C.E.O. RECOMMENDATION: Approve

BACKGROUND:

Summary

This Project will improve the existing earthen channel to ultimate capacity and construct new underground storm drains totaling two miles in length. Once completed, the Project will reduce flooding in the area, remove the floodplain between Second and Fourth Streets east of Corona Avenue, provide improved access to Norco Intermediate School and Norco High School during storm events, and serve as the backbone for future storm drain facilities to connect to once they are built. See attached project description and location map.

The contract documents have been approved as to form by County Counsel. A brief project description and location map is attached.

On March 13, 2018, Minute Order 11.1 (MT#4034), the Board approved the Amended and Restated Cooperative Funding Agreement between the District and the City of Norco (City) to include certain waterline relocation design plans and detailed specifications as prepared by the City. The City shall reimburse the District 100% for all waterline relocation costs.

On March 7, 2017, Minute Order 11.1 (MT#1817), the Board approved the Cooperative Agreement between the District and the Western Municipal Water District (WMWD) for the Project. The Cooperative Agreement sets forth the terms and conditions by which the District and WMWD have agreed upon on the design, construction, maintenance, and funding of the relocation of a 30-inch waterline necessary for the construction of the Project.

On January 5, 2016 (Minute Order 11.4), the Board adopted an Initial Study/Mitigated Negative Declaration for the Project and determined that the impacts would be less than significant with mitigation. The Board also adopted a Mitigation Monitoring and Reporting Plan. No further CEQA action is required.

Impact on Residents and Businesses

**SUBMITTAL TO THE FLOOD CONTROL AND WATER CONSERVATION DISTRICT BOARD
OF SUPERVISORS
COUNTY OF RIVERSIDE, STATE OF CALIFORNIA**

Improved flood protection and public safety in the project vicinity.

Additional Fiscal Information

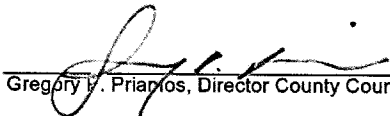

The Project contemplated in this Form 11 merely approves the Plans and Specifications and Contract Documents identifying the proposed work, as well as authorizes the Clerk of the Board to advertise said contract documents. No expenses will be incurred as a result of this action.

Contract History and Price Reasonableness

The engineer's estimate for this Project is \$8,362,368, and the action today, if approved, will authorize the District to pursue competitive bids through the California Public Works Contract Process. The District will then return to the Board of Supervisors to seek approval to award the contract to the lowest responsive bidder.
