**BACKGROUND:**

**Summary**

The Transportation Improvement Program (TIP) provides for the construction of the Mitchell Road Resurfacing Project from Bautista Road to Kirby Road, approximately 3 miles; and Bautista Road Resurfacing Project, from State Route 371 to Mitchell Road, approximately 1 mile, in the Community of Anza.

Two projects are being combined to bid as one project in order to gain efficiencies by eliminating multiple bidding and administrative procedures, and to seek more favorable bids associated with larger bid quantities.

Roadway resurfacing is needed due to deteriorated pavement conditions at Mitchell Road and Bautista Road. The proposed resurfacing consists of grinding existing pavement, re-grading, compacting the grindings, and placement of new Hot Mix Asphalt.

Additional improvements include reconstruction of concrete cross gutters, spandrels, curb, asphalt concrete dike, installation of traffic striping, thermoplastic pavement markings, installation of traffic signs, and other associated work.

On April 28, 2017, Senate Bill 1 (SB1) was passed to improve the state's aging transportation infrastructure, particularly roads and bridges. Because of this, the County is now able to improve the condition of roads in need of resurfacing or reconstruction and has included them in the County Transportation Improvement Program (TIP). Mitchell Road and Bautista Road resurfacing projects are two of Riverside County's projects approved for use of the new Gas Tax/SB-1 funds. Without SB1 this needed road repair project would have been shelved until funding became available.

The submitted plans and specifications have been approved as to form by County Counsel.

The bid documents include the following bid schedules of work:

Base Bid Schedule 1: Mitchell Road Resurfacing Project

**SUBMITTAL TO THE BOARD OF SUPERVISORS COUNTY OF RIVERSIDE,  
STATE OF CALIFORNIA**

Base Bid Schedule 2:       Bautista Road Resurfacing Project

The Transportation Department will select the contractor based upon the lowest responsive and responsible bid of the sum of all bid schedules.

Project No.    B7-0665, Mitchell Road Resurfacing Project  
                  C7-0017, Bautista Road Resurfacing Project

**Environmental Findings**

The County Transportation Department is requesting that the Board approve the Notice of Exemption which documents that the project consists of the maintenance, repair and minor alteration of an existing public facility and is exempt under Section 15301 (c) of the CEQA Guidelines.

**Impact on Citizens and Businesses**

The purpose of this project is to rehabilitate deteriorated segments of Mitchell Road and Bautista Road, totaling approximately 4 miles, to provide the public with a smooth paved roadway that will improve the safety and efficiency of vehicular traffic.

The work is scheduled to begin in fall of 2018, and will be phased to keep the road open during construction as much as possible and will take approximately two months to complete.

**SUPPLEMENTAL:**

**Additional Fiscal Information**

The construction contract is estimated to cost approximately \$2,121,180 and will be funded with Gas Tax/SB-1 funds.

There are no General Funds used in this project.

**PROJECT TITLE:** Bautista Road Resurfacing Project  
Work Order #C70017, Task Code #Z1530

**PROJECT SPONSOR:** Riverside County Transportation Department

**PROJECT LOCATION:** The Community of Anza

**SUPERVISORIAL DISTRICT:** 3<sup>rd</sup>

**PROJECT DESCRIPTION:** The Riverside County Transportation Department (RCTD) proposes to resurface approximately 1 mile of Bautista Road from State Route 371 to Mitchell Road. Bautista Road is classified as a collector in the County of Riverside's General Plan. Bautista Road currently ranges from 24-54 feet in width with dike at various locations. The proposed project will include pulverizing the roadway width and overlaying the pulverized material with Hot Mix Asphalt (HMA). The project will also include the following:

- Construction of asphalt concrete and aprons/tie-ins at various gravel side streets
- Reconstruction of concrete cross gutter, spandrel, curb, and asphalt concrete dike
- Placement of safety edge and shoulder backing
- Striping of roadway, including pavement markers and reflectors
- Salvage/removal and installation of new signs

**ENVIRONMENTAL ANALYSIS:**

The proposed project does not require additional right of way nor temporary construction easements. The project will raise the profile of the roadway by 0.35 feet.

This project is subject to compliance with the Western Riverside County MSHCP. In accordance with Section 7.1 of the Western Riverside County MSHCP, necessary operation and maintenance along existing roadways are considered a covered activity outside cell criteria areas. This project is considered to be a safety improvement project under operation and maintenance and therefore is a covered activity. The project will comply with MSHCP construction guidelines and BMP's.

The Riverside County Transportation Department staff conducted a review of the above referenced project and has determined that the proposal qualifies for a Categorical Exemption per the California Environmental Quality Act (CEQA) Guidelines.

**The Riverside County Transportation Department has found that the above-described project is exempt from the provisions of the California Environmental Quality Act (CEQA), based on the following:**

**Section 15301 (c) – Existing Facilities** – The project proposes to resurface Bautista Road. This minor improvement to the existing roadway involves negligible or no expansion of use and is exempt from CEQA under Section 15301 (c). The improvements are consistent with Section 15301(c) because the project is repair and maintenance of an existing road and associated facilities.
