**BACKGROUND:**

**Summary**

The California Department of Public Health (CDPH) expects Local Health Departments (LHD) to subcontract with partners based on their capacity to implement policy, systems and environmental (PSE) change interventions required in Riverside County’s Integrated Work Plan (IWP). The CDPH objectives expect continued engagement at sites with previous CalFresh Healthy Living interventions. For the past five years, Reach Out West End (Reach Out) has facilitated five Impact/Outcome Evaluation (IOE) projects and Supplemental Nutrition Assistance Program Education (SNAP-Ed) interventions to engage Jurupa Valley students and their families. Through their “Healthy Jurupa Valley” initiative, many residents, businesses and community partners have mobilized to take action for healthier communities. The continuity that Reach Out provides to implement the IOE project, while advancing and sustaining the PSE efforts initiated in school and community sites over the previous five years cannot be fulfilled by another subcontractor.

The partnership between Riverside County Department of Public Health (DOPH) CalFresh Healthy Living grant and the experience Reach Out provides are necessary for the success of the IOE project. Their efforts will expand to implementing policy-based approaches to increasing access to healthy food by supporting food pantries in Jurupa Valley, Corona and Moreno Valley. A change in the IWP or subcontractor would create a minimum six-month delay in implementing the CalFresh Healthy Living grant and returning Riverside County SNAP-Ed funds.

This Agreement between Reach Out West End and Riverside County Department of Public Health for Supplemental Nutrition Assistance Program Education (SNAP-Ed) will be in the amount of \$360,000 for the period of performance of October 1, 2019 through September 30, 2022.

STATE OF CALIFORNIA**

**Impact on Residents and Businesses**

Residents throughout the greater Jurupa Valley, Corona and Moreno Valley areas will benefit from improved food access (quality, location, variety and quantity). Food pantries will receive technical support and resources that enhance their capacity to provide healthier foods to their customers, while reducing less healthy foods and beverages as part of the CalFresh Healthy Living program. Selected schools in Jurupa Unified School District will receive nutrition and physical activity education programs for students and families.

**SUPPLEMENTAL:**

**Additional Fiscal Information**

DOPH receives 100% of its CalFresh Healthy Living program funding from the State of California as a pass through from the Federal government. The CalFresh Healthy Living program funding is based on the federal fiscal year. The California Department of Public Health (CDPH) expects Local Health Departments to subcontract funds to local partners.

The table below outlines how the funds will be distributed to Reach Out over the three-year period of the agreement and the funding allocation for the county budget fiscal years.

Federal and County Fiscal Year Budget Comparison Table					
Federal Fiscal Year		FFY 19/20	FFY 20/21	FFY21/22	TOTAL
Agreement Amount		\$120,000	\$120,000	\$120,000	\$360,000
County Fiscal Year	FY19/20	FY20/21	FY21/22	FY22/23	TOTAL
Budget Amount	\$ 90,000	\$120,000	\$120,000	\$30,000	\$360,000

**Contract History**

Reach Out is deemed a Single Source without seeking competitive bids as they have successfully administered five Impact/Outcome Evaluation (IOE) Projects, requiring strengths of standardization in curriculum fidelity, data entry, pre- and post-test administration and strict coordination with school, DOPH, and state evaluators. Their existing relationships with the City of Jurupa Valley and Jurupa Unified School District makes them the ideal partner for DOPH in implementing the CalFresh Healthy Living Program. A change in the IWP or subcontractor would create a minimum six-month delay in implementing the CalFresh Healthy Living Program and returning Riverside County SNAP-Ed funds. Reach Out is a subcontractor to be funded \$360,000 based on the level of services indicated in the Integrated Work Plan (IWP) specified by our funding agreement with the CDPH for the CalFresh Healthy Living grant.

## **Section A: OVERVIEW**

### **Objective**

Funding for Policy, Systems and Environmental (PSE) change strategies and activities to improve the nutrition and physical activity environment for SNAP-Ed eligible recipients.

