BACKGROUND:

Summary

In February 2008, the Riverside area was awarded the designation of an Urban Area Security Initiative by the U.S. Department of Homeland Security. The Riverside UASI's jurisdiction includes the cities of Riverside, San Bernardino and Ontario, as well as the Counties of Riverside and San Bernardino. The UASI program provides financial assistance to address the unique multi-disciplinary planning, operations, equipment, training and exercise needs of high-threat, high density urban areas, and to assist the areas in building and sustaining capabilities to prevent, protect against, respond to, and recover from threats or acts of terrorism and weapons of mass destruction. Beginning in October 2008, the California Governor's Office of Emergency Services has provided UASI grant funding through the Homeland Security Grant Program. The Sheriff's Department previously received subawards from the City of Riverside Office of Emergency Management/UASI in March 2009 (3/17/09 Board Agenda Item # 3.63) for \$15,000 and an augmentation of \$17,000 in March, 2011 (3/29/11 Board Agenda Item # 3.33) for the Department's Hazardous Device Team to enhance regional preparedness and expand Improvised Explosive Device (IED) mitigation collaboration efforts within the region. In November 2015, the Sheriff's Department received a subaward of \$56,000 (1/6/16 Board Agenda Item #3-12) which was used to refurbish two existing Remotely Operated Vehicle (ROV) Systems, known as "bomb robots". Refurbishments and purchase of video upgrades extended the operational lifespan of existing robots up to ten additional years, saving the County approximately \$250,000 by delaying the purchase of new, replacement bomb robots.

On January 17, 2019, the Riverside County Sheriff's Department's Hazardous Device Team (HDT) received a UASI FY18 subaward from the City of Riverside Office of Emergency Management/UASI in the amount of \$350,000. The grant performance period is September 1, 2018 through May 31, 2021. UASI FY18 grant funds will be used to purchase a CBRNE

STATE OF CALIFORNIA**

(Chemical, Biological, Radiological, Nuclear, Explosives) Tactical Response Vehicle, which will be used to transport bomb technicians and robotics responding to in-progress critical events (active shooter/bomber, armed barricades, acts of terrorism, etc.). The CBRNE Tactical Response Vehicle will provide crucial ballistic protection (not currently available) to both responding operators and robotics from fragmentation hazards (explosions) and gunfire, while allowing technicians to operate logistically closer to the hazard zone with optimum communication (conserving operational battery life and achieving uninterrupted command signals between operators and robotics). Sheriff's HDT (whose members are FBI-certified Bomb Technicians/ HAZMAT Specialists; CA POST-certified SWAT Operators) will use the CBRNE Tactical Response Vehicle to transport vital response personnel and equipment into life-threatening, crisis mitigation zones in shorter response times, greater effective outcomes, and increased hazards protection (to humans & robotics) – benefitting the Riverside County Operational Area, and supporting regional partner agencies in fulfillment of existing mutual aid agreements.

County Counsel has approved the documents as to form.

Impact on Residents and Businesses

UASI FY18 grant funds used for the purchase of a CBRNE Tactical Response Vehicle will allow the Sheriff's Hazardous Device Team and SWAT to respond to catastrophic, life-threatening incidents (including acts of violence/terrorism) more quickly, as technicians will be able to operate deeper into the hazard zone (closer to the hazard source) than current capabilities allow, addressing the threat/source more direct. This will be possible with the ballistics protection capability of the CBRNE Tactical Response Vehicle, which will protect both the officer-operators, the robotic interceptors, and the technology being relied upon for a unified response in the intervention and protection of life.
