

SUBMITTAL TO THE BOARD OF SUPERVISORS  
COUNTY OF RIVERSIDE, STATE OF CALIFORNIA

ITEM  
19.5  
(ID # 9769)

MEETING DATE:

Tuesday, May 21, 2019

FROM : DEPARTMENT OF WASTE RESOURCES:

SUBJECT: DEPARTMENT OF WASTE RESOURCES: Public Hearing for Adoption of Ordinance 779.20, Amending Ordinance 779, Relating to County Solid Waste Facilities and Establishing Fees, All Districts. [\$0] (CEQA Exempt)

RECOMMENDED MOTION: That the Board of Supervisors:

1. Find that the Project is exempt from the California Environmental Quality Act (CEQA) pursuant to State CEQA Guidelines Section 15273 (Rates, Tolls, Fares, and Charges), and Section 15061(b)(3) (General Rule for Exemption);
2. Adopt Ordinance 779.20 at the close of the public hearing on May 21, 2019, with changes to the appendices to be effective July 1, 2019;
3. Direct the Clerk of the Board to publish Ordinance No. 779.20 pursuant to Government Code Section 25124 within fifteen days of adoption by the Board; and
4. Direct the Department of Waste Resources (Department) to file the Notice of Exemption (NOE) with the County Clerk upon approval of the Project.

ACTION: Policy

Hans Kemkamp, General Manager - Chief Engineer 5/1/2019

---

MINUTES OF THE BOARD OF SUPERVISORS

On motion of Supervisor Jeffries, seconded by Supervisor Spiegel and duly carried by unanimous vote, IT WAS ORDERED that the above matter is approved as recommended and that Ordinance 779.20 is adopted with waiver of the reading.

Ayes: Jeffries, Spiegel, Washington, Perez and Hewitt  
Nays: None  
Absent: None  
Date: May 21, 2019  
xc: Waste, MC, COB

Kecia Harper  
Clerk of the Board  
By:   
Deputy

**C.E.O. RECOMMENDATION:** Approve

**BACKGROUND:**

**Summary**

In addition to establishing fees and penalties, Ordinance No. 779 includes the basis for operations regulations including waste inspection, salvaging and safety. In order to verify that the current refuse rates are appropriate to offset expenses, the Department prudently reviews its operations annually and forecasts capital improvements, expansion projects, and future expenses and liabilities with a projection of 20 years. Since revenue from in-county tonnage delivered to the landfills represents the majority of the Enterprise Fund's total revenue, it is important to accurately project future tonnage growth or decline. In the last six years, tonnage has increased slightly by an average of 4% annually. Based on tonnage totals through the first six months of FY 18/19, the Department projects that tonnage totals continue to stabilize or slightly decrease due to stricter regulatory compliance requirements and increased fees. The Department is limited to annual Consumer Price Index (CPI) increases for all of its long-term, contracted transfer station hauler and contract franchise area hauler agreements. These contracts represent approximately 90% of the in-county tonnage accepted at the landfills in FY 18/19. The Department proposes to increase landfill disposal fees by the percentage change in CPI for the new Riverside-San Bernardino-Ontario index for the 12 month period ending January 2019, which is calculated to be 3.05%. Minimum load fees will remain at current year levels and are not recommended for an increase in FY 19/20.

The Department also intends to apply the same rates paid to the approved Household Hazardous Waste Contractor which includes a CPI rate increase effective February 26, 2020. The Department will continue to include a Departmental Overhead Rate of 49% to Basic Hourly Rates for Hazardous Waste Inspection staff involved in managing this waste stream as referenced in Appendix D.

The Department will continue to subsidize tire disposal costs for residential customers at the current rate of \$2.00 per tire. Due to permit restrictions that limit the number of tires that may be stored on site, combined with an effort to promote tire recycling versus disposal, the Department proposes to eliminate the per ton rate for tires. In addition, the Department proposes to reduce the allowable per tire limit from 9 tires per day per customer to 5 tires per day per customer and will no longer accept any oversized/commercial vehicle tires (weight greater than 200 pounds, or over 4 feet in diameter). The Department will continue to provide other outlets for tire disposal including tire amnesty and community clean-up events. Additionally, the Department

**SUBMITTAL TO THE BOARD OF SUPERVISORS COUNTY OF RIVERSIDE,  
STATE OF CALIFORNIA**

proposes to fully absorb tire disposal costs for other County agencies (Code Enforcement, Regional Park and Open-Space District, Flood Control District, etc.) involved in the collection of illegally dumped tires.

The Department continues to pilot the operation of a Materials Reuse Store at the Lamb Canyon Landfill. The program will divert recyclable waste streams for reuse. Until full program costs are defined, the Department proposes to charge fees consistent with the value of these commodities. Proposed rates are based on commodity pricing received by the Department in CY 2018, plus a \$6.20 per item surcharge for staff time involved in sorting, inspecting and storing material for sale. The Department will continue to pilot the operation of a Materials Reuse program to identify additional program costs.

