**BACKGROUND:**

**Summary**

The I-15/Limonite Avenue Interchange Improvement project consists of improving the existing interchange to provide a six lane bridge and modified on-off ramps to improve the level of service for existing and future traffic conditions. On April 17, 2007 the Board of Supervisors approved agenda item 3.35, an agreement with Dokken Engineering to prepare the environmental document, plans, specifications, estimates, and provide project bidding and construction support. On April 22, 2014, the Board of Supervisors approved Amendment No. 1 (agenda item 3.69) and on May 1, 2018, the Board of Supervisors approved Amendment No 2 (agenda item 3.24). Both amendments modified the scope to incorporate additional environmental tasks and to provide final engineering design services necessary to prepare plans, specifications and estimates. The project is currently in construction and is scheduled to be completed in 2020.

Amendment No. 3 will extend the Agreement termination date to December 31, 2020 from December 31, 2019 in order for the engineering consultant to continue providing design support to the construction team and complete the as-built drawings.

**Impact on Residents and Businesses**

The project will improve interchange operations and reduce delays to local and regional traffic. Local businesses and residents will benefit from time savings and reduced congestion.

**Additional Fiscal Information**

Amendment No. 3 is to extend the termination date only, without any additional funds required.
