to the continuity and effectiveness of the therapeutic milieu, and shall actively involve staff and beneficiaries. Relevant discussion items include, but are not limited to: the day's schedule, any current event, individual issues that beneficiaries or staff wish to discuss to elicit support of the group and conflict resolution. Community meetings shall:
    - a) For day treatment intensive, include a staff person whose scope of practice includes psychotherapy.
    - b) For day rehabilitation, include a staff person who is a physician, a licensed/waivered/registered psychologist, clinical social worker, or marriage and family therapist; and a registered nurse, psychiatric technician, licensed vocational nurse, or mental health rehabilitation specialist.
  - 2) Therapeutic milieu. This component must include process groups and skill-building groups. Specific activities shall be performed by identified staff and take place during the scheduled hours of operation of the program. The goal of the therapeutic milieu is to teach, model, and reinforce constructive interactions by involving beneficiaries in the overall program. For example, beneficiaries are provided with opportunities to lead community meetings and to provide feedback to peers. The program includes behavior management interventions that focus on teaching self-management skills that children, youth, adults and older adults may use to control their own lives, to deal effectively with present and future problems, and to function well with minimal or no additional therapeutic intervention. Activities include, but are not limited to, staff feedback to beneficiaries on strategies for symptom reduction, increasing adaptive behaviors, and reducing subjective distress.

**Exhibit A – Attachment 2  
SCOPE OF SERVICES**

- 3) Process groups. These groups, facilitated by staff, shall assist each beneficiary to develop necessary skills to deal with his/her problems and issues. The group process shall utilize peer interaction and feedback in developing problem-solving strategies to resolve behavioral and emotional problems. Day rehabilitation may include psychotherapy instead of process groups, or in addition to process groups.
- 4) Skill-building groups. In these groups, staff shall help beneficiaries identify barriers related to their psychiatric and psychological experiences. Through the course of group interaction, beneficiaries identify skills that address symptoms and increase adaptive behaviors.
- 5) Adjunctive therapies. These are therapies in which both staff and beneficiaries participate. These therapies may utilize self-expression, such as art, recreation, dance, or music as the therapeutic intervention. Participants do not need to have any level of skill in the area of self-expression, but rather be able utilize the modality to develop or enhance skills directed toward achieving beneficiary plan goals. Adjunctive therapies assist the beneficiary in attaining or restoring skills which enhance community functioning including problem solving, organization of thoughts and materials, and verbalization of ideas and feelings. Adjunctive therapies provided as a component of day rehabilitation or day treatment intensive are used in conjunction with other mental health services in order to improve the outcome of those services consistent with the beneficiary's needs identified in the client plan.

E. Day treatment intensive shall additionally include:

- 1) Psychotherapy. Psychotherapy means the use of psychological methods within a professional relationship to assist the beneficiary or beneficiaries to achieve a better psychosocial adaptation, to acquire a greater human realization of psychosocial potential and adaptation, to modify internal and external conditions that affect individual, groups, or communities in respect to behavior, emotions and thinking, in respect to their intrapersonal and interpersonal

**Exhibit A – Attachment 2  
SCOPE OF SERVICES**

processes. Psychotherapy shall be provided by licensed, registered, or waived staff practicing within their scope of practice. Psychotherapy does not include physiological interventions, including medication intervention.

- 2) Mental Health Crisis Protocol. The Contractor shall ensure that there is an established protocol for responding to beneficiaries experiencing a mental health crisis. The protocol shall assure the availability of appropriately trained and qualified staff and include agreed upon procedures for addressing crisis situations. The protocol may include referrals for crisis intervention, crisis stabilization, or other specialty mental health services necessary to address the beneficiary's urgent or emergency psychiatric condition (crisis services). If the protocol includes referrals, the day treatment intensive or day rehabilitation program staff shall have the capacity to handle the crisis until the beneficiary is linked to an outside crisis service.
- 3) Written Weekly Schedule. The Contractor shall ensure that a weekly detailed schedule is available to beneficiaries and as appropriate to their families, caregivers or significant support persons and identifies when and where the service components of the program will be provided and by whom. The written weekly schedule will specify the program staff, their qualifications, and the scope of their services.

F. **Staffing Requirements.** Staffing ratios shall be consistent with the requirements in California Code of Regulations, title 9, section 1840.350, for day treatment intensive, and California Code of Regulations section 1840.352 for day rehabilitation. For day treatment intensive, staff shall include at least one staff person whose scope of practice includes psychotherapy.