### **PSE Strategies**

#### **Access to Healthy Foods**

**Policies, systems, and environmental changes that ensure food purchased, provided, or made available is healthy.** *Includes policy, system and/or environmental work that increases access to fresh, healthy, locally sourced fruit and vegetables, as well as other healthy products. Healthy food can be procured from farms, gardens, grocers, food rescue organizations, and/or food distributors (of locally sourced products), i.e. farm to community or institution, purchasing systems, and partnerships.*

#### **Behavioral Economics**

**Healthy behavior marketing activities, specifically at the point of decision, using economic incentives/methods for purchasing and consumption behavior.** *Examples include placement of healthy foods, point of purchase prompts, pricing and other food access or restriction, and can also relate to physical activity. Activities can include work that addresses the pricing of food and beverage options to influence access. This may align with price matching or buyer incentive programs. Behavioral economics usually does not involve education but influences spontaneous or unconscious selections at the point of decision.*

#### **Daily Quality Physical Activity**

**Work that establishes and supports (through policy, systems and/or environmental changes) daily, quality time for age- and ability-appropriate physical activity and encourages individuals to meet the Physical Activity Guidelines for Americans.** *At early childhood centers, preschools and school sites, it is particularly important that quality structured physical activity, active free play (recess) and physical education (at schools) be provided for all students/children on a daily basis.*

### **PSE Levels**

**Site Level:** *Targeted SNAP-Ed allowable activities to establish, implement and sustain written policies, systems and environmental changes through comprehensive programming at the site level, and adaptable for each specific location (e.g. at a food pantry or school).*

**Organizational Level:** *Targeted SNAP-Ed allowable activities to establish, implement and sustain written policies, systems and environmental changes at the multi-site level. Organization level efforts would include work at a school district, park district or food bank meant to influence multiple sites under their jurisdiction.*

**Community Level:** *Targeted SNAP-Ed allowable activities to establish, implement and sustain written policies, systems and environmental changes at the community level. Community is defined as work in neighborhoods, communities and jurisdictions (e.g. cities, districts and counties). Community level efforts may involve work to mobilize multiple sectors or partners (food pantry, schools, government programs, non-profits, etc.) to promote and support common SNAP-Ed goals.*

**Funding Priorities**

- 1) Increase access to and consumption of healthy foods and beverages, with an emphasis on increasing consumption of water.
- 2) Decrease access to and consumption of less healthy foods and beverages, with an emphasis on decreasing consumption of Sugar Sweetened Beverages (SSBs).
- 3) Increase physical activity.

**Population Served**

SNAP-Ed eligible Californians with annual household incomes at or below 185 percent of the Federal Poverty Level (FPL) and populations disproportionately impacted by obesity and chronic diseases related to diet and physical activity.

**Site List**

Prior to conducting SNAP-Ed activities at a site, the subcontractor shall verify the site qualifies using one of the approved targeting methodologies below. Once verified, the subcontractor will request RUHS-PH to add the site to the Riverside County site list.

- Free and Reduced Price Meal Data (*School settings*)
  - Schools where at least 50 percent of children in the school receive free and reduced priced meals.
- Means-Tested Settings (Food Pantries)
  - Means-tested settings are qualified by the population they serve and not by their physical location. These sites offer a high likelihood of reaching individuals eligible for CalFresh while they are seeking other services.

**Educational Materials and Resources**

All educational materials, resources and curriculum shall be SNAP-Ed approved and appropriate for the intended SNAP-Ed audience (considering age, ability, language, interest, etc). Each activity will list the approved curriculum, toolkit, and/or resources used.

**Annual Reporting Expectations**

**1. Biannual Progress Report**

Subcontractor will be required to submit to RUHS-PH a Mid-Year Report due early April and Year End Report due early October.

**2. PEARS**

Subcontractor must use the online Program Evaluation and Reporting System (PEARS) to provide information necessary to complete the federally required Education and Administrative Reporting System (EARS) reporting, as well as to report additional program and evaluation activities and outcomes of interest to California SNAP-Ed.