In FY 17/18, the Department began to gradually increase the rate for processed green waste used as Alternative Daily Cover (ADC) to equal the disposal rate between now and FY 20/21. In the 1990's after passage of AB 939, the Department began using processed green waste as ADC which allowed for jurisdictions to report this tonnage as diverted waste. This practice also helped to extend the life of landfills because the landfill space that would have otherwise been consumed by clean fill dirt was now occupied by the processed green waste that was previously part of the landfilled waste stream. The Department offered discounted fees to create incentives for landfill users to deliver processed green waste that could be used as ADC. At that time, the Department accepted processed green waste for the purpose of ADC at no charge. In 2009, at the urging of private composting operators, the Department began charging \$10.00/ton for this material in an effort to direct this material to private composting facilities. To reduce the amount of organics being landfilled, the State recently passed into law AB 1826, requiring businesses to begin diverting organics. The State also passed into law AB 1594, which will preclude jurisdictions from counting green waste used as ADC as diverted tonnage when calculating their AB 939 per capita diversion amount. Assembly Bill 1594 will eliminate the diversion benefit that currently exists by 2020 and ADC placed in the landfill will be constituted as disposal. Currently the Department accepts processed green waste for beneficial reuse (erosion control) or ADC at below market rate for a tip fee of \$24.00/ton. This rate is significantly below fees charged by composting facilities in Riverside County as shown:

| <b>Description</b> | <b>Riverside County</b> | <b>Coachella Valley Composting</b> | <b>Edom Hill Transfer Station</b> | <b>Robert A. Nelson Transfer Station</b> |
|--------------------|-------------------------|------------------------------------|-----------------------------------|--|
| Green Waste        |                         |                                    |                                   |  |
| Processed          | \$24.00                 | \$38.00                            | \$40.00                           | \$49.50                                  |
| Unprocessed        | \$49.31                 | \$38.00                            | \$40.00                           | \$49.50                                  |

The Department is proposing to increase the rate for processed green waste, used as ADC, from \$24/ton to \$32/ton, in a continuing effort to gradually align the rate with the disposal rate. While the use of ADC in the landfill system has been significantly reduced over the last several

**SUBMITTAL TO THE BOARD OF SUPERVISORS COUNTY OF RIVERSIDE,  
STATE OF CALIFORNIA**

years due to the increased use of tarps to cover waste (only 10,722 tons in 2018), any additional revenue generated by the proposed increase will be allocated to the Department's ongoing advancement of organics processing within Riverside County. Processed green waste used as erosion control at the landfills will continue to be charged at the \$10.00 per ton rate for the foreseeable future, as it provides a beneficial use to the landfill system.

Appendix A – Waste Disposal Fees proposed rates changes are as follows:

|--------------|---------|--------|-----|

**Prev. Agn. Ref.:** M.O. 12.1 of 04/30/2019

**CEQA Findings**

The Project is exempt from CEQA pursuant to State CEQA Guidelines Section 15061(b)(3) (General Rule for Exemption), as it can be seen with certainty that there is no possibility that this Project would have a direct, indirect, or cumulatively significant effect on the environment; therefore, the activity is exempt under CEQA. Furthermore, pursuant to State CEQA Guidelines, Section 15273 (Rates, Tolls, Fares, and Charges), the Project is found to be statutorily exempt from CEQA, because the proposed changes are for the purpose of:

- Meeting operating expense, including employee wage rates and fringe benefits;
- Purchasing or leasing supplies, equipment, or materials;
- Meeting financial reserve needs and requirements; and
- Obtaining funds for existing capital projects, necessary to maintain service within existing service areas.

A NOE to this effect will be filed with the County Clerk upon adoption of Ordinance 779.20.

**Impact on Residents and Businesses**

Waste Disposal Fees are reviewed annually, and are subject to CPI adjustment which for this period is 3.05%. Modest fee increases are needed in order to offset impacts due to inflationary factors while meeting the need for capital improvements, and expansion projects, which allow for the continued protection of the general public health and welfare by efficient management of Riverside County's solid waste system. The proposed Waste Disposal Fees charged under Ordinance No. 779.20 are the lowest in the southern California region, and the Department does not anticipate an increase in illegal dumping, nor impacts to residents or businesses.

**ATTACHMENTS**

- Attachment A.** Ordinance No. 779.20, Inclusive of Appendices A-D and Exhibit 1  
**Attachment B.** NOE 19-05

ORDINANCE NO. 779.20

AN ORDINANCE OF THE COUNTY OF RIVERSIDE  
AMENDING ORDINANCE NO. 779 RELATING TO  
COUNTY SOLID WASTE FACILITIES AND ESTABLISHING FEES

The Board of Supervisors of the County of Riverside ordains as follows:

Section 1. Ordinance No. 779 is amended in its entirety to read as follows:

“ORDINANCE NO. 779

AN ORDINANCE OF THE COUNTY OF RIVERSIDE  
RELATING TO COUNTY SOLID WASTE FACILITIES AND ESTABLISHING FEES

The Board of Supervisors of the County of Riverside ordains as follows:

Section 1. DEFINITIONS. The words used in this ordinance shall have the same meaning as the words as the definitions provided in Public Resources Code 40100 et. seq., and as they may be amended from time to time.

Section 2. ESTABLISHMENT OF SITES. Subject to control of the Board of Supervisors, the General Manager-Chief Engineer of the Department of Waste Resources may designate and operate or control by contract County owned, leased, or contracted sites for public transfer, processing or disposal of solid waste.

Section 3. REFUSE FROM OUTSIDE OF COUNTY. Unless so authorized in writing by the General Manager-Chief Engineer of the Department of Waste Resources or his designated representative, under general policies adopted by the Board, no person shall place, deposit, or dump, or cause to be placed, deposited, or dumped, in or upon any County owned, leased, or contracted transfer station or disposal site in the County, any solid waste originating outside of the County of Riverside, provided however, the General Manager-Chief Engineer of the Department of Waste Resources has

1 discretion to accept incidental amounts of refuse from outside of Riverside County and near County  
2 borders for disposal at County landfills when payment is made according to Appendix A for such  
3 incidental refuse.

