

SUBMITTAL TO THE BOARD OF SUPERVISORS
COUNTY OF RIVERSIDE, STATE OF CALIFORNIA

ITEM: 3.43
(ID # 11500)

MEETING DATE:
Tuesday, January 28, 2020

FROM : HUMAN RESOURCES:

SUBJECT: HUMAN RESOURCES: Human Resources Occupational Health Internal Service
Fund Rates for Fiscal Year 2020/2021, All Districts. [\$0]

RECOMMENDED MOTION: That the Board of Supervisors:

1. Approve the Assistant County Executive Officer/Human Resources Director's recommendation for Fiscal year 2020/21 Occupational Health Internal Service Fund rates as included in the Cost Allocation Plan attached.

ACTION: Policy

Brenda Diederichs
Brenda Diederichs, Assistant CEO / Human Resources Director 12/30/2019

MINUTES OF THE BOARD OF SUPERVISORS

Brenda Diederichs
On motion of Supervisor Perez, seconded by Supervisor Spiegel and duly carried by unanimous vote, IT WAS ORDERED that the above matter is approved as recommended.

Ayes: Jeffries, Spiegel, Washington, Perez and Hewitt
Nays: None
Absent: None
Date: January 28, 2020
xc: HR

Kecia R. Harper
Clerk of the Board

NET COUNTY COST	\$ 0	\$0	\$0	\$ 0
SOURCE OF FUNDS: Departmental Budgets 100%			Budget Adjustment:	No
			For Fiscal Year:	20/21

C.E.O. RECOMMENDATION: Approve

BACKGROUND:

Summary (continued)

that prospective employees will experience with the County, setting the tone for expectations for those who have chosen to join the County work community. Drug testing is completed for prospective employees in accordance with Board Policy C-10.

Some job classifications have more stringent pre-employment restrictions established by state and federal legal guidelines to ensure a healthy working environment for employees and to mitigate risk to citizens receiving services. There are three levels of pre-employment physicals identified as Class I, Class II, and Class III. Class I physicals are performed for job classifications with the highest risk and Class III physicals are performed for the lowest risk classifications. Rates for all classes of pre-employment physicals can be found in Attachment A.

Specific classifications may also require that polygraph examinations, psychological testing, or both, be performed. Although these services have standard rates, they also have different rates for external vendors and an hourly component for more extensive consultations. Rates for polygraph and psychological testing can also be found in Attachment A.

While employed at the County, Occupational Health annual physicals are performed specifically to meet guidelines established by the Occupational Safety and Health Administration (OSHA), published by the United States Department of Labor and also the Health Insurance Portability and Accountability Act (HIPAA), published by the United States Department of Health and Human Services, that have outlined safety standards that must be maintained for many positions held across the County of Riverside. Medical staff members, hazardous waste handlers, and drivers each have their own rules regarding annual physicals. Random testing may also be required. Occupational Health provides the examinations to meet these requirements. Annual exams are also identified as Class I, Class II, or Class III due to the

**SUBMITTAL TO THE BOARD OF SUPERVISORS COUNTY OF RIVERSIDE,
STATE OF CALIFORNIA**

commonality shared with the pre-employment exams. Rates for Annual exams can also be found in Attachment A.

Two years ago, Occupational Health rates were raised for the first time in the last ten years. Since there is not enough history with the new rates, fiscal year 20/21 rates will be held flat while the new rates are evaluated. The increase shown is due to variability in revenue from year to year that can be attributed to staffing changes and changes in demand for services countywide.

Conclusion

The Occupational Health Department rates are building a history which will allow proper evaluation in future periods. When developing the FY 21/22 rates, another time study will be completed as there will be sufficient historical data available to make more reliable projections.

Impact on Residents and Businesses

There is no impact on residents and businesses as these are rates to internal County departments.

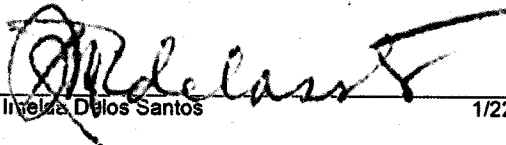

SUPPLEMENTAL:

Additional Fiscal Information

Occupational Health rates are being held flat to evaluate the adequacy of the new rates implemented two years ago to sustain capital requirements and to maintain current service levels. With the exception of the Polygraph rate reduction of \$42 per exam, the rates are the same as last year.