PEARS is designed to link data with local, state, and national objectives, allowing RUHS-PH and subcontractors to more effectively measure and report program impact.

All PEARS reporting must be completed during the Federal Fiscal Year (October 1 -- September 30) to which it relates, and should be kept current on a monthly basis, at minimum.

Subcontractor will report their activities in the following six PEARS modules:

• **PSE**

Subcontractor must use the PSE module to track efforts to make policy, system, and environment (PSE) changes at all stages from planning to maintenance. This module should be completed for all sites and organizations that are involved in SNAP-Ed supported PSE efforts, and include sustainability and reflection.

• **Program Activities**

Subcontractor must report all direct education activities in the Program Activities module. Direct education takes place when a participant is actively engaged in the learning process with an educator and/or interactive media within an evidence-based intervention. Program Activities entries require session dates and length, participant demographics, and information about program objectives.

• **Indirect Activities**

Subcontractor must report all distribution of information and resources, including any mass communications, community events, posters, advertisements, and materials distributions that are not considered direct education in the Indirect Activities module.

**Reach Out – FFY2020-2022 Integrated Work Plan**  
**Supplemental Nutrition Assistance Program-Education (SNAP-Ed) /**  
**CalFresh Healthy Living grant**

- **Success Stories**

Subcontractor must submit at least one PSE-related success story annually. The story should relate to PSE efforts that happened during the Federal Fiscal Year in which it took place and follow the instructions provided by RUHS-PH.

- **Partnerships**

Subcontractor must use this module to report any non-funded, unobligated partners that willingly donate free materials or services, in direct support for CalFresh Healthy Living activities or PSE efforts.

- **Coalitions**

Subcontractor must use this module to report any multi-sector coalition activities or other relevant collective impact initiatives with a robust variety of partners contributing.

**3. Assessment Tool Data**

Site level assessment tools are intended to assist with program planning and can be useful to assess changes in institutional policies and practices over time. Assessment tools for priority settings will be made available to the subcontractor for schools, food bank and food pantry sites.

All-subcontractors must complete an annual assessment of all sites where they are doing site-level PSE SNAP-Ed work in all settings for which standardized assessment tools are made available.

**4. Impact and Outcome Evaluation (IOE)**

Subcontractor must collect pre and post behavioral outcome data on two intervention and two comparison sites using the *Eating and Activity Tool for Students (EATS)* survey. Subcontractor must use standard assessment tools in intervention and comparison sites prior to delivering education, and document intervention efforts in PEARS and any other reporting form determined by RUHS-PH. Subcontractor is encouraged to evaluate their most potentially impactful interventions, which should include both education and PSE components. Annually in late June, subcontractor will submit data files with IOE report and the upcoming IOE plan to RUHS-PH.

- (3) Contractor agrees that damages alone would be inadequate to compensate CDPH for breach of any term of this Intellectual Property Exhibit by Contractor. The statement must include at a minimum, General Use, Security and Privacy safeguards, Unacceptable Use, and Enforcement Policies. The statement must be signed by the workforce member prior to access to CDPH PCI. The statement must be renewed annually. The Contractor shall retain each person's written confidentiality statement for CDPH inspection for a period of three (3) years following contract termination.
- B. **Background check.** Before a member of the Contractor's workforce may access CDPH PCI, the Contractor must conduct a thorough background check of that worker and evaluate the results to assure that there is no indication that the worker may present a risk for theft of confidential data. The Contractor shall retain each workforce member's background check documentation for a period of three (3) years following contract termination.
- C. **Workstation/Laptop encryption.** All workstations and laptops that process and/or store CDPH PCI must be encrypted using a FIPS 140-2 certified algorithm, such as Advanced Encryption Standard (AES), with a 128bit key or higher. The encryption solution must be full disk unless approved by the CDPH Information Security Office.
- D. **Server Security.** Servers containing unencrypted CDPH PCI must have sufficient administrative, physical, and technical controls in place to protect that data, based upon a risk assessment/system security review.
- E. **Minimum Necessary.** Only the minimum necessary amount of CDPH PCI required to perform necessary business functions may be copied, downloaded, or exported.
- F. **Removable media devices.** All electronic files that contain CDPH PCI data must be encrypted when stored on any removable media or portable device (i.e. USB thumb drives, floppies, CD/DVD, smart devices tapes etc.). PCI must be encrypted using a FIPS 140-2 certified algorithm, such as Advanced Encryption Standard (AES), with a 128bit key or higher.
- G. **Antivirus software.** All workstations, laptops and other systems that process and/or store CDPH PCI must install and actively use a comprehensive anti-virus software solution with automatic updates scheduled at least daily.
- H. **Patch Management.** All workstations, laptops and other systems that process and/or store CDPH PCI must have operating system and application security patches applied, with system reboot if necessary. There must be a documented patch management process which determines installation timeframe based on risk assessment and vendor recommendations. At a maximum, all applicable patches must be installed within 30 days of vendor release.
- I. **User IDs and Password Controls.** All users must be issued a unique user name for accessing CDPH PCI. Username must be promptly disabled, deleted, or the password changed upon the transfer or termination of an employee with knowledge of the password.

