BACKGROUND:

Summary

The Holy Fire began Monday afternoon, August 6, 2018, in the Cleveland National Forest and quickly moved from Orange County into Riverside County. Conditions of extreme peril to people, property and critical infrastructure necessitated the mandatory evacuation of several communities near Lake Elsinore and Temescal Valley. The Director of Emergency Services proclaimed a "Local Emergency" in Riverside County on August 9, 2018. The Board of Supervisors adopted Resolution No. 2018-170 in a special meeting on August 16, 2018, to ratify the Proclamation of Local Emergency as declared by the Director of Emergency Services.

It is requested that the Board of Supervisors adopt Resolution No. 2018-188 to extend the Proclamation of Local Emergency. The vast burn area left by the Holy Fire leaves Riverside County residents and visitors threatened by flooding and debris flows when rain occurs, leading to flash flood warnings, possible evacuations and road closures.

Impact on Residents and Businesses

More than 20,000 residents were impacted by the fire, having to evacuate the area. The fire and aftermath will necessitate resources from both State and local entities. The area will be negatively impacted if stabilization measures are not taken to protect the community. The extension of the Proclamation of Local Emergency provides access to necessary resources to accomplish this goal.