4 Section 4. REGULATIONS. All County owned leased, or contracted transfer stations and  
5 disposal sites in the County should be under the supervision of the General Manager-Chief Engineer of the  
6 Department of Waste Resources who shall have the power and the duty to prescribe reasonable  
7 regulations regulating the use by the public and the operation of such sites. Such rules shall include, but  
8 need not be limited to, the following subjects:

- 9 a. Days and hours of use.
- 10 b. Charges for use of sites at times other than regular hours, which shall be sufficient to  
11 reimburse the County for equipment, personnel and overhead costs.
- 12 c. Maximum size of articles and objects dumped.
- 13 d. Allocation of various types of waste to specific sites and the placement of waste  
14 within any site.
- 15 e. Prohibition or conditional acceptance of harmful, dangerous or difficult to  
16 handle materials, if allowed under the state operating permit, including a reasonable  
17 charge for their acceptance, unique handling requirements or assured destruction.
- 18 f. Prohibition of persons from entering the site for reasons including, but not limited  
19 to: unauthorized salvaging of waste and recyclables, attempting to dispose of  
20 hazardous waste, loitering, intoxication and other forms of conduct that reduce  
21 operational efficiencies and/or increase risk of injury to Department employees  
22 and the public.

23 Except for short-term emergencies, any regulation fixing days or hours of operation shall  
24 be submitted to the Board of Supervisors for approval before taking effect. All regulations prescribed  
25 by the General Manager-Chief Engineer of the Department of Waste Resources shall be filed in his or her  
26 office and shall be available for public inspection.

27 Section 5. HAZARDOUS WASTE LOAD CHECKING PROGRAM. All landfills and  
28 transfer stations in the County shall implement and maintain a hazardous waste load checking program at

1 each of their solid waste facilities as required by California law (pursuant to Titles 14 and 27, California  
2 Code of Regulations); and which program shall also meet the minimum requirements outlined in this  
3 ordinance.

4 a. Each solid waste facility operator shall perform random load checks across all  
5 load types including self-haul residential, business and industrial waste loads,  
6 franchise hauler waste loads (including residential, commercial and industrial) to  
7 detect hazardous waste before such incoming waste is transferred to, and/or  
8 disposed at, the landfill. Such program shall have the objectives of: 1)  
9 preventing hazardous waste from being placed in a landfill not permitted to  
10 receive such waste and 2) educating and discouraging both facility self-haul  
11 customers and franchise waste hauler customers from bringing or sending in  
12 such material. The minimum number of load checks performed at each solid  
13 waste facility shall comply with the following schedule:

14 Landfill/Transfer Station Random Load Check Schedule

| 15 Average Daily Tonnage  | Random Samples per Day |
|---------------------------|------------------------|
| 16 0 to 100 tons/day      | **                     |
| 17 101 to 600 tons/day    | 6*                     |
| 18 601 to 1,000+ tons/day | 10*                    |

19 \* The initial schedule is for a minimum number of "Random Samples per  
20 Day" for a minimum of three rotating days per week so arriving customers will not  
21 know when there will be an inspection.. If a problem persists with large  
22 quantities of hazardous waste being found at the landfill or transfer station, the  
23 Enforcement Agency or the General Manager-Chief Engineer of the Department  
24 of Waste Resources may require the number of "Random Samples per Day" to  
25 be applied every day the solid waste facility is open until the problem is deemed  
26 corrected.

27 \*\*Minimum of 6 samples per week – may all be performed on the  
28 same day

1           b.     An inspection form (which shall be certified for completeness and accuracy by the  
2                   load check inspector on duty) shall be filled out in its entirety at the time of each  
3                   load check performed at the solid waste facility. The inspection form shall  
4                   include the following information, to be filled out at the time of inspection:

- 5                   1)     Date and time of inspection
- 6                   2)     Load check inspector name, (certification)
- 7                   3)     Load type (residential, commercial, industrial)
- 8                   4)     Hauler/company name/customer name
- 9                   5)     Driver name
- 10                  6)     Vehicle type (e.g. Hand Unload, Dump Truck, Side Loader, Front End  
11                   Loader, or Roll Off)
- 12                  7)     License plate number
- 13                  8)     Whether or not the load contained prohibited waste

14           c.     When prohibited waste is found, forms shall include the following:

- 15                  1)     Load origin (jurisdiction or route number for side loaders and front end  
16                   loader vehicles, customer/store name and address where picked up for  
17                   all other vehicle types)
- 18                  2)     Hazardous waste found (type/name, class, container size/quantity,  
19                   volume/weight, unit of gallons or pounds)
- 20                  3)     Disposition of material (e.g. picked up by responsible party, returned  
21                   with customer at time of inspection, solid waste facility assumed  
22                   responsibility of the material, etc.)

23           d.     Management shall review completed forms at a frequency sufficient to ensure  
24                   forms are filled out completely and correctly.

25           e.     The General Manager-Chief Engineer of the Department of Waste Resources or  
26                   his designated representative and/or a representative of the Enforcement  
27                   Agency shall have the right to enter the solid waste facilities at any time to  
28                   audit their load check program's compliance with these standards. These

1 audits shall be limited to four times in any 12 month period and may include  
2 three days in which Department of Waste Resources personnel perform load  
3 checks at the facility and one day in which Department of Waste Resources  
4 staff review the facility's written load check program, hazardous waste and  
5 universal waste shipping records, facility personnel training records, hazardous  
6 waste storage areas, and load checking procedures in order to audit the solid  
7 waste facility load checking program and/or assist the operator in making its load  
8 checking program successful.

