

SUBMITTAL TO THE BOARD OF SUPERVISORS  
COUNTY OF RIVERSIDE, STATE OF CALIFORNIA

ITEM  
3.11  
(ID # 9542)

**MEETING DATE:**

Tuesday, June 25, 2019

**FROM :** ECONOMIC DEVELOPMENT AGENCY (EDA):

**SUBJECT:** ECONOMIC DEVELOPMENT AGENCY (EDA): Approve ChargePoint Quote #Q-55-070-1-R1 for Network Software and Assure Maintenance and Management Services for Electric Vehicle (EV) Charging stations without seeking competitive bids for FY19/20 - FY23/24 and authorize the Chairman of the Board to sign the Agreement on behalf of the County [All Districts], [Total Cost \$129,450]; Energy Division Funds 100%

**RECOMMENDED MOTION:** That the Board of Supervisors:

1. Approve the Network Software and Assure Maintenance and Management Services for Quote #Q-55-070-1-R-1 with ChargePoint Inc. for EV Charging Stations without seeking competitive bids for support coverage from July 1, 2019, through August 30, 2023, and authorize the Chairman of the Board to sign the Agreement on behalf of the County and;
2. Authorize the Purchasing Agent to issue a Purchase Order to ChargePoint Inc., for the Network Software and Assure Maintenance and Management Services in the amount of \$129,449.59.

**ACTION:**Policy

A handwritten signature in black ink, appearing to read "Robert Field", is written over a horizontal line.

Robert Field, Assistant County Executive Officer/ECD

**C.E.O. RECOMMENDATION:** Approve

**BACKGROUND:**

**Summary**

On December 5, 2011, the County of Riverside Economic Development Agency (EDA) Energy Division received notification that the County had been awarded grant funding providing for five electric vehicle charging stations on county-owned sites. On February 28, 2012 (M.O. 3.33), the Board of Supervisors approved the ChargePoint California Station Award Agreement and the Master Services and Subscription Agreement with Coulomb Technologies, Inc. ("CTI"), now known as ChargePoint, Inc. Pursuant to these agreements, CTI installed the five charging stations using the grant funding.

In 2018, the Energy Division completed a California Energy Commission (CEC) grant to install an additional 45 Electric Vehicle (EV) Charging Stations on multiple sites throughout the County. ChargePoint was the awarded manufacturer for this grant due to their ability to meet all of the stringent specifications required by the CEC. ChargePoint provides comprehensive support and delivery of grant requirements including maintenance and network services. These services were necessary to facilitate reporting requirements by the CEC grant. There are a total of 69 EV charging stations and 130 charging ports located on County-owned property throughout Riverside County.

The Network Software plan has expired, and renewal of the plan is required for continuous operation of existing EV charging stations. While the EV charging stations themselves can be procured through multiple vendors, only the manufacturer (ChargePoint) can provide the network software services and ChargePoint is currently the market leader in this category. The ChargePoint stations only operate on the ChargePoint Network. As such, there are no alternate suppliers for this application. The ChargePoint network uniquely allows Riverside County to manage all aspects of county-owned electric vehicle charging stations. Through a web-based dashboard, Riverside County can track station usage and energy costs, set pricing, process payments, run reports and deliver 24x7 driver support. The ChargePoint network also notifies station owners by email when any station is having operational issues. ChargePoint Assure is a comprehensive maintenance and management program and guarantees a 98% annual station uptime for all stations covered under the plan. The Network Software and Assure Maintenance and Management Services plans are a necessary component keeping these stations operational for grant reporting and cost recovery

**SUBMITTAL TO THE BOARD OF SUPERVISORS COUNTY OF RIVERSIDE,  
STATE OF CALIFORNIA**

Four of the county-owned EV charging stations require new maintenance and management service programs. Forty-four of the county-owned EV charging stations and 104 charging ports already have service and maintenance programs but with varying expiration dates (i.e., non-concurrent). The attached ChargePoint Quote #Q-55-070-1-R1 ("Quote") will add new service programs for those four stations, extend network software services and maintenance and management services for the 44 EV charging stations and 104 ports, and make the term and duration of the services concurrent so that the expiration dates fall on the same date.

To-date, county-owned EV charging stations have reduced 280 metric tons of Carbon Dioxide from Riverside County air. That is equivalent to removing the greenhouse gas emissions of 62.5 passenger vehicles driven on the roads for one year. As of May 31, 2019, there have been a total of 74,023 EV charging sessions. This is an increase of 44,416 sessions from May 31, 2018. These efforts contribute to Riverside County's commitment to air quality improvements.

**Impact on Residents and Businesses**

The EV Charging stations have dramatically increased the availability of charging locations for both employees and the general public throughout the County of Riverside at workplaces and along travel and destination corridors. Encouraging the use of electric vehicles and providing this necessary infrastructure removes harmful greenhouse gases from the air in Riverside County.

**Additional Fiscal Information**

The EDA Energy Division has proposed a rate for cost recovery of electricity, network software services, and maintenance and management services to ensure funding of this item. The Network Software and Assure Maintenance and Management Services provide continuous operation of charging station equipment while providing a mechanism for cost recovery of the expenses related to this effort.

**Contract History and Price Reasonableness**

The EDA Energy Division has collaborated with County Purchasing and is seeking approval to issue a Purchase Order (PO) for the five year renewal quote of the ChargePoint subscription services. Approval of the quote will co-term 104 ports with network subscriptions and 48 ports with assure maintenance plans through 8/30/2023. In addition to saving \$2,396 for site validations, by co-termining until 2023 the County is saving \$61 per port or a total of \$6,344 over four years as ChargePoint builds in discounts to its list prices for multiple year renewals. This provides the County with the opportunity to lock in current discounted pricing and budget for future renewals which could include price increases not yet known.

