DAS will use the grant funds to purchase additional microchip scanners to use in the field, enhance the animal control officer's technology to assist with returning animals to their owner's in the field when the animal has a microchip, promote fostering, provide owners faced with relinquishing their pet with resource assistance to help them keep their pet, and provide grant-funded spay or neuter surgeries to community cats.

Staff recommend accepting the grant, approving the Grant Agreement, and authorizing the Director of DAS to execute the Grant Agreement.

Impact on Residents and Businesses

The grant funding will have a positive impact on Riverside County residents and their pets. The funding will provide DAS the opportunity to assist residents with animal food, cat litter, spay or neuter surgeries, etc.
