BACKGROUND:

Summary

Waste Collection Franchise Agreements covering most unincorporated portions of Riverside County were phased in between 1997 and 1998. Within each of the existing eleven Franchise Agreements is a provision for an annual adjustment of the rates effective each July 1st. The franchise areas (Areas) are spread throughout the entire county unincorporated area and are present within each Supervisor's District.

This adjustment allows a pass through for any changes to landfill costs including the Alternative Daily Cover surcharge or transfer station fees, plus an increase based on Consumer Price Index (CPI) for the balance of the rate. Costs are adjusted by the CPI for the Riverside/San Bernardino/Ontario, California, as published by the United States Department of Labor, Bureau of Labor Statistics. The proposed rates were adjusted as delineated in the franchise agreement using a CPI of 3.0% for the twelve (12) month period January 2019 through December 2019.

The detailed rate calculation worksheets factoring in the CPI increase have been reviewed for accuracy and the updated rate sheets are maintained by the Department of Environmental Health.

Recycling Processing Fees

California Law mandates each jurisdiction divert at least 50% of the waste material it generates. To meet that mandate, the waste haulers provide residential curbside recycling bins and commercial recycling bins to divert recyclables to processors and away for the landfill. In the past these programs provided the waste haulers with a marketable commodity that could be used to offset the costs associated with collection, processing and transporting recyclable materials to other markets. Recent changes in the global market for recyclable materials have had a negative impact on a large number of recyclable material types and raised the price of processing and moving material while also depressing the commodity prices of those materials. Foreign initiatives, such as Green Fence, National Sword and Blue Sky from China, have limited or removed markets for materials while also causing a ripple effect of similar limitations or bans in other countries where recyclable materials were previously accepted.

**SUBMITTAL TO THE BOARD OF SUPERVISORS COUNTY OF RIVERSIDE,
STATE OF CALIFORNIA**

For the 20/21 fiscal year, Burrtec is requesting a \$0.60 increase over the base \$0.74 monthly recycling offset fee approved last year for all residential customers with recycling bins. Commercial recycling accounts will be increased an equivalent rate based on bin sizes and frequency of pick-up.

Impact on Residents and Businesses

The current typical residential accounts pay \$24.83 a month. The approval of the proposed 3.0% CPI increase and recycling fee would result in an increase to \$26.20 a month. Commercial customers rates vary based on the size of bins and frequency of services provided. Waste service would increase by 3.0% of the base rate.

The approval of this change will result in no cost to the County; implementation expenses are borne by the franchisee.