ATTACHMENTS:

ATTACHMENT A. FY 2020-21 Occupational Health Cost Allocation Plan

Inez D. Santos 1/22/2020

**Occupational Health Department
FY 2020-2021**

**Internal Service Fund
Riverside County, California
Cost Allocation Plan**

The following Cost Plan by the Occupational Health Department of Riverside County, California outlines what comprises the reimbursement fees charged to the various county departments for providing fitness for duty (FFD), post-offer physicals, drug screens, and annual physicals. These services are comprised of various procedures, including blood testing, vaccinations, or physical examinations. The Occupational Health department does not provide treatment or ongoing physical therapy. These services are provided through third party vendors and coordinated through the County's self-insured Workers' Compensation department.

Internal Service Rates to be charged for providing Occupational Health Services

The intention of this cost plan is to allocate the full cost of operating an occupational health services department within the County of Riverside, California, to comply with local, state, and federal regulations that surround the reimbursement of the cost of these services.

2 CFR Appendix A to Part 225 - General Principles for Determining Allowable Costs.

§ 225.5 Purpose. This part establishes principles and standards for determining costs for Federal awards carried out through grants, cost reimbursement contracts, and other agreements with State and local governments and federally-recognized Indian tribal governments (governmental units).

For state and local governments, see "Appendix V to Part 225—State/Local Governmentwide Central Service Cost Allocation Plans, paragraph E.1."

Allocated Central Services

Occupational Health is made up of approximately 27 employees who provide polygraph exams, psychological evaluations, physicals, blood draws, urine collection, drug testing, medical review, vision testing, hearing testing, tuberculosis (TB) testing, in addition to a wide variety of vaccinations and other services listed on the rate schedule attached to this cost plan. They are located at the RCIC building in Riverside in a space that is leased by the Information Technology Department, (RCIT), and the CPC building in Moreno Valley in a space that is leased by the County Regional University Health System, (RUHS). Occupational Health is billed their allocated share of each of the buildings by the Facilities Department and the hospital via journal entry.

Use of External Vendors

Certain components of the Occupational Health processes are performed by third party vendors. Costs of outside agencies that provide medical review services or drug screening are passed through to the customer agencies at actual costs. Rates are made up of only those costs related to the operation of the internal occupational health program. External vendors are paid as part of operating expenses. The costs are then distributed to the customer departments via an allocation journal entry, allowing a single point of contact for the vendors, irrespective of the employees whom are ultimately receiving the services or the department they represent.

Reasonable costs

The Occupational Health Program was developed as part of a strategic plan with the Workers' Compensation Division to reduce the costs associated with health –related absences by ensuring candidates are matched with appropriate jobs, and that their subsequent job-related exposures and health conditions are managed by a central Human Resources-based organization. Ordinance 440 places responsibility with the Human Resources Department for the conduct of Post-offer examinations, but the actual medical examinations must be performed by a licensed occupational health physician.

Functions of the Occupational Health Program

1. **Post-offer exams and Annual physicals:**
Newly hired employee physical exams are different as they are used to identify any relevant restrictions that should be addressed at the onset of employment. Annual physicals are performed to meet mandated health standards. For both Post-offer and annual exams, there are three classifications of exams based on the volume and complexity of procedures to be provided. Class I, Class II, and Class III are how they are referenced, whereas Class I represents the most extensive and Class III are the least extensive exams. See **Schedule A** for a description of individual procedures that may occur for each of the physicals. A time study that accumulated data for various procedures was conducted in May of 2016 and the rates that are included in **Schedule B** are the result.
2. **Conduct vaccination/medical surveillance**
On pre-scheduled dates throughout the County of Riverside, employees of the County are offered flu vaccinations to reduce the incidence of illness during cold and flu season. The vaccines are provided by Riverside University Health System, (RUHS) at no charge. The cost of sending Occupational Health employees to administer the vaccines is not billed out, but rather is included in allocable indirect cost.
3. **Psychological Evaluation / Polygraph Examination**
Law enforcement make use of polygraph exams as part of their background investigations. In addition, psychological evaluations are also performed as part of pre-employment procedures for law enforcement and for ongoing psychological fitness testing.