**Exhibit G**  
**Information Privacy and Security Requirements**  
**(For CDPH WIC Contracts)**

Passwords are not to be shared. Must be at least eight characters. Must be a non-dictionary word. Must not be stored in readable format on the computer. Must be changed every 60 days. Must be changed if revealed or compromised. Must be composed of characters from at least three of the following four groups from the standard keyboard:

- Upper case letters (A-Z)
- Lower case letters (a-z)
- Arabic numerals (0-9)
- Non-alphanumeric characters (punctuation symbols)

J. **Data Sanitization.** All CDPH PCI must be sanitized using NIST Special Publication 800-88 standard methods for data sanitization when the CDPH PCI is no longer needed.

2. **System Security Controls**

- A. **System Timeout.** The system must provide an automatic timeout, requiring reauthentication of the user session after no more than 20 minutes of inactivity.

User must be directed to log off the system if they do not agree with these requirements.
- C. **System Logging.** The system must maintain an automated audit trail which can identify the user or system process which initiates a request for CDPH PCI, or which alters CDPH PCI. The audit trail must be date and time stamped, must log both successful and failed accesses, must be read only, and must be restricted to authorized users. This logging must be included for all user privilege levels including, but not limited to, systems administrators. If CDPH PCI is stored in a database, database logging functionality must be enabled. Audit trail data must be archived for at least 3 years after occurrence.
- D. **Access Controls.** The system must use role based access controls for all user authentications, enforcing the principle of least privilege.
- E. **Transmission encryption.** All data transmissions of CDPH PCI outside the contractor's secure internal network must be encrypted using a FIPS 140-2 certified algorithm, such as Advanced Encryption Standard (AES), with a 128bit key or higher. Encryption can be end to end at the network level, or the data files containing CDPH PCI can be encrypted. This requirement pertains to any type of CDPH PCI in motion such as website access, file transfer, and E-Mail.
- F. **Intrusion Detection.** All systems involved in accessing, holding, transporting, and protecting CDPH PCI that are accessible via the Internet must be protected by a comprehensive intrusion detection and prevention solution.

Emergency means any circumstance or situation that causes normal computer operations to become unavailable for use in performing the work required under this agreement for more than 24 hours.
- B. **Data Backup Plan.** The Contractor must have established documented procedures to securely backup CDPH PCI to maintain retrievable exact copies of CDPH PCI. The backups shall be encrypted. The plan must include a regular schedule for making backups, storing backups offsite, an inventory of backup media, and the amount of time to restore CDPH PCI should it be lost. At a minimum, the schedule must be a weekly full backup and monthly offsite storage of CDPH data.

**5. Paper Document Controls**

- A. **Supervision of Data.** CDPH PCI in paper form shall not be left unattended at any time, unless it is locked in a file cabinet, file room, desk or office.