9 Section 6. SALVAGE OPERATIONS. Subject to the approval of the Board of  
10 Supervisors, salvage operations of reusable waste materials at all County owned, leased, or  
11 contracted transfer stations and disposal sites in the County may be conducted only by such persons as  
12 are authorized to do so and upon such terms and conditions as are imposed by the General Manager-Chief  
13 Engineer of the Department of Waste Resources.

14 Section 7. FEES.

- 15 a. Tipping Fees at Scaled Urban Sites: Pursuant to the authority of Government  
16 Code Section 25823, fees for the disposal of solid waste and disposal of liquid  
17 waste at enumerated landfills shall be as established by the Board of  
18 Supervisors following a duly noticed public hearing. The fees so established shall  
19 be in an amount sufficient to cover all costs including but not limited to the  
20 following: closure/postclosure (including past unfunded costs), remediation,  
21 environmental mitigation, state mandated and other pass-through fees, and general  
22 operations. Such fees and the landfills to which they shall apply appear as  
23 Appendix A to this Ordinance. The Board of Supervisors may establish  
24 different rates through contractual agreements when the terms of said agreements  
25 help stabilize revenues and system rates over a long-term period.
- 26 b. Fees for Disposal at Rural Sites: Pursuant to the authority of Government Code  
27 Section 25823, fees for the disposal of solid waste at landfills and transfer stations,  
28 formerly in a land use assessment area, shall be as established by the Board of

1 Supervisors following a duly noticed public hearing. The fees so established shall  
2 be calculated to recover a fair share of the estimated costs for these facilities.  
3 Cards permitting entrance into these landfills and transfer stations shall be offered  
4 for sale to residents and businesses (only in the local areas surrounding these sites  
5 as shown on maps in Exhibit 1) at rates set by the Board of Supervisors. No  
6 access to these facilities will be allowed without a card, except in cases where  
7 permitted waste haulers or other large commercial users have negotiated separate  
8 contracts with the County. Waste from outside these areas shall not be accepted at the  
9 rural sites providing, however, waste from unincorporated areas outside of, but near  
10 the borders of these service areas may be accepted under the same terms and  
11 conditions herein set forth, if it is determined by the General Manager-Chief  
12 Engineer of the Department of Waste Resources that this is the most practical  
13 way to provide disposal service to these customers. Such rates and the landfills  
14 and transfer stations to which they apply shall appear in Appendices B and C to  
15 this Ordinance.

16 c. Miscellaneous Fees. A schedule of miscellaneous fees is attached as Appendix D.

17 Section 8. PROHIBITIONS. No person shall violate any regulation prescribed by the  
18 General Manager-Chief Engineer of the Department of Waste Resources regulating the use of a County  
19 disposal site or transfer station, or fail to obey any sign giving notice of any regulation, maintained at any  
20 such site or facility by the General Manager-Chief Engineer of the Department of Waste Resources.  
21 Violation of any such regulation shall be a violation of this Ordinance.

22 Section 9. VIOLATIONS AND PENALTIES. The General Manager-Chief Engineer of  
23 the Department of Waste Resources reserves the right to deny entrance to an individual for an appropriate  
24 time span when said individual is deemed to pose a safety risk and/or is disruptive to the normal  
25 workflow of the landfill or transfer station operations. A letter of notification specifying the dates and  
26 location(s) of restriction will be mailed to the individual and be on hand at the gate fee booth(s).

27 It shall be unlawful for any person to violate any provision of this Ordinance. Any person violating  
28 any provision of this Ordinance may be deemed guilty of an infraction or misdemeanor as

1 hereinafter specified. Such persons shall be deemed guilty of a separate offense for each day, or  
2 portion thereof, during which any violation of any of the provisions of this Ordinance is committed or  
3 continued. Any person so convicted shall be: (1) guilty of an infraction offense and punished by a fine not  
4 exceeding One Hundred dollars (\$100.00) for a first violation; (2) guilty of an infraction offense and  
5 punished by a fine not exceeding Two Hundred dollars (\$200.00) for a second violation. The third and any  
6 additional violations shall constitute a misdemeanor offense and shall be punishable by a fine not  
7 exceeding Five Hundred dollars (\$500.00). Notwithstanding the above, a first offense may be  
8 charged and prosecuted as a misdemeanor. Payment of any penalty herein shall not relieve a person from  
9 the responsibility for correcting the violation.

10 Section 10. SEVERABILITY. If any provision, clause, sentence or paragraph of this  
11 Ordinance (including its appendices) or the application thereof to any person or circumstances shall be held  
12 invalid, such invalidity shall not affect the other provisions or applications of the provisions of this  
13 Ordinance (and its appendices) which can be given effect without the invalid provision or application, and  
14 to this end, the provisions of this Ordinance (and its appendices) are hereby declared to be severable.

