BACKGROUND:

Summary

The Cranston Fire began Wednesday, July 25, 2018, near the mountain communities of Idyllwild and Mountain Center and burned more than 13,000 acres. Conditions of extreme peril to people, property and critical infrastructure necessitated the mandatory evacuation of the area during the fire. The Director of Emergency Services proclaimed that a "Local Emergency" exists in Riverside County, which was ratified by the Board of Supervisors at their meeting of July 31, 2018.

It is requested that the Board of Supervisors adopt Resolution No. 2018-202 to extend the Proclamation of Local Emergency. The vast burn areas left by the Cranston Fire leave Riverside County residents and visitors threatened by flooding and debris flows. Monsoonal storms over the burn area(s) have already led to post fire flash flood warnings issued by the National Weather Service, resulting in evacuations and road closures. This is a pattern that will be repeated when storms occur over the area(s).

Impact on Residents and Businesses

The residents and businesses of the San Jacinto mountain communities will be negatively impacted if stabilization measures are not taken to protect the community. The extension of the Emergency Proclamation provides access to necessary resources to accomplish this goal.
