**C.E.O. RECOMMENDATION:**

**BACKGROUND:**

**Summary**

The local emergency began due to an intense winter storm that delivered extreme amounts of rainfall over the Riverside County Operational Area including the Canyon 1, Holy Fire, and Cranston Burn areas beginning February 13, 2019. The storm caused flooding, mud and debris flows which in turn caused the evacuation of residents, road closures, damage to property and critical infrastructure, and necessitated the rescue of residents to include numerous swift water resources. The Director of Emergency Services proclaimed that a "Local Emergency" exists in Riverside County, which was ratified by the Board of Supervisors at their meeting of February 26, 2019.

It is requested that the Board of Supervisors adopt Resolution No. 2019-240 to extend the Proclamation of Local Emergency.

**Impact on Residents and Businesses**

Approximately 16,700 County residents were evacuated from their homes or required to shelter in place and were at high risk of injury, death, or loss of property due to mud and debris flows from the Canyon 1, Cranston, and Holy Burn Scar areas. The County has implemented emergency measures to protect the public by controlling traffic and prohibiting ingress and egress into affected areas due to conditions considered dangerous to lives and property.