Rate Revenue: Allocable costs

The items of expense to be included in the cost of service are as follows: direct and indirect salaries and benefits, operating expenses, and allocation of costs from other internal service organizations. These costs are accumulated and distributed to the County departments by developing a standard rate per physical exam based on the frequency and cost of services provided in the base year. Due to the resulting benefit derived by having an occupational health organization, the Workers' Compensation Division will provide an appropriate annual contribution to reduce rate costs to user departments. Rates were derived by referencing actuals data from FY 2018/19 per-county policy. There are three standard rates to be used for billing departments for physical exams depending on the timing and job classification for which the services are being provided:

Description*	Post-Offer	Annual
1. Class I Physical	\$ 440	\$ 370
2. Class II Physical	370	290
3. Class III Physical	290	120

Single procedure rates are used when departments direct an employee to come to Occupational Health for only a specific procedure rather than a complete physical exam. For these encounters, there is a table of Single Procedure rates that is referenced for billing purposes. **

Estimated Revenues from standard rates and Single Procedures combined:	\$2,285,562
Estimated Revenues from Psych Evaluation, Polygraphs, and FFDs:	406,652
Contribution from Workers' Compensation Division in FY 2020/21	1,938,339

Due to the consistent volume of activity for their department, the Sheriff's Office funds several positions directly to ensure immediate service for their needs.

For FY 2020/21, the funding estimate for these positions is projected to be \$464,814
Actual costs will be charged to the Sheriff's Office.

**Procedures included in each physical are listed in Schedule A. The mix of procedures performed for a particular physical vary depending on the responsibilities and potential exposures of the job.*

***A complete rate schedule for all Single Procedures is provided in Schedule B.*

Composition of Cost

1. Total cost. Total Costs include a portion of Salaries and Benefits of every element included in a "medical service encounter." The encounter has been separated into various functions from check-in to final file review. A time study recorded all encounters over a four-week period, resulting in a sufficient number of samples to support the time each element of an encounter requires, on average, and the extended cost of employees to perform the elements of each encounter.

2. Classification of costs. Direct Costs are viewed as those costs related specifically to each encounter or each specific service provided.

A. Direct Costs

Direct costs are comprised of activities that make up the elements of an encounter.

Direct Nursing/Physician Services cost	\$ 2,635,428
--	--------------

Encounter activities : Check-in, registration, creation of a file, taking vital statistics, blood draw, labs, Fit test, vaccination, EKG, tuberculosis testing, audio test, vision test, physical examination, file review, urine collection, X-Ray order form, medical review officer, psych evaluations, polygraph exams, etc.

B. Indirect Costs

Indirect Costs are those costs related to the general and administrative operations that support the occupational health process. General management, accounting, purchasing, and records maintenance are all functions considered indirect cost of the Occupational Health Program.

Indirect Services cost	\$ 1,107,955
------------------------	--------------

C. Operating Costs

Much of the operating costs represents expenses that are ordered from outside vendors on behalf of departments such as: drug screen testing, polygraph examinations, and fitness for duty evaluations. The expenses incurred for these services are journaled to the user departments at no extra charge. The reimbursement of these expenses is excluded from the calculation of standard rates for physical exams. The operating cost estimate for FY 2020/21 and anticipated reimbursement are:

Operating Expenses	\$ 1,042,922
Reimbursement of Pass-Through Expenses	\$ (342,500)

D. Interagency Services

There are several internal service funds in the County of Riverside which allocate costs to every organization within the County. These are: Facilities, Auditor-Controller's Office, Human Resources, Workers' Compensation, General Liability, Property Insurance, Information Technology, and others.

RCIT	\$ 244,368
Rent-Lease Buildings	334,645
Workers' Compensation*	44,556
Human Resources – <i>HR Rate plus temporary services charges</i>	34,023
Insurance-Malpractice, Liability, Property	24,668
County Counsel	6,000
County Support Service	4,706
Unemployment Insurance*	5,137
Auditing And Accounting	3,152
Total Interagency Charges	\$ 701,255

*Workers' compensation and unemployment insurance costs are included in the list of interagency service costs, but their costs are also included in A. Direct Costs labor ; therefore, total budgeted expenses are \$5,387,560.