15 Section 11. ATTACHMENTS. The following attachments as referenced above in this  
16 Ordinance are attached hereto and by this reference incorporated herein:

17 **APPENDIX A - Schedule of Waste Disposal Fees**

18 **APPENDIX B - Residential Self-Haul Cards**

19 **APPENDIX C - Rural Site Access – Commercial Cards**

20 **APPENDIX D - Schedule of Miscellaneous Fees**

21 **EXHIBIT 1 - Rural Site Service Area #1 and #2**

22 Section 12. EFFECTIVE DATE. This ordinance shall take effect thirty (30) days after its  
23 adoption.”

| <b>Notes:</b>  |  |
| 1) Rate for Transfer Trucks to be determined by individual contracts.  |  |
| 2) Loads of dead sheep or small calves from the Blythe service area separated from other waste will be received at no charge at the Blythe Landfill (daily from 8am to 9am) due to health and safety risk in the vast open canal system in the area.   |  |
| 3) Certified loads of illegally dumped nonhazardous municipal solid waste retrieved along open flowing irrigation canals, which are delivered by the agency responsible for maintaining the canals shall be received at no charge at the Blythe Landfill.  |  |
| 4) The General Manager-Chief Engineer is authorized to recoup costs associated with the segregation of unauthorized waste commingled with routine refuse.  |  |
| * Cash customers prorated to the nearest \$0.25  |  |
| ** Exception - El Sobrante Landfill. Incidental Out of County (OOC) rate established by WM Inc.  |  |

**APPENDIX B TO ORDINANCE NO. 779.20  
RESIDENTIAL SELF-HAUL CARDS  
FOR  
RIVERSIDE COUNTY DEPARTMENT OF WASTE RESOURCES  
Effective July 1, 2019**

The Residential Self-Haul Card shall be necessary for admittance to the Mecca II and Oasis Landfills for all residential haulers.

**RESIDENTIAL CARD REGULATIONS:**

**Authority:** Riverside County Ordinance No. 657 requires that, "Every tenant, occupier, operator, or owner of a residence... shall not less than once a week, cause to be removed all solid waste created, produced or brought upon the property to an approved disposal facility."

1. **Number of Uses** - The Residential Self-Haul Card allows up to 52-400 lb. standard load uses per year (approximately 4 uses per month).
2. **Expiration Date** - The expiration date for all cards is the last day of the fiscal year, June 30th. In addition, any unused punches for each month will expire on the last day of that month.
3. **No Refunds** - There will be no refunds on partially used cards.
4. **Standard Load** - The maximum load allowed access to the landfill with one use of the Residential Self-Haul Card will be four hundred (400) pounds, which is equivalent to one punch on the card. If the Gate Services Assistant judges a load to be over this Standard Load limit, two or more punches will be made to the card.
5. **Cost** - The Residential Self-Haul Card discounted rate is fifteen dollars (\$15.46) per month.
6. **Payment Options – Cards may be purchased:**

| Period   | Cost                       | Number of Punches<br>One Punch Per 400 lb. Standard<br>Load. Additional Punches Applied<br>in Excess of Standard Load. |
|--|----------------------------|--|
| Monthly  | \$15.46                    | 4  |
| Advance Sale - Annual (purchased on or before June 30th) | \$154.58                   | 52 (400 lb. estimated load per punch)  |
| Multiple Months  | \$15.46 x<br>no. of months | 4 x<br>no. of months   |

7. **Lost Cards** - Lost cards are to be reported immediately. The customer will not be responsible for unauthorized use of a card after if it is reported lost to the Waste Resources business office located at 14310 Frederick Street, Moreno Valley, CA 92553, (951) 486-3200.
8. **Maximum Load** – Mecca Landfill will not accept loads greater than 1 ton.
9. **Restrictions on Use of Card** - Household hazardous waste, loads with more than four (4) tires, other hard-to-handle waste, or commercial business waste will not be accepted on this card. Cards may only be used by the resident who paid for the card.
10. **Alternative County Gate Fee Site Usage** – In the event that the rural landfill is unable to accept waste on a normal operating day, customers will be directed to a scaled County landfill and may use their Residential Self Haul Card.

**APPENDIX C TO ORDINANCE NO. 779.20  
RURAL SITE ACCESS – COMMERCIAL CARDS  
FOR  
RIVERSIDE COUNTY DEPARTMENT OF WASTE RESOURCES  
Effective July 1, 2019**

The Rural Site Access Commercial Card shall be necessary for admittance to the Mecca II and Oasis Landfills for all non-permitted/contracted entities hauling commercial waste.

**COMMERCIAL CARD REGULATIONS:**

A Rural Site Access Commercial Card provides for disposal of commercial waste generated within the remote service areas and is required unless a permitted waste hauler or other large commercial users have negotiated a separate contract for disposal access to rural landfills with the County.

1. **Number of Uses** - The Commercial Card will have twenty-four (24) ½ ton available uses.
2. **Expiration Date** - There is no expiration date for the Commercial Card.
3. **No Refunds** - If a commercial operator goes out of business, there shall be no refund for the unused card punches.
4. **Cost** - The Commercial Card will be priced at four hundred eighty six dollars and thirteen cents (\$486.13).
5. **Payment for Card** - The card shall be purchased in advance of usage. Cards may be purchased at any time of the year. Acceptable forms of payment at the fee booth include money order or cashier's check. Cash, personal/business checks, and credit/debit card payments are accepted at the Department's business office or by phone (951-486-3200).
6. **Lost Cards** - Lost cards are to be reported immediately. The customer will not be responsible for unauthorized use of a card after it is reported lost to the Waste Resources business office located at 14310 Frederick St., Moreno Valley, CA. (951) 486-3200.
7. **Maximum Load** - Mecca Landfill will not accept loads greater than 1 ton.
8. **Restrictions on Use of Card** - Hazardous waste, loads with more than 4 tires, or other hard-to-handle waste will not be accepted at these rural sites.
9. **Alternative County Landfill Usage** - In the event that the rural landfill is unable to accept waste on a normal operating day, customers will be directed to a scaled County landfill and may use their Rural Site Commercial Card.

