C.E.O. RECOMMENDATION: Approve

BACKGROUND:

Summary

The Transportation Department proposes to reconstruct or upgrade existing concrete curb ramps at various locations in the Community of Mecca and reconstruct an existing concrete curb ramp in the Community of Bermuda Dunes in the Coachella Valley area of the County of Riverside as part of the Transportation Department goal to provide safe and usable pedestrian facilities for all pedestrians and to comply with the Title II of the Americans with Disabilities Act (ADA) requirements. As part of the ADA requirements, curb ramps must be upgraded when adjoining roads are altered through resurfacing or placement of a thick layer of seal coat. The specific curb ramp locations are listed in "Attachment 1".

The curb ramp upgrades within this district coincide with the proposed slurry seal project for fiscal year 2019-2020 District 4, which will be applied after the curb ramp work is completed. For Districts 1, 2, 3 and 5, similar work for curb ramp upgrades and application of slurry seal is currently being worked on and additional work will be completed on upcoming projects.

On March 12, 2013 (agenda item 3.50), the Riverside County Board of Supervisors approved Resolution No. 2013-024 adopting the "Americans with Disabilities Act (ADA) Self-Evaluation and Transition Plan for Access in the Public Road Right-of-Way" prepared by the Transportation Department.

The Transportation Department is responsible for administering the ADA compliance program for accessible pedestrian facilities within the public road right-of-way.

The proposed Curb Ramp Accesibility project will consist of modifying or removing existing concrete curb ramps and placing back ADA compliant concrete curb ramps. Additionally, proposed upgrades to existing curb ramps will consist of installing yellow detectable warning devices typically consisting of a series of small bumps (or truncated domes) and repairs to street landing slopes to meet ADA compliance. Detectable warning devices alert pedestrians who are blind or visually impaired that there is passing traffic.

STATE OF CALIFORNIA**

The bid documents include two base bid schedules of work:

Base Bid 1: Items of Work Under Project No. D0-0009

Base Bid 2: Items of Work Under Project No. C4-0052

The Transportation Department will select the contractor based upon the lowest responsive and responsible bid of the sum of all bid schedules.

The submitted plans and specifications have been approved as to form by County Counsel.

Project Nos.: D0-0009, Ramp Upgrades Fiscal Year 2019-2020, Distric 4 (Mecca, Bermuda Dunes)
C4-0052, Community of Mecca ADA Ramp Upgrades

Environmental Findings

The project proposes to reconstruct and upgrade existing curb ramps on various roads in the communities of Mecca and Bermuda Dunes. This minor safety improvement is exempt from CEQA under Section 15301(c) because it does not create additional automobile lanes and involves negligible or no expansion of existing or former use of existing roadway and associated facilities.

Impact on Citizens and Businesses

The curb ramps accessibility project is expected to improve access and safety of pedestrians with disabilities. In addition, bringing the curb ramps up to current accessibility standards contributes toward fulfilling the Transportation Department's goals as stated in its ADA Self-Evaluation and Transition Plan for Access in the Public Road Right-of-Way as required by Title II of the Americans with Disabilities Act.

SUPPLEMENTAL:

Additional Fiscal Information

The construction contract is estimated to cost approximately \$603,100 and construction is anticipated to be completed in FY 2019/2020. The Curb Ramp Accessibility Project will be funded with Gas Tax / HUTA, Measure A – Western, and SB 821 (Local Transportation Funds).

The SB 821 funds were secured through a Countywide process in which the Transportation Department successfully completed.

There are no General Funds used in this project.

PROJECT DESCRIPTION: The Riverside County Transportation Department (RCTD) proposes to reconstruct and/or modify all existing non-compliant curb ramps within the downtown community of Mecca to meet current federal and state accessibility requirements. The curb ramp project is bounded by 66th Avenue to the south, 63rd Avenue to the north, Hammond Road to the west, and Johnson Street to the east. The project also proposes to reconstruct a curb ramp at Fred Waring Road and Port Maria Road in Bermuda Dunes. The proposed project will include the following:

- Reconstruction of non ADA compliant curb ramps
- Reconstruction of asphalt concrete, spandrel, and gutter adjacent to non ADA compliant curb ramps
- Utility relocation

ENVIRONMENTAL ANALYSIS:

The proposed project will be constructed within existing County right of way. Temporary construction easements may be required for the proposed improvements.

This project is subject to compliance with the Coachella Valley Multiple Species Habitat Conservation Plan (MSHCP). In accordance with Section 7.1 of the Coachella Valley MSHCP, necessary operation and maintenance along existing roadways are considered a covered activity.

If tree or vegetation removal takes place during the migratory bird breeding season from March 1 to September 1, a pre-construction nesting survey will be conducted pursuant to the Migratory Bird Treaty Act (MBTA).

The Riverside County Transportation Department has found that the above-described project is exempt from the provisions of the California Environmental Quality Act (CEQA), based on the following:

Section 15301 (c) – Existing Facilities – The project proposes to reconstruct and upgrade existing curb ramps on various roads in the community of Mecca & Bermuda Dunes. This minor safety improvement project is exempt from CEQA under Section 15301 (c) because it does not create additional traffic lanes and involves negligible or no expansion of existing or former use of the existing roadway and associated facilities.