Post-offer Physicals

SCHEDULE A

Post-offer Class I Physical:

- Physical Exam by Physician/PA
- Vital Signs
- Urine Drug Screen
- Urine Test Strip
- Urinalysis
- Blood Draw
 - Quantiferon
 - Comprehensive Metabolic Panel
 - Complete Blood Count
 - Lipid Panel
 - Hepatitis B Panel
 - MMRV Titer
 - Mercury
 - Lead
 - Zinc
 - Sickle Cell Screen
- Tuberculin Skin Test
- TB Screening Form
- EKG, resting 12 lead
- EKG, Treadmill
- Vision Test
- Audiometry Test
- Pulmonary Function Testing
- Chest X-Ray
- Fecal Immunochemistry
- Long Respirator Form
- Tdap Vaccine
- Hepatitis B Vaccine

Post-offer Physicals

SCHEDULE A

Post-offer Class II Physical:

- Physical Exam by Physician/PA
- Vital Signs
- Urine Drug Screen
- Blood Draw
 - Quantiferon
 - Comprehensive Metabolic Panel
 - Complete Blood Count
 - Hepatitis B Panel
 - MMRV Titer
 - Rabies Titer
- Tuberculin Skin Test
- TB Screening Form
- Chest X-Ray
- Vision Test
- Fit Test
- OSHA Respirator Evaluation Questionnaire
- Hazardous Drug Handler Questionnaire
- Tdap Vaccine
- Hepatitis B Vaccine
- Rabies Vaccine

Post-offer Physicals

Post-offer Class III Physical:

- Medical History Questionnaire Nurse Review
- Vital Signs
- Blood Draw
 - Quantiferon
 - Hepatitis B Titer
 - MMRV Titer
- Tuberculin Skin Test
- TB Screening Form
- Chest X-Ray
- Post Offer Work Restriction Declaration Form
- Hepatitis B Vaccine
- MMR Vaccine
- Varicella Vaccine

Annual Physicals

SCHEDULE A

Class I Annual Physical:

- Physical Exam by Physician/PA
- Vital Signs
- Urine Test Strip
- Urinalysis
- Blood Draw
 - Quantiferon
 - Comprehensive Metabolic Panel
 - Complete Blood Count
 - Lipid Panel
 - Hepatitis B Panel
 - MMRV Titer
 - Mercury
 - Lead
 - Zinc
- EKG, resting 12 lead
- EKG, Treadmill
- Vision Test
- Audiometry Test
- Pulmonary Function Testing
- Chest X-Ray
- Fecal Immunochemistry
- Long Respirator Form
- Tdap Vaccine
- Hepatitis B Vaccine

Annual Physicals

SCHEDULE A

Class II Annual Physical:

- Physical Exam by Physician/PA
- Vital Signs
- Urine Test Strip
- Urinalysis
- Blood Draw
 - Quantiferon
 - Comprehensive Metabolic Panel
 - Complete Blood Count
 - Lipid Panel
 - Hepatitis B Panel
 - MMRV Titer
 - Mercury
 - Lead
 - Zinc
- EKG, resting 12 lead
- Pulmonary Function Testing
- Chest X-Ray
- Fecal Immunochemistry
- Long Respirator Form
- Tdap Vaccine
- Hepatitis B Vaccine

Class III Annual Physical:

- Annual Health Screening Questionnaire
- OSHA Respirator Evaluation Questionnaire
- Hazardous Drug Handler Questionnaire
- Blood Draw
 - Quantiferon
 - Complete Blood Count
 - Comprehensive Metabolic Panel
 - MMRV Titer
 - Hepatitis B Titer
- Tuberculin Skin Test
- TB Screening Form
- Chest X-Ray
- Fit test
- Annual Airborne/Bloodborne Pathogen Training
- Hepatitis B Vaccine
- MMR Vaccine
- Varicella Vaccine
- Rabies Vaccine