NOTICE OF PUBLIC HEARING BEFORE THE BOARD OF SUPERVISORS OF RIVERSIDE COUNTY

NOTICE IS HEREBY GIVEN that a public hearing at which all interested persons will be heard, will be held before the Board of Supervisors of Riverside County, California, on the 1st Floor Board Chambers, County Administrative Center, 4080 Lemon Street, Riverside, on Tuesday, May 21, 2019 at 9:00 a.m., or as soon as possible thereafter, to consider adoption of the following:

ORDINANCE NO. 779.20

SUMMARY OF ORDINANCE NO. 779.20

AN ORDINANCE OF THE COUNTY OF RIVERSIDE AMENDING ORDINANCE NO. 779

RELATING TO COUNTY SOLID WASTE FACILITIES AND ESTABLISHING FEE

This summary is presented pursuant to California Government Code Section 25124(b): a certified copy of the full text of Ordinance No. 779.20 may be examined at the Office of the Clerk of the Board of Supervisors of the County of Riverside, located at 4080 Lemon Street, 1st Floor, Riverside, California.

Ordinance No. 779.20 amends Ordinance No. 779 in its entirety to conduct the annual update of schedule of fees in the ordinance associated with operations and safety amended

NOTICE OF PUBLIC HEARING BEFORE THE BOARD OF SUPERVISORS OF RIVERSIDE COUNTY

NOTICE IS HEREBY GIVEN that a public hearing at which all interested persons will be heard, will be held before the Board of Supervisors of Riverside County, California, on the 1st Floor Board Chambers, County Administrative Center, 4080 Lemon Street, Riverside, on Tuesday, May 21, 2019 at 9:00 a.m., or as soon as possible thereafter, to consider adoption of the following:

ORDINANCE NO. 779.20

SUMMARY OF ORDINANCE NO. 779.20

AN ORDINANCE OF THE COUNTY OF RIVERSIDE AMENDING ORDINANCE NO. 779

RELATING TO COUNTY SOLID WASTE FACILITIES AND ESTABLISHING FEES

This summary is presented pursuant to California Government Code Section 25124(b): a certified copy of the full text of Ordinance No. 779.20 may be examined at the Office of the Clerk of the Board of Supervisors of the County of Riverside, located at 4080 Lemon Street, 1st Floor, Riverside, California.

Ordinance No. 779.20 amends Ordinance No. 779 in its entirety to conduct the annual update of schedule of fees in the ordinance associated with operations and regulations including waste inspection, salvaging and safety. While the ordinance is amended its entirety, it only involves amendments to the fee schedules reflected in Appendices A, B, C, and D and the map attached as Exhibit 1 to Ordinance No. 779. The regulations and requirements in Ordinance No. 779 continue as they currently exist and no substantive changes to the provisions have been made to Ordinance No. 779. The purpose of the ordinance is to update the fees for the waste collection operations pursuant to the laws and regulations governing such operations to ensure proper cost recovery for the provision of programs and services. Waste

Any person wishing to testify in support of or in opposition to Ordinance No. 779.19 may do so in writing between the date of this notice and the public hearing; or, may appear and be heard at the time and place noted above. All written comments received prior to the public hearing will be submitted to the Board of Supervisors, and the Board of Supervisors will consider such comments, in addition to any oral testimony, before making a decision on Ordinance No. 779.19.

Disposal Fees are reviewed annually, and are subject to CPI adjustment which for this period is 3.05%. Modest fee increases are needed in order to offset impacts due to inflationary factors while meeting the need for capital improvements, and expansion projects, which allow for the continued protection of the general public health and welfare by efficient management of Riverside County's solid waste system. Ordinance No. 779.20 would take effect 30 days after its adoption.

Any person wishing to testify in support of or in opposition to Ordinance No. 779.19 may do so in writing between the date of this notice and the public hearing; or, may appear and be heard at the time and place noted above. All written comments received prior to the public hearing will be submitted to the Board of Supervisors, and the Board of Supervisors will consider such comments, in addition to any oral testimony, before making a decision on Ordinance No. 779.19.

If you challenge the above ordinance in court, you may be limited to raising only those issues you or someone else raised at the public hearing described in this notice, or in written correspondence delivered to the Board of Supervisors at, or prior to, the public hearing. Be advised that as a result of public hearing and the consideration of all public comment, written and oral, the Board of Supervisors may amend, in whole or in part, the proposed ordinance.

Alternative formats available upon request to individuals with disabilities. If you require reasonable accommodation, please contact Clerk of the Board at (951) 955-1063, 72 hours prior to hearing.

Please send all written correspondence to: Clerk of the Board, 4080 Lemon Street, 1st Floor, Post Office Box 1147, Riverside, CA 92502-1147 or email cob@rivco.org

SUBMITTAL TO THE BOARD OF SUPERVISORS  
COUNTY OF RIVERSIDE, STATE OF CALIFORNIA

ITEM  
12.1  
(ID # 9644)

MEETING DATE:  
Tuesday, April 30, 2019

FROM : DEPARTMENT OF WASTE RESOURCES:

SUBJECT: DEPARTMENT OF WASTE RESOURCES: Introduction of Riverside County Ordinance No. 779.20 amending Ordinance No. 779 Relating to County Solid Waste Facilities and Establishing Fees; All Districts. [\$0] (Clerk to Advertise - Set Public Hearing for 5/21/19)

RECOMMENDED MOTION: That the Board of Supervisors:

1. Introduce, read title and waive further reading of proposed Ordinance No. 779.20, an ordinance amending Ordinance No. 779, relating to County Solid Waste Facilities and Establishing Fees; and
2. Direct the Clerk of the Board to set the public hearing on May 21, 2019 for the proposed ordinance amendment changes to be heard and to publish a notice of public hearing date of May 21, 2019, and the Department of Waste Resources (Department) fees pursuant to Government Code Section 6066.