Subject: Sole or Single Source Procurement; Request for Electric Vehicle Charging Station Network Subscription

The below information is provided in support of my Department requesting approval for a sole or single source.

1. **Supplier being requested:** ChargePoint, Inc.
2. **Vendor ID:** 117846
3. ☐ **Single Source** ☒ **Sole Source**
4. **Have you previously requested and received approval for a sole or single source request for this vendor for your department?**

☒ **Yes** ☐ **No**  
SSJ# 18-201

- 4a. **Was the request approved for a different project?**

☒ **Yes** ☐ **No**

5. **Supply/Service being requested:** Electric Vehicle (EV) charging station network subscription renewal for 104 ports and assure maintenance renewal for 48 charging stations. The quote from ChargePoint (attached) syncs the network subscription and assurance maintenance plans for the group to 8/30/2023.
6. **Unique features of the supply/service being requested from this supplier.** The network service renewal is required to continue the operation of existing equipment. The ChargePoint stations only operate on the ChargePoint Network. As such, there are no alternative suppliers for this application. While the EV charging stations themselves can be procured through multiple vendors, only the manufacturer (ChargePoint) can provide the network subscription. The network service is an ongoing re-

quirement for operating the ChargePoint EV stations. ChargePoint assure is a comprehensive maintenance and management program and guarantees a 98% annual station uptime for all stations covered under the plan.

7. **Reasons why my department requires these unique features from the vendor and what benefit will accrue to the county:** The ChargePoint network uniquely allows Riverside County to manage all aspects of county-owned electric vehicle charging stations. Through a web-based dashboard, County can track station usage and energy costs, set pricing, process payments, run reports and deliver 24x7 driver support. The ChargePoint network also notifies station owners by email when any station is having operational problems. Furthermore, the stations have the capability through the network subscription to shed electrical load when required by an electric utility.

8. **Period of Performance:** From: 7/01/2019 – 8/30/2023  
(FY19/20 – FY23/24 partial)

Is this an annually renewable contract?

☒ No

☐ Yes

Is this a fixed-term agreement:

☐ No

☒ Yes

Pre-payment of software and maintenance services are for the total period referenced.

9. **Identify all costs for this requested purchase. In addition, please include any single or sole source amounts previously approved and related to this project and vendor in the section designated below for current and future fiscal years. You do not need to include previous fiscal year amounts. If approval is for multiple years, ongoing costs must be identified below. If annual increases apply to ongoing costs such as CPI or other contract increases, provide the estimated annual cost for each consecutive year. If the annual increase may exceed the Purchasing Agent's authority, Board approval must be obtained. (Note: ongoing costs may include but are not limited to subscriptions, licenses, maintenance, support, etc.)**

Description:	FY18/19	FY19/20	FY20/21	FY21/22	FY22/23	FY23/24	Total
One-time Costs:							
Network & Maintenance Services	\$129,449.59	Pre-paid	Pre-paid	Pre-paid	Pre-paid	End 8/30/2023	\$129,449.59
Total Costs	\$129,449.59						\$129,449.59

**10. Price Reasonableness:** Riverside County has already made a significant investment in installing ChargePoint stations. There is no new hardware investment required. This purchase co-terms 104 ports with network subscriptions and 48 ports with assure maintenance plans through 8/30/2023. EDA Energy Division is seeking a 5 year renewal in order to optimize cost savings to the County. In addition to saving \$2,396 for site validations, by co-termining until 2023 the County is saving \$61 per port or a total of \$6,344 over four years as ChargePoint builds in discounts to its list prices for multiple year renewals. This purchase provides the County with the opportunity to lock in current discounted pricing and budget for future renewals which could include price increases not yet known. Additionally, it will save time for EDA Energy staff and other departments in not having to prepare and review Sole Source and Form 11 documentation on a yearly basis. EDA staff is currently working on an Electric Vehicle rate that will provide full cost recovery of the station network and assurance plans.

**11. Projected Board of Supervisor Date (if applicable): June 18, 2019**

## Terms and Conditions

- The provision of cloud services described in this agreement is subject to the terms and conditions of the Master Services and Subscription Agreement between the parties dated February 28, 2012 and the Station Detail Summary located at Exhibit A attached hereto.
- The period of performance for the "New Assure Purchase" services set forth herein shall commence on July 1, 2019 and end on August 30, 2023.
- All invoices are: Net 30 days or prepaid.
- Prices do not include tax where applicable.
- Purchaser confirms that the shipping and billing information provided in the Quotation is accurate for ChargePoint's shipping and invoicing purposes.
- Customer to be invoiced at time of shipment
- Additional purchase terms and conditions can be found at <http://www.chargepoint.com/termsandconditions>
- Successful Site Validation is required to enable ChargePoint Assure. If station/site does not pass Site Validation the customer is responsible for the cost of station or site repairs.
- Cost of site revalidation is \$899.00
- The ports and stations subject to "ChargePoint Network Software Services", "Renew Assure CPE100", and "Renew Assure CT4000" described in this purchase order are currently subject to various purchase orders between Customer and ChargePoint ("Original Purchase Orders"). This purchase order shall extend the term and duration of the services and programs provided under the Original Purchase Orders. If there is any conflict between this purchase order and the Original Purchase Orders, the terms and conditions of this purchase order shall control.

By signing this quote I hereby acknowledge that I have the authority to purchase the product detailed on this document on behalf of my organization. Furthermore, I agree to the terms and conditions set forth above and that this signed quote shall act as a purchase order.