- 1) Program staff may be required to spend time on day treatment intensive and day rehabilitation activities outside the hours of operation and therapeutic program (e.g., time for travel, documentation, and caregiver contacts).

**Exhibit A – Attachment 2  
SCOPE OF SERVICES**

- 2) The Contractor shall require that at least one staff person be present and available to the group in the therapeutic milieu for all scheduled hours of operation.
  - 3) The Contractor shall require day treatment intensive and day rehabilitation programs to maintain documentation that enables Contractor and the Department to audit the program if it uses day treatment intensive or day rehabilitation staff who are also staff with other responsibilities (e.g., as staff of a group home, a school, or another mental health treatment program). The Contractor shall require that there is documentation of the scope of responsibilities for these staff and the specific times in which day treatment intensive or day rehabilitation activities are being performed exclusive of other activities.
- G. If a beneficiary is unavoidably absent and does not attend all of the scheduled hours of the day rehabilitation or day treatment intensive program, the Contractor shall ensure that the provider receives Medi-Cal reimbursement only if the beneficiary is present for at least 50 percent of scheduled hours of operation for that day. The Contractor shall require that a separate entry be entered in the beneficiary record documenting the reason for the unavoidable absence and the total time (number of hours and minutes) the beneficiary actually attended the program that day. In cases where absences are frequent, it is the responsibility of the Contractor to ensure that the provider re-evaluates the beneficiary's need for the day rehabilitation or day treatment intensive program and takes appropriate action.
- H. Documentation Standards. The Contractor shall ensure day treatment intensive and day rehabilitation documentation meets the documentation standards described in Attachment 9 of this exhibit. The documentation shall include the date(s) of service, signature of the person providing the service (or electronic equivalent), the person's type of professional degree, licensure or job title, date of signature and the total number of minutes/hours the beneficiary actually attended the program. For day treatment intensive these standards include daily progress notes on activities and a weekly clinical summary reviewed and signed by a physician, a licensed/waivered/registered psychologist, clinical social worker, or marriage and family therapist, or a registered nurse who is

either staff to the day treatment intensive program or the person directing the services.

- I. The Contractor shall ensure that day treatment intensive and day rehabilitation have at least one contact per month with a family member, caregiver or other significant support person identified by an adult beneficiary, or one contact per month with the legally responsible adult for a beneficiary who is a minor. This contact may be face-to-face, or by an alternative method (e.g., e-mail, telephone, etc.). Adult beneficiaries may decline this service component. The contacts should focus on the role of the support person in supporting the beneficiary's community reintegration. The Contractor shall ensure that this contact occurs outside hours of operation and outside the therapeutic program for day treatment intensive and day rehabilitation.
- J. Written Program Description. The Contractor shall ensure there is a written program description for day treatment intensive and day rehabilitation. The written program description must describe the specific activities of each service and reflects each of the required components of the services as described in this section. The Contractor shall review the written program description for compliance with this section with prior to the date the provider begins delivering day treatment intensive or day rehabilitation.
- K. Additional higher or more specific standards. The Contractor shall retain the authority to set additional higher or more specific standards than those set forth in this contract, provided the Contractor's standards are consistent with applicable state and federal laws and regulations and do not prevent the delivery of medically necessary day treatment intensive and day rehabilitation.
- L. Continuous Hours of Operation. The Contractor shall ensure that the provider applies the following when claiming for day treatment intensive and day rehabilitation services:
  - 1) A half day shall be billed for each day in which the beneficiary receives face-to-face services in a program with services available four hours or less per day. Services must be available a minimum of three hours each day the program is open.

**Exhibit A – Attachment 2  
SCOPE OF SERVICES**

- 2) A full-day shall be billed for each day in which the beneficiary receives face-to-face services in a program with services available more than four hours per day.
- 3) Although the beneficiary must receive face to face services on any full-day or half-day claimed, all service activities during that day are not required to be face-to-face with the beneficiary.
- 4) The requirement for continuous hours or operation does not preclude short breaks (for example, a school recess period) between activities. A lunch or dinner may also be appropriate depending on the program's schedule. The Contractor shall not conduct these breaks toward the total hours of operation of the day program for purposes of determining minimum hours of service.

**3. Therapeutic Behavioral Services**

Therapeutic Behavioral Services (TBS) are supplemental specialty mental health services covered under the Early and Periodic Screening, Diagnosis and Treatment (EPSDT) benefit as defined in California Code of Regulations section 1810.215. TBS are intensive, one-to-one services designed to help beneficiaries and their parents/caregivers manage specific behaviors using short-term measurable goals based on the beneficiary's needs.