ACTION: Policy, Clerk to Advertise, Set for Hearing

  
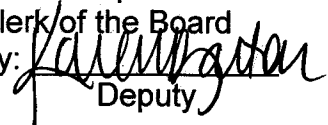

Frans Kemkamp, General Manager - Chief Engineer 4/15/2019

---

MINUTES OF THE BOARD OF SUPERVISORS

On motion of Supervisor Jeffries, seconded by Supervisor Perez and duly carried, IT WAS ORDERED that the above matter is approved as recommended; the above Ordinance is approved as introduced with a waiver of reading; and is set for public hearing on Tuesday, May 21, 2019 at 9:00 a.m. or as soon as possible thereafter.

Ayes: Jeffries, Spiegel, Washington and Perez

**C.E.O. RECOMMENDATION:** Approve

**BACKGROUND:**

**Summary**

In addition to establishing fees and penalties, Ordinance No. 779 includes the basis for operations regulations including waste inspection, salvaging and safety. In order to verify that the current refuse rates are appropriate to offset expenses, the Department prudently reviews its operations annually and forecasts capital improvements, expansion projects, and future expenses and liabilities with a projection of 20 years. Since revenue from in-county tonnage delivered to the landfills represents the majority of the Enterprise Fund's total revenue, it is important to accurately project future tonnage growth or decline. In the last six years, tonnage has increased slightly by an average of 4% annually. Based on tonnage totals through the first six months of FY 18/19, the Department projects that tonnage totals continue to stabilize or slightly decrease due to stricter regulatory compliance requirements and increased fees. The Department is limited to annual Consumer Price Index (CPI) increases for all of its long-term, contracted transfer station hauler and contract franchise area hauler agreements. These contracts represent approximately 90% of the in-county tonnage accepted at the landfills in FY 18/19. The Department proposes to increase landfill disposal fees by the percentage change in CPI for the new Riverside-San Bernardino-Ontario index for the 12 month period ending January 2019, which is calculated to be 3.05%. Minimum load fees will remain at current year levels and are not recommended for an increase in FY 19/20.

The Department also intends to apply the same rates paid to the approved Household Hazardous Waste Contractor which includes a CPI rate increase effective February 26, 2020. The Department will continue to include a Departmental Overhead Rate of 49% to Basic Hourly Rates for Hazardous Waste Inspection staff involved in managing this waste stream as referenced in Appendix D.

The Department will continue to subsidize tire disposal costs for residential customers at the current rate of \$2.00 per tire. Due to permit restrictions that limit the number of tires that may be stored on site, combined with an effort to promote tire recycling versus disposal, the Department proposes to eliminate the per ton rate for tires. In addition, the Department proposes to reduce the allowable per tire limit from 9 tires per day per customer to 5 tires per day per customer and no will longer accept any oversized/commercial vehicle tires (weight greater than 200 pounds, or over 4 feet in diameter). The Department will continue to provide other outlets for tire

**SUBMITTAL TO THE BOARD OF SUPERVISORS COUNTY OF RIVERSIDE,  
STATE OF CALIFORNIA**

disposal including tire amnesty and community clean-up events. Additionally, the Department proposes to fully absorb tire disposal costs for other County agencies (Code Enforcement, Regional Park and Open-Space District, Flood Control District, etc.) involved in the collection of illegally dumped tires.

The Department continues to pilot the operation of a Materials Reuse Store at the Lamb Canyon Landfill. The program will divert recyclable waste streams for reuse. Until full program costs are defined, the Department proposes to charge fees consistent with the value of these commodities. Proposed rates are based on commodity pricing received by the Department in CY 2018, plus a \$6.20 per item surcharge for staff time involved in sorting, inspecting and storing material for sale. The Department will continue to pilot the operation of a Materials Reuse program to identify additional program costs.

In FY 17/18, the Department began to gradually increase the rate for processed green waste used as Alternative Daily Cover (ADC) to equal the disposal rate between now and FY 20/21. In the 1990's after passage of AB 939, the Department began using processed green waste as ADC which allowed for jurisdictions to report this tonnage as diverted waste. This practice also helped to extend the life of landfills because the landfill space that would have otherwise been consumed by clean fill dirt was now occupied by the processed green waste that was previously part of the landfilled waste stream. The Department offered discounted fees to create incentives for landfill users to deliver processed green waste that could be used as ADC. At that time, the Department accepted processed green waste for the purpose of ADC at no charge. In 2009, at the urging of private composting operators, the Department began charging \$10.00/ton for this material in an effort to direct this material to private composting facilities. To reduce the amount of organics being landfilled, the State recently passed into law AB 1826, requiring businesses to begin diverting organics. The State also passed into law AB 1594, which will preclude jurisdictions from counting green waste used as ADC as diverted tonnage when calculating their AB 939 per capita diversion amount. Assembly Bill 1594 will eliminate the diversion benefit that currently exists by 2020 and ADC placed in the landfill will be constituted as disposal. Currently the Department accepts processed green waste for beneficial reuse (erosion control) or ADC at below market rate for a tip fee of \$24.00/ton. This rate is significantly below fees charged by composting facilities in Riverside County as shown:

| Description | Riverside County | Coachella Valley Composting | Edom Hill Transfer Station | Robert A. Nelson Transfer Station |
|-------------|------------------|-----------------------------|----------------------------|-----------------------------------|
| Green Waste |                  |                             |                            |                                   |
| Processed   | \$24.00          | \$38.00                     | \$40.00                    | \$49.50                           |
| Unprocessed | \$49.31          | \$38.00                     | \$40.00                    | \$49.50                           |

The Department is proposing to increase the rate for processed green waste, used as ADC, from \$24/ton to \$32/ton, in a continuing effort to gradually align the rate with the disposal rate.

