C.E.O. RECOMMENDATION: Approve

BACKGROUND:

Summary

RUHS requests the Board to ratify and approve the amendments to the contracts with the medical clinics to increase the dollars. Board approval would continue the established practice of contracting for clinic services for qualifying indigent county residents who live in areas remote from standard RUHS clinics.

Indigent county residents are often unable to afford or arrange transportation to RUHS's network of clinics and dentists. Providing additional service locations via a contract increases the likelihood that indigent individuals will seek primary healthcare. This approach improves population health and decreases the additional costly use of emergency rooms and hospital stays.

The total costs for these contracted services decreased dramatically in 2014 with the expansion of Medi-Cal under the Affordable Care Act. However, some county residents still remain ineligible for Medi-Cal coverage.

Impact on Residents and Businesses

This contract network allows indigent county residents to access clinic and dental care if they reside outside of RUHS clinics and improve indigent population health, and minimize costly hospitalization

Additional Fiscal Information

The county reimburses the clinics for outpatient medical services rendered to eligible persons at the lesser of billed chargers or eighty dollars (\$80) per visit. The amended maximum contract amounts will be as follows:

Borrego Health Foundation	\$703,920
Clinicas de Salud del Pueblo, Inc.	\$205,000
Neighborhood Healthcare	\$ 55,000

Contract History and Price Reasonableness

On December 6, 2016 Agenda Item # 3.32, the Board approved the agreements with Borrego Community Health Foundation, Clinicas de Salud del Pueblo, Inc., and Neighborhood Healthcare for one year, with the option to renew for four (4) additional years in one-year increments, for a combined total amount of \$166,000. Prior to 2016-2017, clinic reimbursement rates were \$70 per visit. The contracts allowed for a modest increase of \$10 per visit. The contracts established a defined payment protocol and benefit set for clinical services provided to indigent residents who are eligible for the Medically Indigent Service Program (MISP). It is expected that these contracts will facilitate consistent primary care, improve indigent population health, and reduce costly emergency room visits and hospital stays. The MISP claims department consistently devises solutions for cost savings. Currently, the MISP claims department is using the State of California Medi-Cal formulary for claims reimbursement and, when applicable, will utilize other payment schedules for cost savings.
