C.E.O. RECOMMENDATION: Approve

BACKGROUND:

Summary

The Holy Fire began Monday afternoon, August 6, 2018, in the Cleveland National Forest and quickly moved from Orange County into Riverside County. Conditions of extreme peril to people, property and critical infrastructure necessitated the mandatory evacuation of several communities near Lake Elsinore and Temescal Valley.

Due to the effects of the Holy Fire, Governor Edmund G. Brown Jr. issued an emergency proclamation for Orange and Riverside Counties on August 9, 2018. Pursuant to Riverside County Ordinance No. 533, the Riverside County Director of Emergency Services proclaimed a "Local Emergency" in Riverside County on August 9, 2018. The Riverside County Board of Supervisors adopted Resolution No. 2018-170 in a special meeting on August 16, 2018 (Agenda Item No. 1.0) to ratify the Proclamation of Local Emergency as declared by the Riverside County Director of Emergency Services.

On September 11, 2018 (Agenda Item No. 3.18), the Riverside County Board of Supervisors adopted Resolution No. 2018-180 to extend the Proclamation of Local Emergency for the Holy Fire. The vast burn area left by the Holy Fire leaves Riverside County residents and visitors threatened by flooding and debris flows when rain occurs.

In early October, with Hurricane Rosa forecasted to bring scattered thunderstorms to the region and the significant risk of mud and debris flows in the Holy Fire burn area, the Riverside County Flood Control and Water Conservation District's (District) General Manager-Chief Engineer found that the emergency will not permit a delay in the implementation of the Emergency Projects resulting from a competitive solicitation for bids in accordance with California Contract Code Section 22050 and the District's Resolution No. F94-39. KEC Engineering and KIP Incorporated were brought in on an emergency basis to protect existing District facilities in the areas of Temescal Valley in unincorporated western Riverside County and Lake Elsinore.

On October 16, 2018 (Agenda Item No. 11.2), the Board of Supervisors received and filed the Emergency Protection Agreements for storm/flood emergency contract work on the Emergency Projects in the areas of Temescal Valley in unincorporated western Riverside County and Lake Elsinore. The Board also authorized the use of District funds in the amount of \$1,500,000 for

COUNTY OF RIVERSIDE, STATE OF CALIFORNIA**

the storm/flood emergency contract work done as a part of the Emergency Projects by KEC Engineering and KIP Incorporated.

On October 23, 2018 (Agenda Item 3.22), the Riverside County Board of Supervisors adopted Resolution No. 2018-188 extending the Proclamation of Local Emergency for the Holy Fire. The vast burn area left by the Holy Fire continues to leave Riverside County residents and visitors threatened by flooding and debris flows when rain occurs.

It is requested that the Board of Supervisors review and determine there is a need to continue the emergency action and continue the implementation of the Emergency Projects in the areas of Temescal Valley in unincorporated western Riverside County and Lake Elsinore for storm/flood emergency contract work by KEC Engineering and KIP Incorporated, including any all necessary cleanup. The vast burn areas left by the Holy Fire leave Riverside County residents and visitors threatened by flooding and debris flows. Monsoonal storms over the burn areas have already led to post fire flash flood warnings issued by the National Weather Service. This is a pattern that will be repeated when storms occur over the areas.

Prev. Agn. Ref.: MT#8249 3.22 of 10/23/18
MT#8183 11.2 of 10/16/18
MT#7947 3.18 of 09/11/18
1.0 of 08/16/18
9.4 of 11/22/94

Impact on Residents and Businesses

More than 20,000 residents were impacted by the fire, having to evacuate the area. While the fire was 100% contained on September 13, 2018, the conditions in the burn areas of the fire have left the adjacent communities vulnerable to mud and debris flows and flooding during rain storms. In the event of a rain storm, the area may be negatively impacted if these measures are not taken to protect the communities.

SUPPLEMENTAL:

Additional Fiscal Information

The District budgets for flood emergencies and/or unexpected contingencies to minimize risks to life and property. Sufficient funds are available in the District's Zone 2 and Zone 3 budget for FY 2018-2019.