**SUBMITTAL TO THE BOARD OF SUPERVISORS COUNTY OF RIVERSIDE,  
STATE OF CALIFORNIA**

While the use of ADC in the landfill system has been significantly reduced over the last several years due to the increased use of tarps to cover waste (only 10,722 tons in 2018), any additional revenue generated by the proposed increase will be allocated to the Department's ongoing advancement of organics processing within Riverside County. Processed green waste used as erosion control at the landfills will continue to be charged at the \$10.00 per ton rate for the foreseeable future, as it provides a beneficial use to the landfill system.

Appendix A – Waste Disposal Fees proposed rates changes are as follows:

|--|---------|--------|-----|

**Impact on Residents and Businesses**

Waste Disposal Fees are reviewed annually, and are subject to CPI adjustment which for this period is 3.05%. Modest fee increases are needed in order to offset impacts due to inflationary factors while meeting the need for capital improvements, and expansion projects, which allow for the continued protection of the general public health and welfare by efficient management of Riverside County's solid waste system. The proposed Waste Disposal Fees charged under Ordinance No. 779.20 are the lowest in the southern California region, and the Department does not anticipate an increase in illegal dumping, nor impacts to residents or businesses.

**RIVERSIDE COUNTY BOARD OF SUPERVISORS**

**SUMMARY OF ORDINANCE NO. 779.20**

**AN ORDINANCE OF THE COUNTY OF RIVERSIDE AMENDING ORDINANCE NO. 779  
RELATING TO COUNTY SOLID WASTE FACILITIES AND ESTABLISHING FEES**

This summary is presented pursuant to California Government Code Section 25124(b): a certified copy of the full text of Ordinance No. 779.20 may be examined at the Office of the Clerk of the Board of Supervisors of the County of Riverside, located at 4080 Lemon Street, 1<sup>st</sup> Floor, Riverside, California.

Ordinance No. 779.20 amends Ordinance No. 779 in its entirety to conduct the annual update of schedule of fees in the ordinance associated with operations and regulations including waste inspection, salvaging and safety. While the ordinance is amended in its entirety, it only involves amendments to the fee schedules reflected in Appendices A, B, C, D and the map attached as Exhibit 1 to Ordinance No. 779. The regulations and requirements in Ordinance No. 779 continue as they currently exist and no substantive changes to the provisions have been made to Ordinance No. 779. The purpose of the ordinance is to update the fees that have already been established for the waste collection operations pursuant to the laws and regulations governing such operations to ensure proper cost recovery for the provision of programs and services. Waste Disposal Fees are reviewed annually, and are subject to CPI adjustment which for this period is 3.05%. Modest fee increases are needed in order to offset impacts due to inflationary factors while meeting the need for capital improvements, and expansion projects, which allow for the continued protection of the general public health and welfare by efficient management of Riverside County's solid waste system. Ordinance No. 779.20 would take effect 30 days after its adoption.

I HEREBY CERTIFY that at a regular meeting of the Board of Supervisors of said County, held on **May 21, 2019**, the foregoing Ordinance consisting of two (2) sections was adopted by said Board by the following vote:

AYES: Jeffries, Spiegel, Washington, Perez and Hewitt

RIVERSIDE COUNTY BOARD OF SUPERVISORS

### SUMMARY OF ORDINANCE NO. 779.20 AN ORDINANCE OF THE COUNTY OF RIVERSIDE AMENDING ORDINANCE NO. 779 RELATING TO COUNTY SOLID WASTE FACILITIES AND ESTABLISHING FEES

This summary is presented pursuant to California Government Code Section 25124(b); a certified copy of the full text of Ordinance No. 779.20 may be examined at the Office of the Clerk of the Board of Supervisors of the County of Riverside, located at 4080 Lemon Street, 1st Floor, Riverside, California.

Ordinance No. 779.20 amends Ordinance No. 779 in its entirety to conduct the annual update of schedule of fees in the ordinance associated with operations and regulations including waste inspection, salvaging and safety. While the ordinance is amended in its entirety, it only involves amendments to the fee schedules reflected in Appendices A, B, C, D and the map attached as Exhibit 1 to Ordinance No. 779. The regulations and requirements in Ordinance No. 779 continue as they currently exist and no substantive changes to the provisions have been made to Ordinance No. 779. The purpose of the ordinance is to update the fees that have already been established for the waste collection operations pursuant to the laws and regulations governing such operations to ensure proper cost recovery for the provision of programs and services. Waste Disposal Fees are reviewed annually, and are subject to CPI adjustment which for this period is 3.05%. Modest fee increases are needed in order to offset impacts due to inflationary factors while meeting the need for capital improvements, and expansion projects, which allow for the continued protection of the general public health and welfare by efficient management of Riverside County's solid waste system. Ordinance No. 779.20 would take effect 30 days after its adoption.

I HEREBY CERTIFY that at a regular meeting of the Board of Supervisors of said County, held on May 21, 2019, the foregoing Ordinance consisting of two (2) sections was adopted by said Board by the following vote:

AYES: Jeffries, Spiegel, Washington, Perez and Hewitt  
NAYS: None  
ABSENT: None

Kecia R. Harper, Clerk of the Board  
By: Karen Barton, Board Assistant
